

elderly come together to recreate, share hobbies and common interests will certainly enhance their quality of life. For 50 years, this senior citizen group has provided opportunities to meet new friends, develop new interests and socialize with peers. For all their efforts, my fellow colleagues, please join me in honoring Club 60, an organization that has been instrumental in meeting the social, physical and mental needs of our senior citizens.

TRIBUTE TO LAKE CITY, FLORIDA'S USO SHOW PERFORMED BY MEMBERS OF THE AMERICAN LEGION AUXILIARY UNIT 57 AND AMERICAN LEGION POST 57, DEPARTMENT OF FLORIDA

### HON. KAREN L. THURMAN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 24, 2002

Mrs. THURMAN. Mr. Speaker, I am here today to pay tribute to a wonderful group of men and women in Lake City, Florida who started their own local USO troupe called Reflections of the USO and are delighting audiences near and far. The 16 members that make up the two performing groups—called the Eloquence and the Sweethearts—are all members of the American Legion Auxiliary Unit 57 or the American Legion Post 57, Department of Florida. As part of their USO show, they wear spirited costumes from the 1950s and '60s and lip synch oldies but goodies once performed by entertainers with the United Service Organization (the USO) for our troops overseas.

In celebration of the USO's 60th birthday, the Lake City group performed a special Valentine's Day dance featuring memorable tunes like Boogie Woogie Bugle Boy. They raised \$300 that night, which the group generously donated to the USO. Since then, the group has continued to entertain audiences throughout the community and state at Lake City Community College, the VA Hospital, the Shriners and a nursing home in Orlando. They've even performed during Elder Day at the state Capitol in Tallahassee.

I'm so proud of them, and their tremendous spirit, enthusiasm and patriotism. Mr. Speaker, please join me in recognizing the following individuals who are part of this unique mission to rekindle the memory of the USO and to keep its work alive: Ginger Fitzgerald; Pat Barribeau; Annette Burnham; Larry Burnham; Gaynell Burnham; Betty Jo Henderson; Wanda Procoplo; Sandy Reeves; Paula Schuck; Pat Priest; Barbara Reppert; Carol Underhill; Alberto Marriott; Mark Thomas; Philip Hearne; Randy Sweet and Marian Wyman.

I would also like to submit for the Record a history of the group called "A Small Flower" written by troupe member, Patricia Barribeau, who is also the Unit National Security Chairman of the American Legion Auxiliary Unit 57.

#### A SMALL FLOWER

Like a seed that blossoms into a beautiful flower, a small project within our Auxiliary blossomed beyond belief. The spirit of the holidays and the challenge to fill the dance hall for our Holly Ball was the beginning. Someone said, "Let's sing some songs when the band takes a break." Eyes rolled and heads wagged. I thought to myself, 'How ridiculous; I've got the voice of a frog.' But six members took the challenge, and little did they know what was in store.

The first undertaking was to decide exactly what we were going to do. This was the point when we discovered that no one could really sing. So we decided instead to choose a few select songs from the past that brought back memories and lip synch. Among the original songs were Boogie Woogie Bugle Boy, Soldier Boy and God Bless The USA. We wore red, white and blue dresses, shiny fabric with long gloves and high heels. Finally, opening night arrived and we were a hit.

We started planning for the Annual Sweetheart Dance soon after the first of the year. Enthusiasm was high so we decided to entertain at the dance. By now, there was a name for the group: The Eloquence. It was time to make the program a little longer so we added two new acts: The Sweethearts, performing Sincerely and Dedicated To The One I Love and Kate Smith with God Bless America. Four women make up The Sweethearts. They wear dark pants, white shirts, sequined red vests, cummerbunds and red bow ties. As for Kate Smith, she wears her signature black dress with a sweetheart neck and a long lovely silk handkerchief. She is truly a vision of her early days. Also, a member of the Sons of the American Legion joined the ranks in his army fatigues. He'd Join in Boogie Woogie Bugle Boy and Hang On Sloop.

The birth of the USO show came about in somewhat of a similar manner. Out of somewhere a voice said, "We look like a USO troupe!" and another said, "Let's build that up." We'll take up a collection for the USO. And before you know it, WWII, Korean War and Vietnam-era songs were being practiced and remembered. We gathered information about the USO from the Internet, the library and the encyclopedia, wrote a history of the USO that would serve as the opening to the show.

The night of the Sweetheart Dance arrived, and we had the jitters. So the District Chaplain had us take hands, bow our heads and ask God to help us through this without making fools of ourselves. We walked onto stage and to our surprise there were more than 350 people in the hall. Thankfully, the show went off without a hitch, and after all expenses, we made \$300, which we sent to the USO in the name of American Legion Auxiliary Unit 57, Lake City, Florida.

Soon, we received numerous invitations to perform. We were asked to entertain for the residents of the Veterans Home in Lake City. We performed at a luncheon for senior citizens from five surrounding counties at the request of the local chapter of the Florida Association of Community Colleges. By now, the telephone calls were streaming in. Could we perform for the Shriners in May to raise more money for the USO? How about coming to the VA Hospital in April? Can you make it to some of the local festivals? Can you entertain at the Veterans of Foreign Wars Post Home? That would be another place where we can take up a collection for the USO. It seemed as if everyone knew about the American Legion Auxiliary USO presentation. We recognized veterans in the community at every program. The most outstanding request of all came when we were asked to appear in Tallahassee in the Rotunda at the Capitol on April 19.

Our local USO dance troupe of the American Legion Auxiliary Unit 57, Florida, is doing more than preserving an old pastime. We are rekindling a love of our country and recognizing our veterans for a job well done. We are also collecting donations for the USO so that they will be able to continue to make life a little better for our young men and women in the military who serve our country so dutifully here and around the world.

This project has truly turned into a very big red poppy.

### TREATMENT FOR PROSTATE CANCER

### HON. PATRICK J. KENNEDY

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 24, 2002

Mr. KENNEDY of Rhode Island. Mr. Speaker, I wish to insert into the RECORD a study published by Health Policy R&D. The study investigates the promise of the use of brachytherapy as a treatment for prostate cancer.

#### STUDY SUMMARY—BRACHYTHERAPY: A DESIRABLE AND COST EFFECTIVE OPTION FOR THE TREATMENT OF PROSTATE CANCER

Brachytherapy (pronounced "brake-e-ther-apy") is a cancer therapy that offers individuals with prostate cancer an effective treatment with lower risks of potentially devastating side effects than the leading clinical alternatives. Brachytherapy is a form of radiation treatment in which a radioactive isotope—or "seed"—is inserted directly into a patient's prostate. Nearly 200,000 men are diagnosed with prostate cancer each year.

This study has been prepared to educate individuals about brachytherapy with hard data and facts. It provides an overview of the science behind brachytherapy, its clinical impact, the relative cost advantages it offers and the improved quality of life it offers to prostate cancer survivors.

This study reveals that if just one in eight men diagnosed with prostate cancer chose brachytherapy over radical prostatectomy, our health care system would save nearly \$93 million annually in direct treatment costs, based on Medicare data. Society would save an additional \$46 million by avoiding expensive complications and lost work time.

Clinical Advantages of Brachytherapy—Lower Rates of Serious Side Effects: Typically a 45-minute outpatient procedure, brachytherapy treats early-stage prostate cancer as well as or better than the alternatives of radical prostatectomy (surgical excision of the prostate) and external beam radiation. In addition, complications occur less frequently in brachytherapy than with radical prostatectomy (still the most common treatment), including—lower risks of erectile dysfunction (also known as impotence), lower risks of urinary incontinence, lower risks of other significant complications, including surgical mortality.

Cost-Effectiveness of Brachytherapy: Brachytherapy offers not only clinically effective treatment, but also cost-effective treatment. Specifically, brachytherapy offers two tiers of cost savings: lower direct treatment costs than radical prostatectomy and lower indirect costs for treatment and mitigation of serious complications.

This study considers the costs that could be avoided annually if just one in eight men of the nearly 200,000 men annually diagnosed with prostate cancer chose brachytherapy over the most common alternative: surgical removal of the prostate. The resulting savings breaks down as follows: \$93 million in direct savings for direct treatment costs, \$21.3 million in treatment costs for erectile dysfunction, \$14.6 million in costs to address urinary incontinence, \$25 million for lost productivity.

The assumptions in this study are conservative. The estimate of savings due to brachytherapy would be even higher if additional considerations were quantified, such

as loss of life from surgical mortality or deteriorations in quality of life from various complications due to radical prostatectomy.

# THE INTRODUCTION OF THE ACADEMIC EXCELLENCE AND ENVIRONMENTAL SCIENCES ACT OF 2002

## HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA  
IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 24, 2002*

Ms. NORTON. Mr. Speaker, Monday was Earth Day, marking the 32nd anniversary of an annual commemoration that has served a very useful purpose. I have chosen to commemorate Earth Day Week by encouraging this Congress to do more to protect the earth every day. I am introducing the Academic Excellence and Environmental Sciences Act. My bill seeks to encourage academic rigor in scientific education by beginning at the lower grades through the study of the environmental sciences and the use of hands-on recycling.

The bill would provide grants to local school systems to encourage them to include in their curricula scientific ideas based on conserving the natural resources children see around them and hands on recycling to make vital connections between knowledge and practice.

This bill has two important goals. The first comes from the difficulty of imparting and explaining scientific ideas and concepts, some of them fairly abstract, to elementary school children, and holding their interest. As a result of this difficulty, in the elementary grades, children are often relegated to "play science" that does not prepare them for later scientific learning.

Second, I believe that hands-on recycling will help children cultivate habits that conserve our resources at the same time that it will help concretize their interest in science and their understanding of scientific concepts. By the time many youngsters are exposed to science in high schools, large numbers of them have lost interest or simply are unready for the rigors that are necessary to become proficient.

We are starting too late to capture and hold the interest of our children in science. The country loses because of the reduced pool of scientists and scientific experts. Increasingly, many of the places for science study in our colleges and universities are occupied by young people from abroad, who come here to study science because this country has the best science in the world. Part of the impetus for my bill comes from my experience in recruiting our own D.C. youngsters to the U.S. military academies. I am pressing my own school system, the D.C. public schools, to begin science and math at earlier years so that children acquire a lasting interest in science and become prepared for the rigors of the military academies and other colleges.

Although the major emphasis of my bill is scientific education for young children, I also hope to encourage recycling approaches. I believe that recycling techniques involving children—saving papers and crushing cans and discussing where these materials come from and why they degrade, etc.—will help give meaning to the teaching underlying scientific ideas. Children may be the best messengers for recycling and for saving the environment

for future generations. They are the real environmentalists in this society. They have the greatest stake.

If we want scientists, we had best get them before they are turned off, even before junior high school; otherwise they are off to computer games or cable and other interests. If we want to save the environment, we had best begin with our children.

# COMMENDING DISTRICT OF COLUMBIA NATIONAL GUARD, THE NATIONAL GUARD BUREAU AND ENTIRE DEPARTMENT OF DEFENSE FOR ASSISTANCE PROVIDED IN RESPONSE TO TERRORIST AND ANTHRAX ATTACKS OF SEPTEMBER AND OCTOBER 2001

SPEECH OF

## HON. ALBERT RUSSELL WYNN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 23, 2002*

Mr. WYNN. Mr. Speaker, I rise in support of H. Con. Res. 378, commending the District of Columbia's National Guard, the National Guard Bureau, and the Department of Defense for their assistance provided to the United States Capitol Police following the terrorist and anthrax attacks of September and October 2001.

The events of September 11 and the subsequent anthrax attacks, increased dramatically the daily workload on U.S. Capitol Police Officers, requiring them to work longer days under difficult conditions. The heightened state of emergency, coupled with the increased need for counter terrorism training, resulted in the deployment of the D.C. National Guard to patrol the Capitol complex with Capitol Police Officers. The National Guard men and women, I am proud to say, stepped up to the plate and performed admirably. The combined efforts of the United States Capitol Police and National Guard secured the symbol of our Nation, the U.S. Capitol, for Members of Congress, Congressional employees, and most importantly, the American people.

As a cosponsor of H. Con. Res. 378, I will vote in favor of this resolution that gives credit where credit is due—to the National Guard and U.S. Capitol Police. I urge my colleagues to support this resolution.

# PERSONAL EXPLANATION

## HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 24, 2002*

Mr. BONIOR. Mr. Speaker, due to a delayed flight to Washington, DC from Michigan, I did not arrive in time to cast votes last night. Had I been present, I would have voted "yes" on the Dooley Motion to Instruct Conferees on the Farm Security Act, H.R. 2646; "yes" on the Baca Motion to Instruct Conferees on the Farm Security Act; and "yes" on the Keeping Children and Families Safe Act, H.R. 3839.

# TRIBUTE TO DR. WILLIAM P. SEXTON

## HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 24, 2002*

Mr. VISCLOSKY. Mr. Speaker, It is with great pleasure and admiration that I congratulate Dr. William P. Sexton, of South Bend, Indiana, as he retires after more than thirty years of devoted service to the University of Notre Dame. I can truly say Dr. Sexton is one of the most dedicated, distinguished and committed citizens I have had the pleasure of knowing. Dr. Sexton will be retiring from the University on June 30, 2002. Notre Dame has certainly been rewarded by the true service and uncompromising loyalty he has displayed to its students, alumni, and community.

A native of Columbus, Ohio, Dr. Sexton earned his bachelor's degree in business administration, his master's degree in industrial management, and his doctorate in administrative management and behavioral sciences at Ohio State University. Dr. Sexton began his teaching career at Notre Dame in 1966, where he taught courses specializing in organizational development, corporate strategy, human behavior and group dynamics.

Dr. Sexton, professor and former chair of management and administrative sciences, currently serves as Vice President for University Relations at Notre Dame. In his role he oversees the University's efforts in community relations, publications, and special events, as well as the Notre Dame Alumni Association and Notre Dame Magazine. Under Dr. Sexton's direction, the University is engaged in the most successful capital campaign in the history of Catholic higher education, which already has surpassed its goal of \$767 million.

During his years at Notre Dame, Bill Sexton has demonstrated a sincere love for the community in which he lives. While he has dedicated considerable time and energy to his work, he has always made an extra effort to give back to the community. He has volunteered his time to champion many causes aimed at bringing comfort to those in need of assistance. Throughout the years, Dr. Sexton has served in many different leadership positions and has been very involved in several organizations including: South Bend's Center for the Homeless, St. Joseph's Regional Medical Center, and the Logan Foundation. Additionally, he has conducted numerous management seminars for U.S. government agencies, hospitals, and religious communities and has served as an advisor to several not-for-profit health care systems.

Though Dr. Sexton is dedicated to his career and community, he has never limited his time and love for his family. He and his wife Ann, have six children and thirteen grandchildren, of whom they are immensely proud.

Mr. Speaker, Bill has truly dedicated his life to his God, Country and Notre Dame. He is one of the finest gentlemen I know. I respectfully ask that you and my other distinguished colleagues join me in congratulating Dr. William P. Sexton for his service to the University of Notre Dame. The people at Notre Dame will surely miss his enthusiasm, but we wish him happiness and good health in his well-deserved retirement.
