

worldwide, collapsed, not because we attacked it militarily but for financial and economic reasons. They no longer could afford it and the resources and wealth that it drained finally turned the people against its authoritarian rule.

Maintaining an overseas empire is incompatible with the American tradition of liberty and prosperity. The financial drain and the antagonism that it causes with our enemies, and even our friends, will finally force the American people to reject the policy outright. There will be no choice. Gorbachev just walked away and Yeltsin walked in, with barely a ripple. A non-violent revolution of unbelievable historic magnitude occurred and the Cold War ended. We are not immune from such a similar change.

This Soviet collapse ushered in the age of unparalleled American dominance over the entire world and along with it allowed the new expanded hot war between the West and the Muslim East. All the hostility directed toward the West built up over the centuries between the two factions is now directed toward the United States. We are now the only power capable of paying for and literally controlling the Middle East and its cherished wealth, and we have not hesitated. Iraq, with its oil and water and agricultural land, is a prime target of our desire to further expand our dominion. The battle is growing ever so tense with our acceptance and desire to control the Caspian Sea oil riches. But Russia, now licking its wounds and once again accumulating wealth, will not sit idly by and watch the American empire engulf this region. When time runs out for us, we can be sure Russia will once again be ready to fight for control of all those resources in countries adjacent to her borders. And expect the same from China and India. And who knows, maybe one day even Japan will return to the ancient art of using force to occupy the cherished territories in their region of the world.

The most we can hope for will be, once the errors of our ways are acknowledged and we can no longer afford our militarism, we will reestablish the moral principle that underpins the policy of "peace, commerce and honest friendship with all nations, entangling alliances with none." Our modern-day war hawks represent neither this American principle nor do they understand how the love of liberty drove the founders in their great battle against tyranny.

We must prepare for the day when our financial bankruptcy and the failure of our effort at world domination are apparent. The solution to such a crisis can be easily found in our Constitution and in our traditions. But ultimately, the love of liberty can only come from a change in the hearts and minds of the people and with an answered prayer for the blessings of divine intervention.
