

are not kings. We have been elected by these people in a representative government to come up here. We have fiduciary duties. That is the highest responsibility of duty to our Nation and to its people, to do what will protect the public interest and will protect our country and allow our country to remain strong into the future.

Right now, the number one issue at the very front is a missile defense system.

In conclusion, I ask every one of my colleagues, regardless of what State you are from, whether you are from Massachusetts or Florida or Oregon or Colorado, that you step forward and start giving political support so that we can then advance the technological support to implement, as President George W. Bush has asked, a missile defensive system to protect the citizens and future generations of this country. It is our responsibility. It is not our neighbor's responsibility. It is our responsibility. I hope each and every one of us carries it out to the fullest extent.
