the years to come. This bill does not offer specific policy direction, but it does affirm the need for the continued strong federal support for global change research, and it does map out a new emphasis on production of information needed to inform these important policy debates. As the world leader in science and technology, it is incumbent on us to develop solutions that will protect our planet's resources and permit continued economic and social progress for our nation and for the world.

A PROCLAMATION RECOGNIZING JANE LARKE

HON. ROBERT W. NEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 16, 2002

Mr. NEY. Mr. Speaker, whereas, Jane Larke is a professional teacher of science at Tuscarawas Valley High School; and

Whereas, Jane Larke has been selected to receive a Governor's Award for Excellence in Youth Science Opportunities by the Ohio Academy of Science in cooperation with the Office of the Governor and the Ohio Department of Education; and

Whereas, Jane Larke should be commended for reaching this milestone, for her devotion to her students, and for her ongoing efforts to extend science education opportunities beyond the classroom;

Therefore, I join with the residents of the entire 18th Congressional District of Ohio in honoring and congratulating Jane Larke for her outstanding accomplishment.

ED HARRY HONORED

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 16, 2002

Mr. KANJORSKI. Mr. Speaker, I rise today to call the attention of the House of Representatives to the honoring of Ed Harry at the Organized Labor 2002 Dinner to be held on October 24 by the Greater Wilkes-Barre Labor Council and the Northeast Alliance Pennsylvania Retirees District 3. Ed will be honored for his many years of dedicated and outstanding service to the local labor movement and the community.

Ed is the son of a United Mine Workers member and a member of the International Ladies Garment Workers Union. He is a veteran of the Vietnam War, where he worked in Air Force intelligence and spent 1968 and 1969 in Vietnam and Thailand. He began working for the Commonwealth of Pennsylvania in 1971 at Retreat State Hospital. Working as a custodian, he became a shop steward in his department in 1972, and in 1974, he became the chief steward for Local 537 of the American Federation of State County and Municipal Employees. In that capacity, he represented most of the employees at the hospital.

In February 1977, Ed spent 22 months organizing public employees in Florida for AFSCME, traveling throughout the state. In September 1978, he returned to Pennsylvania and began working as a staff representative for District Council 88, based in the Reading office. Following the general election in 1980, Ed was able to come home, where he began working for District Council 87.

He has been a member of the Wilkes-Barre Area Labor Council since 1972 and has served as a trustee for approximately the past 12 years. He has been active in politics, including most statewide and federal campaigns in Pennsylvania, since the 1970s. Ed is an avid sports fan and during his well-deserved retirement, his friends and colleagues know they will be seeing him at many local and college games.

Mr. Speaker, I am pleased to call to the attention of the House of Representatives the achievements and service to the community of Ed Harry, and I wish him all the best.

REMEMBERING SEPTEMBER 11TH

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 16, 2002

Mr. MENENDEZ. Mr. Speaker, September 11th, 2001, hit our New Jersey community hard. We lost neighbors and friends, mothers and fathers and children, sisters and brothers—people who left their homes that fateful day, and crossed the Hudson River, never to return.

The twin towers that were once visible from our waterfront stand no more. The skyline has forever changed.

But the people who were lost that day, while leaving an unspeakable void in our lives, still live on in our hearts and our minds. They are our Heroes: Everyday Heroes who were providing for their families, contributing to their communities; Everyday Heroes who lost their lives in their dedication to protect others. Everyday Heroes. The most incredible kind of heroes. American Heroes. They may not be here, but they do live on, and they will never be forgotten.

We honor them by showing our patriotism; by flying our flag; by fighting terrorism wherever we find its scourge growing; by coming together as One Great People and One Great Nation; and even by finding the faith and the strength to carry on with our lives, raising our children, building our communities, and moving forward with this wonderful creation of democracy and freedom called America.

Yes, September 11th hit our New Jersey community and indeed our Nation hard. But we remember. We persevere. We move forward. And we are stronger and more united than ever before. God Bless America.

AUTHORIZING THE USE OF UNITED STATES ARMED FORCES AGAINST IRAQ

HON. TIM ROEMER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 16, 2002

Mr. ROEMER. Mr. Speaker, I rise as a cosponsor of H.J. Res. 114, authorizing the potential use of United States Armed Forces against Iraq. This will be one of my final votes in Congress, and it is the most solemn duty since I cast one of my first votes in the House on the Gulf War Resolution nearly twelve vears ago.

Last month, President Bush described the Iraqi regime as "a grave and gathering danger" in his speech before the United Nations General Assembly. I generally agree with this characterization, and therefore support this resolution's objective to provide the President with the authority he needs as Commander-in-Chief to curb the threat of terrorism and defend the United States. However, much more time and emphasis should be centered on multilateral efforts to exhaust our diplomatic means to resolve the situation and build a coalition.

The situation in Iraq reflects our most dire and serious concerns about the proliferation of weapons of mass destruction and their potential use against the United States, neighboring countries, our allies, and U.S. troops in the region. There is no question that Saddam Hussein possesses and has used chemical and biological weapons of mass destruction. We know that he has tortured and gassed his own people. His continuing defiance of United Nations disarmament demands including weapons inspections has frustrated the international community for more than a decade.

Whether Saddam Hussein represents an imminent threat to the United States is the most important question we have answered. After examining the evidence and meeting with key members of the Pentagon and the intelligence community, I have concluded that there is ample evidence indicating that Saddam Hussein represents a clear, grave, and growing threat to the United States. While I do not agree with Administration statements about Iraqi connections, at this point, on the September 11 terrorist attacks or the accusations of firm and provable al Qaeda links, the lynch pin for me is weapons of mass destruction. He is seeking to build a nuclear device launched by ballistic missiles with a likely range of hundreds of miles, far enough to strike Saudi Arabia, Israel, Turkey, and other nations in a region where more than 135,000 American civilians and service members live and work.

Earlier this week, the American public learned from the President that Iraq has a growing number of aircraft that could deliver weapons of mass destruction, including a fleet of unmanned aerial vehicles potentially seeking to deliver biological and chemical weapons to target cities in the United States. While it is nearly impossible to determine the status of Iraq's nuclear weapons development, it is clear that Saddam Hussein is reconstituting his nuclear weapons program and will not allow weapons inspectors in to monitor this situation. In fact, recent satellite photographs unclassified by the Administration indicate how extensively a crucial Iraqi nuclear facility had been rebuilt since the United States bombed it in 1998.

Again, notwithstanding this evidence, the United States must thoroughly exhaust every diplomatic and non-military option before resorting to war. That means working with the United Nations to ensure that we build a strong coalition of international support and pressure on Iraq to adhere to a new UN resolution. Should these efforts fail, however, we must be assured the option to use force. This leverage might indeed be the only tool to force Iraq to open up unconditional inspection. We must insist that Saddam Hussein provide unconditional access to his weapons of mass destruction. But facing clear evidence or peril, the United States cannot wait for the final proof that Saddam Hussein can unleash terror and destruction. We have a duty now to prevent this from being accomplished.

Importantly, this resolution contains a preamble setting out important milestones in the recent Iraqi defiance of international law and other matters relating to the United States response to it and to the realities of our global war on terrorism. The resolution also affirms the importance of working in concert with other nations, gives preference to diplomacy over a military solution, and focuses attention where it should be on disarming Saddam Hussein. It also signals our Nation's seriousness of purpose and its willingness to use force, which may yet persuade Iraq to meet its international obligations. I firmly believe that this is the best way to persuade members of the UN Security Council and others in the international community to join us in bringing pressure on Irag or, if required, in using armed force against it to eliminate these biological and chemical weapons.

Moreover, this resolution seeks to assure we will not be diverted from the war on terrorism and provides for the ongoing and constitutional role of Congress to declare war. I agree with the President that confronting the threat posed by Iraq is crucial to winning the war on terror. However, we must not lose sight that there are many other urgent threats that already represent a "clear and present danger," such as the growing number of al Qaeda terrorist cells in Yemen, the Philippines and Indonesia.

I am pleased that the congressional leadership and the executive branch have been able to work together to negotiate a joint resolution that appears to have strong bipartisan and bicameral support. I would have preferred that the resolution include the Biden-Lugar language that I believe would have further limited the scope to removing weapons of mass destruction and possibly ensuring greater international support for our objectives. That is why I supported an amendment offered by Representatives JIM DAVIS, BOB MENENDEZ and BEN CARDIN to require the President to report back to Congress on the "grave" danger posed by Iraq before triggering military force. Unfortunately, however, this amendment was rejected by the Committee on Rules and will not be considered by the full House.

Still, Mr. Speaker, this resolution is a product of good-faith efforts on the part of Congress and the Administration to unite the Nation in response to the Iraqi threat, and I will vote for it. This sends an important signal to the American public and the international community that we support this mission and that our troops will have every resource they require to defend our freedom, diminish the threat of terrorism, and achieve broad worldwide support. I urge my colleagues to support this resolution and pray for the rapid return of our brave men and women in uniform, should they be deployed, to their homes and families.

A PROCLAMATION RECOGNIZING DR. KARL SCHWENK

HON. ROBERT W. NEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 16, 2002

Mr. NEY. Mr. Speaker, whereas, Dr. Karl Schwenk is a professional teacher of science at Tuscarawas Valley High School; and

Whereas, Dr. Schwenk has been selected to receive a Governor's Award for Excellence in Youth Science Opportunities by the Ohio Academy of Science in cooperation with the Office of the Governor and the Ohio Department of Education; and

Whereas, Dr. Schwenk should be commended for reaching this milestone, for his devotion to his students, and for his ongoing efforts to extend science education opportunities beyond the classroom;

Therefore, I join with the residents of the entire 18th Congressional District of Ohio in honoring and congratulating Dr. Karl Schwenk for his outstanding accomplishment.

STS-112 ORBITER ATLANTIS SHUTTLE LAUNCH

HON. JERRY F. COSTELLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES Wednesday, October 16, 2002

Mr. COSTELLO. Mr. Speaker, I rise today to recognize the men and women currently in space aboard the STS-112 Orbiter Atlantis, especially, my constituent Dr. Sandra Magnus. Sandy was born and raised in Belleville, Illinois where she attended Central Junior High School and Belleville West High School. She developed an interest in the space program and in becoming an astronaut while attending Central Junior High School. At the urging of one of her teachers, Mr. Corky Helms, Sandy was encouraged to study the space program—and her dream became a reality.

Dr. Magnus was selected by NASA for the astronaut program in April 1996 and reported to the Johnson Space Center in August 1996. After intensive training and evaluation, she is qualified for flight assignment as a mission specialist.

I had the distinct privilege of accompanying the Administrator of NASA, Mr. Sean O'Keefe, to the Kennedy Space Center for Sandy's first launch on October 7, 2002. While at the Kennedy Space Center, I had the pleasure of visiting with Sandy's parents, Dick and Rose Hall, Corky and Vicki Helms, Bob and Joyce Dintelman, and many of Sandy's friends and family, to watch this memorable day.

Sandy and five fellow shuttle crew members are currently at the International Space Station (ISS). She serves as the flight engineer and has the challenging Job of operating the robotic arm that is employed for the installation of a 15-ton truss that is part of the payload and the transportation of the spacewalkers as they conduct their connections of power, data cables and other external hardware to the truss itself. This truss is the second of 11 such truss structures that will ultimately expand the ISS to the length of a football field and increase the power through the addition of new photovoltaic modules and

solar arrays. This mission is extremely important to further our understanding of space and brings us closer to achieving our goal of completing the ISS.

Mr. Speaker, we are fortunate to have qualified people, like Sandy, in the space program. The crew's impressive level of achievement and accomplishment is a milestone for the space program and serves as proof to young people that dreams really do come true. I ask my colleagues to join me in recognition of all the men and women involved in the success of the mission of STS-112, especially Dr. Sandra Magnus and the crew.

ON PURSUING DEMOCRATIC PRIN-CIPLES IN U.S.-KAZAKHSTAN RE-LATIONS

HON. MARTIN T. MEEHAN

OF MASSACHUSETTS IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 16, 2002

Mr. MEEHAN. Mr. Speaker, as our nation continues to build international partnerships in the war against terrorism, it is important to remind ourselves and the world of the values of democracy and free expression represented by the United States of America.

In the war against terrorism, we have significantly increased levels of communication and cooperation with nations across the globe. No truer is this the case than in the newly independent states of Central Asia. These oil rich nations can be vital allies in eliminating the international terrorist threat. Nevertheless, we must not sacrifice our values in their courtship.

One example clarifies my point. Kazakhstan's President Nursultan Nazarbavev rules with increasing dictatorial force on his populace. His family owns the only legally authorized media outlet in the country. The underground press are sought out and, in noted instances, brutalized. Opposition leaders such as Akezhan Kazhegeldin and others are banned from the country thereby preventing anv true opposition party. President Nazarbayev has not honored his commitment to the Organization for Security and Cooperation in Europe to allow constitutional rights of assembly, speech and representation for the people of Kazakhstan. A federal grand jury in New York is investigating serious allegations of bribery by oil interests resulting in the Swiss government freezing President Nazarbayev's and his family's secret Swiss bank accounts at the request of the U.S. Department of Justice. These are but a few examples.

Mr. Speaker, the United States continues to put millions of dollars into our ally, Kazakhstan. However, one must ask what the average Kazakh citizen thinks of U.S. support during this time of tyranny. A recent editorial in The Economist suggested a frightening answer: "Where people conclude—as some already have—that America and its allies care about nothing except oil revenues and military bases, the West can come to seem the source of their travails, and they become easy converts to extremism." (I ask unanimous consent that the complete editorial be placed in the RECORD at the end of my remarks.)

I am concerned for our long term relationship with the people of Kazakhstan and ask the Administration to pressure the Nazarbayev regime towards a return to democracy. Our
