

should be moving in that direction. Part of the problem is that we are not able to pay the individuals who work in these child care centers sufficient income to make it worthwhile for them to qualify as early childhood education personnel, so with their low pay and low expectations, we cannot upgrade the child care centers in the way we should be.

There are many aspects to this issue that are very important. The stop-the-clock things on education and child care, drug treatment services that might be needed by that family, domestic violence, sexual abuse conditions, any severe mental illness or physical illness ought to exempt that family from the work requirements.

So I hope that we look at this legislation from the perspective of the family and how hard they are struggling to comply, rather than impose new requirements that are based upon percentage of participation or performance rates that the States are required to do. Rural America cannot possibly meet the 70 percent work requirement that the administration is asking. There are simply no jobs to which these individuals could find any sort of satisfaction of employment.

So I think we have to bear that in mind and find some way in which we can soften the requirement based upon flexibilities given to the States or waiver provisions given to the States where we have large rural populations with high unemployment rates. I think that is a very important quest that we must make in this reauthorization.

Mr. Speaker, I thank you very much for giving me the opportunity to expound on an issue that is very important to me and to 90 other Members of the House. I include for the RECORD a list of the 80 organizations that endorse H.R. 3113.
