#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. SNOWE:

S. 1559. A bill to amend the Ports and Waterways Safety Act to provide that certain information be provided before a vessel arrives in United States waters; to the Committee on Commerce, Science, and Transportation.

Ms. SNOWE. Mr. President, I rise today to introduce the Transparent Sea Act of 2001.

The Coast Guard is a multi-mission agency charged with maintaining our national defense and the safety of our citizens. This is an extraordinary time in our Nation's history and we need to act now and provide the Coast Guard with all of the tools and information necessary to protect our Nation's waterways. This bill allows the Coast Guard to gather vital information about incoming vessels before they reach our ports. This allows them to be pro-active and prevent potential threats from reaching our shores. The sum total of all of our available resources and knowledge must be brought to bear in the defense of our country.

Specifically, my bill would authorize the Coast Guard to obtain the information needed to achieve a greater awareness of possible maritime threats. The bill requires vessels to submit to the Coast Guard prearrival messages not later than 96 hours prior to entering U.S. waters, or such time as deemed necessary by the Secretary of Transportation. This will provide the Coast Guard time to thoroughly examine the information, including the name and flag-country of the vessel, a detailed crew and passenger list, the vessel's cargo, and the port the vessel last departed from. Such a database allows the Coast Guard to track patterns and identify potential problems. The Coast Guard could then deny entry to any vessel that does not meet the notification or listing requirements and intercept any vessels that may pose a threat.

The American people place very high expectations on the Coast Guard. It is incumbent upon us to provide them with the information they need to fulfill those expectations. The Transparent Sea Act of 2001 has the support of the Coast Guard and I look forward to moving the bill to the Senate floor at the earliest opportunity.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1559

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

By Mr. AKAKA:

S. 1560. A bill to strengthen United States capabilities in environmental detection and the monitoring of biological agents; to the Committee on Health, Education, Labor, and Pensions.

By Mr. AKAKA (for himself and Mr. ROCKEFELLER):

S. 1561. A bill to strengthen the preparedness of health care providers within the Department of Veterans Affairs and community hospitals to respond to bioterrorism; to the Committee on Veterans' Affairs.

Mr. AKAKA. Mr. President, I rise to introduce two separate but related bills that address the crucial issue of our national preparedness for acts of bioterrorism. I plan to introduce a third bill next week. As we have learned firsthand over the past two weeks, bioterrorism preparedness is a topic where we have a considerable set of available resources combined with an urgent need for additional legislative action. The Governmental Affairs Subcommittee on International Security, Proliferation, and Federal Services held hearings in July to learn what the Federal Government is doing to better prepare our communities for acts of bioterrorism.

This morning, the Committee and Subcommittee held a joint hearing. We heard from Health and Human Services Secretary Tommy Thompson on the government's role in lateral coordination of response efforts between federal agencies and vertical coordination of efforts with the local and State agencies that are the first to respond to acts of bioterrorism. All our witnesses provided excellent testimony on the progress in national bioterrorism preparedness since the September 11 terrorist attacks on America.

The bills I introduce today address a set of key issues in our national response to acts of terrorism. First, I am sponsoring legislation to increase funding for research and development of new technologies to detect the use of biological weapons against this nation. Second, I am offering a bill with Senator ROCKEFELLER to strengthen cooperation between the hospital network of the Department of Veterans Affairs and community healthcare workers across the Nation. And, third, I will introduce a measure next week to establish stronger safeguards for our Nation's agricultural system and protection of our crops and livestock from agricultural terrorism.

The first piece of legislation, the Biological Agent Environment Detection Act, authorizes appropriations totaling \$40 million to support research and development of technologies to detect organisms in the air, water, and food
