## HON. MARK FOLEY

OF FLORIDA IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 2002

Mr. FOLEY. Mr. Speaker, I wish to inform you that yesterday I inadvertently misvoted on rollcall No. 97 on final passage of H.R. 476, the Child Custody Protection Act. I have supported this legislation in the past and continue to do so and my intention was to vote in support of it yesterday. I did not realize until after the voting had closed that I had mistakenly voted otherwise. I regret any confusion this may have caused and want the RECORD to reflect my support for H.R. 476.

INTRODUCING LEGISLATION ON PULMONARY HYPERTENSION

## HON. KEVIN BRADY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 2002

Mr. BRADY of Texas. Mr. Speaker, I am pleased today to introduce a concurrent resolution in the House aimed at increasing awareness of the disease pulmonary hypertension. PH is a rare disorder of the lung in which the pressure in the pulmonary artery (the blood vessel that leads from the heart to the lungs) and the hundreds of tiny blood vessels that branch off from it rises above normal levels and may become life threatening.

Symptoms of pulmonary hypertension include shortness of breath with minimal exertion, fatigue, chest pain, dizzy spells and fainting. When PH occurs in the absence of a known cause, it is referred to as primary pulmonary hypertension (PPH). This term should not be construed to mean that because it has a single name it is a single disease. There are likely many unknown causes of PPH.

Secondary pulmonary hypertension (SPH) means the cause of the disease is known. Common causes of SPH are the breathing disorders emphysema and bronchitis. Other less frequent causes are scleroderma, CREST syndrome and systemic lupus. In addition, the use of diet drugs can lead to the disease.

Unfortunately, PH is frequently misdiagnosed and often progresses to late stage by the time it is detected. Although PH is chronic and incurable with a poor survival rate, new treatments are providing a significantly improved quality of life for patients. Recent data indicates that the length of survival is continuing to improve, with some patients able to manage the disorder for 20 years or longer.

A close friend and constituent of mine, Mr. Jack Stibbs, has a daughter who is battling this difficult disease. Emily Stibbs has touched many people with her courage and strength at such a young age. I am pleased to introduce this resolution today to raise awareness in the House and throughout the country about PH. The resolution highlights the need for increased federal investments in biomedical research, and public and professional awareness programs focused on the disease. I encourage my colleagues to join me in the fight against pulmonary hypertension by cosponsoring this resolution.

CONGRATULATING THE TOWN OF WINDSOR, VIRGINIA, ON THEIR CENTENNIAL CELEBRATION

#### HON. J. RANDY FORBES

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 2002

Mr. FORBES. Mr. Speaker, I rise today to congratulate the town of Windsor in Isle of Wight County, in the Commonwealth of Virginia, which is celebrating its centennial this year.

Originally discovered in the 17th Century by early settlers, Windsor served as an important route for mail and trade throughout America's early colonial days. One cannot separate Windsor's history from America's history.

On April 11, 1902, Windsor was granted its charter from the Virginia General Assembly. Since then, Windsor has grown with the times while never forgetting its rich history and small town charm.

Today, Windsor, Virginia, is a culturally and economically diverse community. With its status as one of the best places to live in Virginia and continued high standard of living and education, Windsor is a community that residents can be proud to call home.

Mr. Speaker, I urge you and all of my colleagues to join me in congratulating Windsor during its centennial year as the citizens of Windsor begin an exciting new century.

PAYING TRIBUTE TO DR. RONALD ROBINSON

### HON. SCOTT McINNIS

OF COLORADO IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 2002

Mr. McINNIS. Mr. Speaker, I would like to take this opportunity to pay tribute to Dr. Ronald Robinson and thank him for his extraordinary contributions to the University of Southern Colorado, his alma mater, and to the petroleum-engineering field, to which he has contributed so much. Since graduating from the University of Southern Colorado, Dr. Robinson has become one of the preeminent thinkers and innovators in his field, advancing and overseeing technologies that contribute to making each and every one of our lives better. His remarkable accomplishments are surpassed only by the level of integrity and honesty with which he has conducted himself each and every day, a trait we have come to expect from graduates of the University of Southern Colorado, but one that Dr. Robinson embodies so well. As we celebrate his tremendous accomplishment of receiving the Alumni Achievement Award, let it be known that I, along with the people of Colorado and this nation, applaud his efforts, and are eternally grateful for all that he has accomplished in his distinguished career.

Always the consummate academic, Dr. Robinson graduated from Southern Colorado State College (now the University of Southern Colorado) in 1968, with a degree in math and physics, and then went on to earn his masters in physics from Baylor University, and finally his doctoral degree in petroleum engineering from Texas A&M University. After earning his doctoral degree, Dr. Robinson embarked upon an impressive career in the petroleum engineering industry, emerging time and again as a leader and innovator in the field. In 1996, he was named President of Texaco Technology, where he was responsible for all of Texaco's research, development, engineering, information technology and technical applications throughout the world. While at Texaco, he managed a total operating budget of over \$450 million a year, as well as an investment portfolio of almost \$500 million.

As a testament to his expertise and intellect, in 2001, Dr. Robinson became professor and department head of the Albert B. Stevens Endowed Chair in the Harold Vance Department of Petroleum Engineering at Texas A&M University. He was recently named Chairman of the Board of Verdisys, a provider of satellite broadband infrastructure for energy and rural enterprises, and is a director of the Global Petroleum Research Institute and the Network of Excellence in Training. In addition, he is the Chairman, CEO and President of UniPure. Corp., an energy company that develops process technologies for the oil industry. Perhaps most importantly, he has three children, Kevin, Kyle and Kurt, with his wife Bonnie Lynn Martin.

Mr. Speaker, it is clear that Dr. Ronald Robinson is a man of unparalleled talent, dedication, and intellect, who has, throughout his career, reached extraordinary heights and achieved incredible things. He has proven himself to be among the best in his field, and it is a great honor to be able to bring his many accomplishments to the attention of this body of Congress. It is my privilege to extend to him my sincere congratulations on receiving the Alumni Achievement Award from the University of Southern Colorado, and wish him all the best in his multitude of endeavors.

RESPECT NATIVE AMERICAN SACRED SITES

## HON. BRAD CARSON

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES Thursday, April 18, 2002

Mr. CARSON of Oklahoma. Mr. Speaker, Native American sacred sites usually don't have white-washed siding, a high steeple, or a loud bell. Often they are part of the world around us—a mountain, valley, river, or even a tree but they deserve to be respected and protected as much as any traditional church.

Native Americans have always respected and honored the land, water, and air from which we receive so much. Oral history passed from generation to generation will explain to a tribe where they came from and the journey taken to arrive. Across the country, Native American sacred sites are being threatened with destruction and few options exist to halt the damage. Over the years Congress has enacted laws to "consult" with Indian tribes about sacred areas, and to "accommodate" Indian religious ceremonies.

The problem is that we have thousands of sacred sites on public lands all across this nation and no firm process to disallow certain activities that will harm or destroy the site. We need to find a way to protect the sacred sites while permitting needed growth and energy development to continue. I know we can find the right balance.

RECOGNIZING THE ACHIEVEMENTS OF NALEO ON ITS 25TH ANNI-VERSARY

## HON. HILDA L. SOLIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, April 18, 2002

Ms. SOLIS. Mr. Speaker, I rise today to honor the National Association of Latino Elected and Appointed Officials (NALEO) as it celebrates its 25th year of working towards strengthening the participation of all Latinos in our great democracy.

Founded in 1976, NALEO was established as a non-profit, non-partisan membership organization of the nation's Latino elected and appointed officials. Later in 1981, NALEO Education Fund was instituted to politically empower the greater Latino community. Because of such efforts, NALEO has significantly contributed to the sizeable increase of Latino elected officials over the past couple decades. Today, NALEO is well recognized as the leading nationwide organization of Latino political empowerment.

I especially applaud the efforts of the NALEO Education Fund, which conducts a series of programs geared towards integrating Latino immigrants into American society, developing future leaders among Latino youth, providing assistance and training to the nation's Latino elected and appointed officials, and conducting research on issues important to the Latino community.

I would like to congratulate Arturo Vargas, Executive Director of NALEO for his excellent leadership. I have long supported NALEO and the NALEO Education Fund and offer my sincerest congratulations on a very successful 25 years.

CONGRATULATING LOUISIANA'S CRAIG PERKS ON PGA PLAYERS CHAMPIONSHIP WIN

## HON. CHRISTOPHER JOHN

OF LOUISIANA IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 2002

Mr. JOHN. Mr. Speaker, I rise today to commend Craig Perks, 2002 winner of the PGA Players Championship. Craig and his family are residents of my congressional district in Southwest Louisiana and our community takes great pride in his outstanding accomplishments.

Craig is living proof that hard work and perseverance do bring reward. He has given 110 percent effort to his pursuits since coming to this country from Palmerston North, New Zealand in 1985. His adopted home quickly became South Louisiana, where he and his wife Maureen—a Broussard, Louisiana native—live with their two young children.

An All-American golfer at the University of Louisiana at Lafayette, Craig has continued to give back to the Lafayette community after graduation. As an assistant professional at Le Triomphe Golf Club in Lafayette, he worked on his game while coordinating tournaments and instructing beginning golfers. Now, as a professional in the spotlight, he continues to set an example of sportsmanship and make his chosen home proud.

Craig is an inspiration to golfers not only in my district, but around the world. From Palmerston North, New Zealand to South Louisiana, his efforts have succeeded in promoting and opening the doors of opportunity for "Cajun Golfers" everywhere. I congratulate Craig on his first PGA Tour win. I have no doubt that South Louisiana will continue to follow the rise of our "adopted son" and applaud his efforts in the years to come.
