#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. MURKOWSKI (for himself and Mr. STEVENS):

S. 1816. A bill to provide for the continuation of higher education through the conveyance of certain public lands in the State of Alaska to the University of Alaska, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. MURKOWSKI. Mr. President, the University of Alaska, the University, is Alaska's oldest post-secondary school. The University was chartered prior to statehood and has played a vital role in educating Alaskans as well as students from around the world. But the University of Alaska is also an important asset for our Nation. Today it provides a leadership role in Arctic Science and Arctic Engineering Research. Bringing Arctic energy to the Nation has required new breakthroughs in technology and engineering and our need to better understand global climate change has placed a high value of studying the Arctic where climate changes are most easily detected.

Additionally, the University has served as an important cornerstone in Alaska's history. For example, the University housed the Alaska Constitutional Convention where the fathers of statehood carved out the rights and privilege guaranteed to Alaska's citizens. Further, the University of Alaska is proud of the fact that it began life as the Alaska Agricultural and Mining College. However, what makes the University of Alaska truly unique is the fact that it is the only land grant college in the Nation that is virtually landless.

As my colleagues know, one of the oldest and most respected ways of financing America's educational system has been the land grant system. Established in 1785, this practice gives land to schools and universities for their use in supporting their educational endeavors. In 1862, Congress passed the Morrill Act which created the land grant colleges and universities as a way to underwrite the cost of higher education to more and more Americans. These colleges and universities received land from the Federal Government for facility location and, more importantly, as
