this money here and let us give it back to the people who were hurt so badly, that caused the prices to go up and resulted in no price supports and very low farm payments that has resulted in the \$5 billion shortfall.

One of the solutions that many people have advocated is that we simply take the money out of the new farm bill, and my hypothesis here and the reason I am appearing on the floor tonight is to explain to people that this is something that absolutely cannot happen. We have shown earlier that the new farm bill does not appear to be more expensive than what we were doing. It seems to be more accountable. It provides a better safety net, and the other thing to remember is that there is an 80 percent increase in conservation payments. Most environmentalists, most people in cities, most people around the country would say, yeah, we need to protect our environment. and the farm bill does this.

The other thing that is in the farm bill that we did not want to see attacked is rural economic development. We are losing young people at a tremendous rate in rural America. They are simply leaving and they are not coming back. If we do not do something to diversify the economy, if we do not do something to shore up our rural areas and to build up our small towns and to bring in broadband services where they can have high speed Internet access, we are simply going to have a more and more difficult time and we are going to unravel more and more.

We think this is a responsible solution. It does not break the budget because we are not talking about spending money over and above what we thought we were going to spend in the first place. The House has a budget. The House has to stay with a budget. The other body does not have a budget; therefore, they can propose whatever they want to and then ask the President to pass it or veto it. In our case, we have to stay within the budget. In this case, we feel that we are staying within the budget, and we think it is the best thing for agriculture. We think it is the best thing for the country because it is not in the national interest to see a bunch of farmers and ranchers go out of business because of the draught.

Mr. Speaker, I conclude my remarks and we certainly urge consideration for those farmers and ranchers out there who are struggling with drought. We hope some disaster assistance will be forthcoming, and we certainly hope that my colleagues here on the floor of the House will see fit to help them out in the near future.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Ms. Carson of Indiana (at the request of Mr. Gephardt) for today and the balance of the week on account of official business in the district.

Mrs. Mink of Hawaii (at the request of Mr. Gephardt) for today and the balance of the week on account of illness.
