

IATTC provided all parties to the Convention give their consent to such adherence. The Protocol also provides that the Member States of any regional economic integration organization that is allowed to adhere to the Protocol are barred from joining or continuing as a party to the Convention except with respect to the Member States' territories that are outside the territorial scope of the treaty establishing the regional economic integration organization.

Allowing the European Union to accede to the Convention is important to the United States because it would mean that the vessels operating under the jurisdiction of the European Union and its Member States would be bound by the conservation and management measures adopted by the IATTC for the fishery resources of the eastern Pacific Ocean.

I recommend that the Senate give early and favorable consideration to the Protocol and give its advice and consent to ratification.

WILLIAM J. CLINTON.

THE WHITE HOUSE, *January 8, 2001.*

Mr. REID. Mr. President, I ask unanimous consent that two notices of hearings be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:
