

United States designated laboratories should not be a U.S. Government facility.

This section therefore requires that the United States National Authority, by June 1, 2003, select a nongovernmental laboratory to pursue designation by the OPCW. A report is required by March 1, 2003, detailing a plan for securing OPCW designation of a third United States laboratory by December 1, 2004. With three designated U.S. laboratories, the OPCW could randomly send a real sample to two laboratories and a false sample to the third, so that a laboratory would never be sure what sample it was analyzing. This approach, which is in keeping with OPCW intent worldwide, would reduce significantly the value of any espionage information that a country or company might hope to gain by infiltrating a laboratory.

Title XVII—Authority to Transfer Naval Vessels

Sec. 1701. Authority to transfer naval vessels to certain foreign countries

This section states further that any expense incurred by the United States in connection with a transfer authorized by this section shall be charged to the recipient (notwithstanding section 516(e)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2321j)(e)(1)) in the case of a transfer authorized to be made on a grant basis.

This section also directs that, for a vessel transferred on a grant basis to Turkey, the President may waive reimbursement of charges for the lease of that vessel under section 61(a) of the Arms Export Control Act (22 U.S.C. 2796(a)) for a period of one year before the date of the transfer of that vessel.
