

Mr. TAYLOR of Mississippi. Mr. Speaker, I think the first place we have to start is with the legislation I introduced last week, with a constitutional amendment that honors the promise that was made to Americans, a constitutional amendment that protects the Social Security Trust Fund, a constitutional amendment that protects the Medicare trust fund, a constitutional amendment that protects our public employees' retirement system, a constitutional amendment that protects our military retirement system. I introduced it last week. I would invite the gentleman from Texas (Mr. TURNER) and every Member of Congress to coauthor it. I would invite every American to demand that their Congress keep the promises that were made to them, and start with a constitutional amendment that says from this day forward, we will stop stealing from Social Security and we will stop stealing from Medicare and we will stop stealing from military retirement, we will stop stealing from the civilian retirement, and our highest priority is going to be to pay back those funds that have already been taken.

Mr. TURNER. Mr. Speaker, it sounds like to me if the gentleman's constitutional amendment had been the law in the Federal Government, that the trust funds of the Federal Government would be just like the trust funds that I am familiar with from my service in the Texas legislature. Because at the State level, and I suspect in every State in the union, when they set up the State employees' retirement trust fund and the teacher retirement system trust fund, the legislature actually puts dollars into those funds that are truly locked away and invested over time in real assets that are earning interest and increasing the value, the cash asset value of those trust funds. But because in Washington, we created trust funds that we allowed the government, the Congresses of years past to borrow from to do other things, what we are left with in Washington is trust funds with no cash, with no investment value, other than the fact that they hold an IOU, a Treasury obligation that does earn interest, but ultimately can only be paid through the taxing power of the Federal Government, because there is really no money there to pay the benefits that are guaranteed to the Social Security recipients, to the Medicare recipients, to the Federal employees who retire, to the military retirees. It is the taxing power of the future that will have to be used to honor those commitments.
