

Church in practically every capacity of leadership. In 1943, Pastor Scales entered the organized work of the church as a literature evangelist in the Ohio Conference. He began conducting Bible study and was so successful that 17 of the 23 in attendance were baptized. Pastor and Mrs. Scales had many accomplishments over the years. Mrs. Scales shared her musical gift as a soloist, and her personal evangelism skills as a part time Bible Instructor. She is a fantastic cook and has a special gift of encouraging and nurturing those to whom she ministers. From 1945 to 1950, Pastor Scales became Associate Publishing Director, Allegheny Conference; from 1950 to 1966, he was a Singing Evangelist and Bible Instructor in summer evangelism; in the early 1950s, he became Lay Pastor of Bethel S.D.A. Church in Cleveland, Ohio; in 1964, he became the first full time male Bible Instructor for Allegheny Conference; from 1965 to 1971, he began working with his son, Elder W.C. Scales, Jr., as part of the Allegheny Conference Evangelistic Team and coauthored the Real Truth Bible Courses; from 1971 to 1973, he received his ministerial license, and became Assistant Pastor of Baltimore Berea Temple Church; from 1974 to 1976, he served as pastor of Asbury Park, New Jersey District; In 1976, he ordained to the gospel ministry at the Allegheny East Camp Meeting; from 1976 to 1980, he served as pastor of Portsmouth, Virginia District; in 1978, he assisted his son in conducting the Georgetown, Guyana, Crusade; in 1980, he officially retired from organized work and Mrs. Scales retired as a part time Bible Instructor. Pastor and Mrs. Scales have remained active in retirement. Among other things, Pastor Scales has authored an autobiography entitled "Born to Win Souls," and coauthored with his son a book entitled "Practical Evangelism Sermons and Soul-winning Techniques," and conducts workshops and occasional preaching appointments.

A TRIBUTE TO THE FLINDERS
UNIVERSITY INTERNSHIP PRO-
GRAM

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 13, 2002

Mr. FARR of California. Mr. Speaker, today I rise to offer a tribute to Megan Wells and all the others who have contributed to the Flinders University Internship Program.

The effects of the terrorist attacks on September 11th have resonated in the hearts and minds of every American from Maine to California. Half-way around the world in Adelaide, the capital of South Australia, five of Australia's best and brightest young people were faced with a difficult decision. The question in Adelaide was simple enough. Would a group of five university students continue on with their plans to travel to Washington, DC to work in four congressional offices and a news organization as part of their American Studies degree? Fortunately for us all, the students answered with a resounding yes.

Three years ago, the Flinders University of Australia inaugurated a Washington, DC internship program for top students within its American Studies Department. Most of the interns work in congressional offices—making

this program unique certainly for Australian universities and quite possibly for any university system not based in the United States. The program is directed in Washington, DC on volunteer basis by former congressional staffer, Eric Federling.

Mr. Federling's work reflects the understanding that it is in our national interest for the future leaders of the world to understand how our Congress operates. This program is based on the idea of creating lasting bonds by "putting good people with good people in good places" for serious, intensive internships. And, as the Australians would say, to help bridge the "tyranny of distance."

Since the beginning of January, I've had the pleasure to host Megan, who is completing her degree in International Studies. She has exhibited an excellent comprehension of travel and tourism issues and has played an active role in maintaining a link between the United States and Australia. She boosted our morale long before she arrived simply by wanting to venture half-a-world away. I am extremely grateful to her parents, Kerry and Peter Haysman, who have been willing to share their daughter Megan with the people of the 17th District of California.

The Flinders University internship program hits upon a modest formula for successful international exchanges in large part due to the active support of both American and Australian governments. I have not been the only member so fortunate to have participated in this program. Toulas Skiladas of Broken Hill in New South Wales has worked in the office of Senator CHRISTOPHER DODD; Miranda Ramsay of Unley, South Australia has assisted Representative LOUISE SLAUGHTER and her staff; Rachel Mules of Penola, South Australia has joined my California colleague LORETTA SANCHEZ; and Patrick Armitage of North Adelaide has helped explain Washington, DC to the school-aged audiences of Channel One News.

Mr. Speaker, I wish to thank everyone involved in creating and shepherding this internship program from its initial concept to the thriving institution it has become. They have done this nation and the Australian people numerous proud acts of public service, which I hope will continue for many years to come.

IN HONOR OF W. ROGER
HAUGHTON

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 13, 2002

Ms. PELOSI. Mr. Speaker, I rise to salute W. Roger Haughton for his longstanding commitment to the San Francisco community. Roger is the Chairman and CEO of The PMI Group, Inc., ed in San Francisco. Roger was honored at the Bay Area's Junior Achievement Spirit of Achievement Gala, held on December 11, 2001, which was attended by over 500 executives of the Bay Area community. Roger was presented with the "Spirit of Achievement" Award, which recognizes individuals who have demonstrated exceptional entrepreneurial success, leadership and commitment to their community. The honor symbolizes the "spirit of achievement" that Junior Achievement instills in thousands of Bay Area youth

each year through its economic education curriculum.

Roger Haughton and The PMI (Private Mortgage Insurance) Group, Inc. embody the community citizenship and spirit of philanthropy that Junior Achievement endeavors to instill in children across the Bay Area. PMI Group has also been an ardent supporter of the Bay Area community. Through its products and services, and working closely with mortgage lenders, PMI Group has developed many affordable mortgage programs to help families realize their dreams of home ownership. They believe that homeownership helps build strong families which helps build strong communities.

In addition to his role of Director, President and Chief Executive Officer of The PMI Group, Inc., Roger has a long history of active volunteerism with various affordable housing organizations including Habitat for Humanity, which has constructed affordable housing for families throughout the United States. Roger is also on the board as well as being former chairman of Social Compact, a Washington, D.C. organization dedicated to promoting revitalization of America's inner cities, and is also on the board of San Francisco's Bay Area Council.

I am proud to join my constituents in thanking and praising Roger Haughton for his dedication to the Bay Area community. Roger's dedication to the community through his involvement in nonprofit organizations makes him a worthy recipient of the Spirit of Achievement Award. Roger Haughton and PMI are pillars of the Bay Area community; they are servants of exemplary citizenship and spirited philanthropy. We are truly blessed for their generosity and commitment.

LEWIS AND CLARK AND GLOBAL
WARMING

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 13, 2002

Mr. BLUMENAUER. Mr. Speaker, I rise today to express my appreciation and admiration for the students of Lewis and Clark College, which is in my district and is my alma mater. Frustrated with the leadership of this country, these forward-looking students have decided to take the matter of climate change into their hands.

In order to fight global warming, the students have voted to raise their annual student fees by \$10 per student per year. In fact, in a voter turnout that's twice what we see for special elections for local governments, 83.3 percent of the students voted yes. The fee increase will raise enough money to make Lewis and Clark College compliant with the Kyoto treaty through the purchase of "offsets" from the Climate Trust, a non-profit organization. The offset projects that the new fee would support include a web-based commuter matching system that will reduce car traffic in Portland, investments in landfill gas recovery system, and helping to preserve forests on Native American lands in the Northwest.

Studies at Lewis and Clark College have shown that increased parking fees, better transit, and a higher number of students living on campus have had a positive effect on the college's green house gas emissions. In this way,

the college is far ahead of the rest of the country in realizing what we need to do to reduce our contribution to global warming. The United States is the single largest generator of greenhouse gases, contributing one quarter of the global total.

Although the college's emissions are minimal, the students' actions are significant. Lewis and Clark is the first of what will be many colleges across the country developing a climate strategy. It is the collection of these individual actions that will make a difference and eventually shape our nation's policy. One can only hope that when President Bush presents the Administration's proposal on global warming tomorrow, it will include tough mandatory green house gas reductions.

IN HONOR OF WILLIAM R. MILLS,
JR. FOR A CAREER DEDICATED
TO IMPROVING WATER CONDI-
TIONS IN ORANGE COUNTY

HON. LORETTA SANCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 13, 2002

Ms. SANCHEZ. Mr. Speaker, I rise to pay tribute to William R. Mills, Jr. upon his retirement after fifteen years with the Orange County Water District (OCWD).

Mr. Mills was born on April 19, 1937. He received a Bachelor's Degree in Geological Engineering from the Colorado School of Mines in 1959 and went on to receive a Master's Degree in Civil and Environmental Engineering from Loyola University at Los Angeles in 1983.

Mr. Mills started his engineering career as a Second Lieutenant, Engineering Officer in the United States Marine Corps from 1959 to 1963. From there, he began a lifetime dedicated to water resource planning and development, and his efforts have proven invaluable to water supply systems in Southern California and throughout the world. From 1963 to 1966, he worked as a Civil Engineer for the Los Angeles County Flood Control District, Water Conservation Division. In 1966, Mr. Mills went on to work as a Civil Engineer for the California Department of Water Resources, until he was offered a job as President of the Planning and Development Division of the Planning Research Corporation in 1967. There he spent seventeen years directing a staff of 400 as they worked to generate water resource and wastewater reclamation investigations and designs. In the three years prior to his employment with the OCWD, Mr. Mills owned his own water-consulting firm. He was named Water Leader of the Year by the Association of California Water Agencies in 1992, received the Engineer of the Year Award by the Orange County Engineering Council, and was given the Presidential Award for Distinguished Service by the American Desalting Association in 1996. Furthermore, in 1999, he was awarded the Leadership in Engineering and Water Resources Award from the Institute for the Advancement of Engineering. He currently serves as chair of the Association of Ground Water Agencies and is chair of the Association of California Water Agencies' Water Quality Committee.

During his tenure at OCWD, Mr. Mills has been responsible for developing a long range plan for the district aimed at decreasing the

agency's dependence on imported supplies and improving the quality of surface and groundwater supplies. He was instrumental in promoting a program which uses recycled water for irrigation. To date more than \$200 million has been spent on the construction of water recycling plants, groundwater renovation projects, and improvements in the district's extensive groundwater recharge system. OCWD is currently in final design of the Ground Water Replenishment System, an innovative system that will use high-tech filtration to purify waste water, then pump it back into the county's ground-water basin. OCWD's groundwater reservoir provides about 75 percent of the water needs for two million residents. Thanks to the hard work, dedication, and skill of Mr. Mills, OCWD is known internationally for its innovative groundwater management programs and for promoting advanced waste water treatment technologies.

Colleagues, please join me in praise of William R. Mills' career as a globally-renowned, innovative, and forward thinking water expert dedicated to the improvement of water recycling and water storage systems for Southern California. He has dedicated his life to improving the well-being of Southern California's water and of water systems throughout the entire world. Mr. Mills is an asset to his community and to our country, and I am proud to recognize him for his contributions to the well-being of our nation's water.

AUTHORIZING A STUDY ON THE
FEASIBILITY OF DESIGNATING
EAST MAUI AS A NATIONAL
HERITAGE AREA

HON. PATSY T. MINK

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 13, 2002

Mrs. MINK. Mr. Speaker, today I am introducing a bill directing the Secretary of the Interior to study the suitability and feasibility of establishing the East Maui National Heritage Area in the Hana district of East Maui in the State of Hawaii.

National Heritage Areas contain land and properties that reflect the history of their people and may include natural, scenic, historic, cultural, or recreation resources. Conservation and interpretation of these resources are handled by partnerships among federal, state, and local governments and nonprofit organizations.

East Maui is certainly an appropriate candidate for such designation. The Alliance for the Heritage of East Maui (AHM), with assistance from the U.S. Park Service's Rivers, Trails, and Conservation Assistance Program and the Trust for Public Land, have been working for many years to explore ways to protect and interpret the extraordinary historic and natural resources of East Maui. They have already compiled a Resource Inventory that describes East Maui's extensive archaeological sites (ancient trails, burial sites, heiau (temples), petroglyphs, canoe landings, villages, traditional agricultural complexes); historical sites (battle sites, churches, court-houses, irrigation works, bridges, fish ponds, and much more); natural resources that include Haleakala National Park and numerous native forests, endangered species, wildlife preserves, streams, unique beaches—including

ing a green sand beach and red cinder beach; and recreational resources that include several beach parks, recreation areas, trails, and natural area reserves.

Anyone who has taken the drive along the coast of East Maui to Hana knows that this list does not begin to describe the extraordinary beauty and richness of the area. In addition to the physical attributes that make East Maui an excellent candidate for designation as a National Heritage Area, you can add a dedicated cadre of citizens who are committed to ensuring that the people of East Maui be involved in determining the future of the area. They want to be sure that local values and input are reflected in any management plan for a National Heritage Area for East Maui. Indeed, much of the research for the study has already been completed due to the dedication of the Alliance for the Heritage of East Maui. I especially want to recognize Elizabeth Russell, who has been a driving force behind this effort. The Maui County Council has also been very supportive of this initiative.

At present, most of the nation's National Heritage Areas are located east of the Mississippi River. An East Maui National Heritage Area would be a marvelous addition to this program.

HONORING DAVID DONNELLY AND
CINDY BISHOP DONNELLY

HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 13, 2002

Mr. BENTSEN. Mr. Speaker, I rise today in recognition of two friends and constituents, David and Cindy Bishop Donnelly. The Donnelly's will be honored by DiverseWorks, Inc., one of the nation's leading contemporary art centers, at the annual Illumination Gala on February 16, 2002. David and Cindy have been selected for their commitment to the arts in the greater Houston area.

DiverseWorks, Inc., is a non-profit art center dedicated to presenting new visual performing, and literary art. The organization's unique artistic educational and financial stability serve as a model for others across the nation. The staff members and volunteers of DiverseWorks, Inc. provide a tremendous service to young, aspiring artists throughout Houston. The talented people at DiverseWorks are leaders within our community and, this weekend, they recognize some of their most loyal supporters.

David and Cindy have been longtime champions of many civic programs in our community including the Lamar High School Parent Teacher Association. Both have served on the board of DiverseWorks, Inc. for a number of years, with David having served as treasurer for many of those years. The contributions of time and effort by David and Cindy have been instrumental in development of DiverseWorks as a mainstay in the Houston Arts Community.

Mr. Speaker, it is with great honor that I congratulate my constituents, David Donnelly and Cindy Bishop Donnelly on their recognition by DiverseWorks and I thank them for their unyielding commitment to the arts in Houston and Texas.
