amended, the approximately 70 employees enrolled in OPIC's health insurance plan would be allowed to transfer to the FEHBP. OPIC will bear the costs associated with transfer.

Finally, this legislation would reauthorize the Merit Systems Protection Board, MSPB, and the Office of Special Counsel, OSC. Established in 1978 by the Civil Service Reform Act, MSPB's mission is to ensure that Federal employees are protected against abuses by Federal agency management, that executive branch agencies make employment decisions in accordance with merit systems principles, and that Federal merit systems are kept free of prohibited personnel practices such as discrimination and coercion.

OSC is an independent Federal investigative prosecutorial agency. It safeguards the merit system by protecting Federal employees and applicants from prohibited personnel practices, especially reprisal for whistleblowing. OSC also serves as a safe and secure channel for Federal workers who wish to disclose violations of laws, gross mismanagement or waste of funds, and abuse of authority. This legislation will provide a variety of benefits for Federal employees, and I urge its adoption

Mr. Speaker, I reserve the balance of my time.

Mrs. MORELLA. Mr. Speaker, I reserve the balance of my time.

Mr. DAVIS of Illinois. Mr. Speaker, I am pleased to yield such time as she may consume to the gentlewoman from the District of Columbia (Ms. NORTON).

Ms. NORTON. Mr. Speaker, I thank the gentleman for yielding time to me.

At the time that we began work on this bill, the markets had not imploded. This bill has assumed far greater importance since, and I just want to spell out something of what it means. We are now living in a country where people over 50 years of age have lost their shirts. The catastrophic effects of the market on baby boomers and older people is pouring out now in stories, in the newspapers about people going back to work, about people selling their homes, and the rest of it. Do not think that this does not apply as well to Federal employees.

Allowing us, those of us who work in the Federal Government, to catch up, as it were, with what is already the case in the private sector could not come at a more opportune time. In the first place, one does not have to put their money into the traditional stock market. The TSP is very conservative. They could put all of their money into bonds. They could in fact decide that this might be an important way to make up for some of the losses almost all of us have incurred in the market over the past year, 18 months.

And what this means is very important. In the first year, in addition to what someone already contributes, they can put in an additional \$1,000. The next year they can put in an additional \$2,000, until of course they reach

\$5,000 and then they will be able to contribute, as private employees do, an additional \$5,000 a year to the TSP.

The reason that this is important, it seems to me, for everybody but especially for the employees to whom this is directed, employees 50 or older, is that there is almost no way to even begin to make up for the kinds of losses people have had, and people have got to begin thinking through how do we do that. We do not want to say to what has become an investment public, stop investing in anything, they could have happen to them what has now happened to people in all ages and backgrounds. They could lose it all. There are safe investments. We are very fortunate that the TSP allows us to spread our investments, encourages us to do so, and I believe that for those who are very numerous, and I am sure are included among them are many government employees who want to begin to reinvest, this opportunity to reinvest in more conservative investments will be a very welcome opportunity. At the very least, it would be unconscionable to leave those in the public sector, the Federal sector behind what we ourselves have already granted to those in the private sector.

So I appreciate that the gentlewoman has brought this bill forward, a bill we worked very hard on and, fortuitously, a bill which I think will be appreciated more than when the bill was originally in committee.

#### □ 1530

Mrs. MORELLA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as I said earlier, H.R. 3340 with the amendment accomplishes many goals, including catch-up contributions for the Thrift Savings Plan contributors, reauthorization of the OSC and the Marriage System Protections Board.

Finally, H.R. 3340 would allow employees, retirees and near-retirees of the Overseas Private Investment Corporation to enroll in the Federal Employees Health Benefit Plan.

Mr. Speaker, I urge my colleagues to support this legislation.

Mr. Speaker, I also want to say that I introduced the bill because it was very important. It took a lot of time, and we had the approval of the chairman of the committee, the gentleman from Indiana (Mr. Burton); the ranking member, the gentleman from California (Mr. WAXMAN); the chairman of the subcommittee, the gentleman from Florida (Mr. WELDON); the ranking member of the Subcommittee on Civil Service, the gentleman from Illinois (Mr. DAVIS); some great sponsors and some great staff that helped to move this bill forward.

Mr. Speaker, I urge an affirmative vote.

Mr. Speaker, I reserve the balance of my time.

Mr. DAVIS of Illinois. Mr. Speaker, I yield myself such time as I may consume

Mr. Speaker, I want to congratulate the gentlewoman from Maryland for the introduction and processing and passage of this legislation.

Mr. Speaker, I yield back the balance of my time.

Mrs. MORELLA. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CANTOR). The question is on the motion offered by the gentlewoman from Maryland (Mrs. Morella) that the House suspend the rules and pass the bill, H.R. 3340, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mrs. MORELLA. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess until approximately 4 p.m.

Accordingly (at 3 o'clock and 33 minutes p.m.), the House stood in recess until approximately 4 p.m.

#### □ 1603

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. Petri) at 4 o'clock and 3 minutes p.m.

MISCELLANEOUS TRADE AND TECHNICAL CORRECTIONS ACT OF 2002

Mr. THOMAS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5385) to amend the Harmonized Tariff Schedule of the United States to modify temporarily certain rates of duty, to make other technical amendments to the trade laws, and for other purposes, as amended.

The Clerk read as follows: ]

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. THOMAS) and the gentleman from Michigan (Mr. LEVIN) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the so-called Miscellaneous Trade and Technical Corrections Act is something that is done virtually every Congress, frankly because there are a lot of technical corrections that need to be made in the area of tariffs and duties. Oftentimes, decisions that are made that in fact were in error need to be corrected, a misunderstanding has taken place, a company can more efficiently produce goods if there are decisions and changes made, and that normally is the function of the miscellaneous trade bill.

To that end, there tend to be requirements to be eligible to be placed on this bill, and that is certain dollar limits, so that significant and expensive items would not be moved under this heading and, probably most importantly, that any measure that is placed in this package is noncontroversial. Sometimes when we examine that, it is in the eye of the beholder; but most often there is an objective way to determine "noncontroversial".

The reason this bill is being amended is because principally the delay in moving this bill forward was to wait to determine what specific measures from the other body might be reasonably added to this bill, given the time remaining, the possibility of the other body taking this from the desk and voting on it without intervening action or committee decisions.

I do need to note, though, that there are two specific provisions on this measure that, had I not said that no measure can go on this bill if it is not noncontroversial, perhaps would have raised some eyebrows. One is a qualifying industrial zone provision for Turkey, and the other is providing a better instrument for the President to determine whether normal trade relations would be resumed with Yugoslavia.

I believe, and I believe the gentleman from Michigan (Mr. Levin) will confirm, that, notwithstanding the potential difficulties with these two provisions in the bill, that there has been extensive consultation and adjustment of language to present two very useful, in fact I might say needed, provisions to provide the administration with the ability to make decisions in these areas, and that they are in fact noncontroversial, and my assumption is that attestations to that effect will be made.

Mr. Speaker, I am pleased to call up H.R. 5385, The Miscellaneous Trade and Technical Corrections Act of 2002, which is a compendium of trade provisions drawn largely from legislation introduced by individual Members during this Congress. This bill has more than 350 such provisions and enjoys broad bipartisan support.

The bill contains provisions involving the temporary suspension of duties on narrowly defined products, miscellaneous trade-related items, and technical corrections to the Trade and Development Act of 2002.

There are several miscellaneous trade provisions in this bill that are noteworthy. The bill would provide trade benefits to Turkey and to exporters of rugs under the Generalized System of Preferences. On the Turkey provision, I am aware of concerns expressed by businesses and farm groups regarding potential

competition from Turkey as a result of extending the Qualifying Industrial Zone (QIZ) law to cover zones in Turkey and Israel. I believe that there are sufficient protections within the legislation and the QIZ process to allay these concerns. First, the bill does not automatically grant duty-free status to any product. The bill does not list any farm or other goods on which US duties will be removed by law. Second, qualifying for duty-free treatment under the bill would require at least 35 percent of the product's value to be derived from a combination of operations performed in both Turkey and Israel. Mere repackaging or similar de minimis operations in one of the countries will not automatically qualify a product of the other nation to enter the US duty-free. Third, the law clearly states that the President may not extend duty-free treatment to products he determines to be import-sensitive. I anticipate that the President will solicit comments and exercise the same care in awarding duty free treatment in the Turkey QIZ program as he has done in the Generalized System of Preferences (GSP) program, which contains a similar criterion. Finally, the QIZ program is not intended or designed to override US health and safety statutes, including sanitary and phytosanitary laws and regulations.

In addition, the bill would make technical and clarifying corrections to provide benefits for Caribbean and sub-Saharan African countries. The preferential trade benefits for these countries would support U.S. trade policy to improve trade networks and opportunities for American firms while helping key American allies in the fight against terrorism and illegal drug traffic. Finally, the bill would provide Normal Trade Relations status to Yugoslavia, which was revoked in 1992.

The provisions included in this bill are non-controversial but that does not mean they are unimportant. Most of the products in the duty suspension provisions are those that American firms uses as supplies or components of the products they manufacture. The purpose of this bill is to eliminate the burden that American firms have when buying these products, so they can in turn lower their cost of production and thereby the cost to the consumer. In many instances, these provisions will give our companies and their employees a fighting chance to compete.

This bill traditionally follows the same rules in every Congress. The provisions have been thoroughly vetted and have no opposition. Both the Department of Commerce and International Trade Commission investigated the bills and contacted domestic industries. With the exception of a few of the miscellaneous provisions that have wide applicability, each provision has a de minimis cost under \$500,000. Lastly, the Administration confirms that all of the bills can be administered.

I strongly urge my colleagues to support this bill and to provide this assistance to American companies.

Mr. Speaker, I reserve the balance of my time.

Mr. LEVIN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this bill. As the chairman has indicated, it has received some considerable attention. There are many provisions in here that clearly would meet under any circumstances the criterion of "technical" or the criterion of "miscella-

neous" or the criterion of having small impact in terms of dollars. So I will not go into length about the various provisions of this nature, except to mention the reverse Customs program at the northern border.

The gentleman from Michigan (Mr. CAMP), Senator Levin, myself, and others in the Michigan delegation have worked very hard on this, and it is clearly noncontroversial. I do not think that means it is nonsubstantial, because it potentially could have a major impact.

In terms of technical corrections, I understand the Senate is considering some potential truly technical corrections to the health care credits in the TAA that was passed, and we will have to see what happens. Clearly, the miscellaneous provisions regarding import duties have the potential of helping to improve the competitiveness of domestic manufacturers and also to assist consumers. These provisions apply to duties where there are no competitors to American producers, so I think it clearly would meet the standard or the criterion of being technical and noncontroversial.

The chairman mentioned some other items; one, the Turkey QIZ. I want to spend just a couple of minutes on this, because in a sense its impact would be, I think, de minimis, but it does raise some broader issues that we need to pay attention to, or which will be needed to be addressed in the future.

One was, I think, referred to or inferred about by the chairman. That relates to Turkey's relationship or its inappropriate relationship with Armenia. We had long discussions about that. I believe we have addressed it as effectively as we can under these circumstances.

As we know, there is presently an economic blockade of Armenia by Turkey. That has had some major impacts on Armenia, and we were very concerned about this. The administration has now made clear its efforts to take steps to end the blockade of Armenia by Turkey, to strengthen the Armenian economy, and to otherwise improve the relationship between our two countries.

Mr. THOMAS. Mr. Speaker, will the gentleman yield?

Mr. LEVIN. I yield to the gentleman from California.

Mr. THOMAS. Mr. Speaker, I thank the gentleman for yielding.

The gentleman is correct, and I did not mention that because there is no measure in the bill that addresses that. But, clearly, part of the discussion was the production of a letter from the administration specifically containing the substance the gentleman mentioned.

I thank the gentleman for allowing me to intervene. I just wanted to indicate that I support wholly the content of the letter, and the fact that we are moving forward on this should in no way signify that the problems that are presently there are not being looked at

and hopefully addressed in a comprehensive and bipartisan way.

Mr. LEVIN. I thank the gentleman.

I think, therefore, Mr. Speaker, both of us are making it clear that we expect the administration to follow through on the commitments and on the indications that are in this letter. It is a very serious matter, indeed.

Also, I wanted to mention, regarding the QIZ program, another aspect. That is, the lack of conditions within it. The QIZ is unlikely to have a major economic impact. It does also, though, involve relations between Israel and Turkey. Those are important ones.

So we are not talking, and I hope everyone understands this, about a likely major instrumentality in terms of trade in the near future. Because of our important strategic relationship with Turkey, on balance it made sense to let this proceed and allow the implementation of a QIZ program. However, I am very hopeful if that occurs and as it occurs that our government will pay attention to the issue of criteria.

In the GSP statute, we have criteria. Here we do not, for example, as to protection of U.S. investors, as to protection of intellectual property, as to core labor standards, as to environmental issues. If the QIZ were going to become a significant factor in our relationship economically, it would be important for our government to work on this and to make sure that criteria, and appropriate ones, were incorporated in any further understanding with the Turkish government.

The same applies potentially to steel. It is unlikely that the QIZ, this qualified industrial zone provision, would apply to steel, but I think there is a concern that it might, and our government needs to be sensitive to it. So, on balance, I think it is wise for this to proceed with the caveats that I have outlined.

Secondly, let me just make a brief reference to Yugoslavia that the chairman has discussed.

#### $\square$ 1615

The gentleman from Maryland (Mr. CARDIN) had an amendment, and there now has been, I think, fruitful further discussion with the administration; and it has been withdrawn from this bill because of the assurances that have come from the administration to the proponents. I think these are important assurances. We need to make sure as Yugoslavia proceeds economically, as Yugoslavia obtains again normal trade relations, that it follows through on what has become so essential in our relationship, and that is the pursuit of the war crimes tribunal proceedings.

So with that I will conclude my remarks. I hope that we will pass this with the understandings that I have outlined.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMAS. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois (Mr. CRANE), the chairman of the Subcommittee on Trade.

Mr. CRANE. Mr. Speaker, I thank the chairman for yielding me time.

Mr. Speaker, I rise in strong support of H.R. 5385, the Miscellaneous Trade and Technical Corrections Act of 2002. Every 2 years, Congress takes up this legislation that includes hundreds of trade provisions. Needless to say, this is an enormous task. However, this undertaking results in a set of consistent guidelines for addressing miscellaneous trade proposals. The duty suspensions have been publicly vetted, cost less than \$500,000 a piece, and are administrable. This legislation does three very important things: one, it enables U.S. companies to more efficiently produce goods which allows them to be more competitive and function more cost efficiently. Two, it helps create jobs for American workers; and, three, it reduces costs for U.S. consumers.

For example, one bill in our package would benefit businesses such as one in Evanston, Wyoming, called Carbon Fiber Technology that employs 46 people and manufactures acrylic fiber used in the production of carbon fiber. Carbon fiber is used in many graphite products including the shafts of golf clubs. Since 1999, finished carbon fiber has entered the U.S. duty-free while Carbon Fiber Technology has been paying a duty rate of 8 percent on the acrylic precursor used to make its carbon fiber.

It makes no sense for an American company to pay duty on foreign inputs that go into products that compete with foreign products that enter duty-free. The current structure penalizes that American company for no reason. Suspending this duty will allow Carbon Fiber Technology to remain competitive and win back business from overseas competitors.

There is another provision dealing with GSP benefits for certain handmade rugs. The bill extends GSP benefits for certain handmade rugs from GSP beneficiary countries. The primary beneficiary is Pakistan. Other countries that would benefit from the bill include Turkey, Nepal, Egypt, and Morocco. The bill would significantly increase Pakistan's benefits under GSP and provide a much-needed benefit to an important ally in the war on terrorism.

In addition to the various duty suspensions, the bill contains a key provision to create a qualified industrial zone for certain products coming from Turkey. Turkey has been a key ally to the United States in the war on terrorism. These provisions will stimulate economic development in Turkey and continue to show the rest of the world that those who stand with us in this struggle will be rewarded.

Finally, Mr. Speaker, I want to thank my staff who worked tirelessly for several months in producing this bill. They are Angela Ellard, Meredith Broadbent, David Kavanaugh, Stephanie Lester, and our Fellow, Michael Walsh

Mr. Speaker, I strongly urge my colleagues to vote "aye" on this bill. Mr. THOMAS. Mr. Speaker, I yield

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank my colleague. And the case study he cited is a perfect example of why we have a miscellaneous trade and tariff bill dealing with these peculiarities in multiple products we have.

Mr. Speaker, I would place in the RECORD the letter that has been discussed viz a viz the administration's understanding on the Turkey-Armenia border issue.

THE DEPUTY SECRETARY OF STATE, Wasington, DC.

Hon. WILLIAM M. THOMAS,

Chairman, Committee on Ways and Means, House of Representatives.

DEAR MR. CHAIRMAN: Our staffs recently discussed the Turkey-Armenia border issue. To follow-up on the questions raised in those discussions, I want to let you know our views.

The Administration is pressing Turkey to restore economic, political and cultural links with Armenia, and is encouraging Turkey to open its border with Armenia. We believe that such action would promote the economic development of both Turkey and Armenia. We are aware of the economic impact that this border closure has on Armenia. The Department of State, in coordina. The Department of State, in coordination with the U.S. Trade Representative, will provide to Congress by March 31, 2003, a report on the economic impact of the border closure on Armenia and Turkey, and on diplomatic contacts with both parties on this issue.

In addition, as you know, the United States has largely completed its negotiations with Armenia with respect to accession talks with the World Trade Organization (WTO) and is now prepared to make Armenia's accession to the WTO an Administration priority. To that end, we are working with other WTO members to complete, by the end of this year, negotiations with Armenia for its accession to the WTO.

We look forward to working with you on these important issues.

Sincerely.

RICHARD L. ARMITAGE.

Mr. LINDER. Mr. Speaker, I rise today in support of this bill, which makes a number of desirable changes to the duty rates on certain imported goods and makes technical corrections to the Trade and Development Act of 2002. I appreciate the diligent efforts of Subcommittee Chairman CRANE and other members of the Trade Subcommittee in bringing this important bill to the floor.

H.R. 5385, the "Miscellaneous Trade and Technical Corrections Act of 2002," includes some important measures that I introduced as freestanding bills to help manufacturing businesses in Georgia's 11th District remain competitive and save jobs. Passage of this bill will protect jobs in Georgia and across the nation, in addition to promoting the U.S. economy. In particular, certain provisions of H.R. 5385

In particular, certain provisions of H.R. 5385 will eliminate the tariffs on high tenacity rayon filament yarn, which is imported for use in tires and industrial hoses. Although this industrial yarn is not produced domestically, it currently faces high tariffs. The elimination of this unnecessary tariff will promote lower-cost goods and protect jobs across the United States.

Another noteworthy provision of H.R. 5285 will correct a premature liquidation by the U.S.

Customs Service on the importation of aramid fibers. This error resulted in the assessment of costly antidumping duties on aramid fibers imported for use in ballistics, tires, friction, mechanical rubber goods, and optical fiber cables. I am pleased that this fair measure has also been included in H.R. 5385.

In closing, this comprehensive bill will help American businesses to stay competitive with foreign companies, thereby providing lowercost goods to American consumers, protecting jobs for American workers, and, ultimately, making the American economy more prosperous. I urge all of my colleagues on both sides of the aisle to join me in supporting this bill.

Mr. BLUMENAUER. Mr. Speaker, H.R. 5383, debated and passed today, includes language that allows two streetcars manufactured in the Czech Republic to enter the United States duty free. These streetcars are additions to the recently opened and highly successful Portland, Oregon streetcar line. I would to take this opportunity to thank the Ways and Means Committee Members and staff for working with me to solve a problem that would have led to unnecessary tariffs on these two streetcars. The work that they have done is important not only for Portland as it addresses its transportation needs, but hopefully can be developed as a model that can help other cities as they attempt to offer their regions greater transportation choices.

This past weekend, as a participant in the 2002 Rail-Volution conference held in Washington, D.C., I heard from local officials, landuse planners, transit employees, citizen advocates, and developers from more than 200 communities nationwide that are working to address transportation needs and options. Creating a trade import model that helps communities explore transportation alternatives that improve the livability of our cities is a worth endeavor of Congress.

Mr. MANZULLO. Mr. Speaker, I rise in support of H.R. 5385, the Miscellaneous Trade and Technical Corrections Act of 2002. I am pleased that two of the provisions in this legislation will help enhance the competitiveness of a constituent company in the northern Illinois district I am proud to represent

Of these two provisions, one would suspend the duty on certain types of magnets used in automotive sensor applications. Although no one in the United States presently manufactures the same magnets, this provision had been objected to in its earlier form when H.R. 5385 was considered in the Committee on Wavs and Means in September.

The objection was based on the concerns of a handful of constituent firms located in the districts of my colleagues, Representatives TED STRICKLAND and BOB NEY. Specifically, these firms, who manufacture other types of magnets domestically, were concerned that the earlier language did not clearly enough specify the types of magnets to which the suspension of duty would apply. Understandably, these companies just wanted to be sure that my legislation was going to extend benefits only to those magnets intended to be covered and not to imported versions of the types of magnets that these firms produce in the United States.

Because my objective in introducing duty suspension legislation was to help, not inadvertently hurt, U.S. industry, I instructed my staff to work closely with staff from the offices

of Representatives STRICKLAND and NEY to try to find a mutually acceptable compromise. Based on these efforts between our respective offices and our constituents, and with strong and critical support from Ways and Means Committee Staff Dave Kavanaugh, Michael Walsh and Viji Rangaswami, as well as representatives of the Bush Administration, we were able to find just such a compromise. This mutally acceptable language is now included in H.R. 5383 as it appears before the full House today.

I thank all those associated with tirelessly working out the compromise provision. I also thank Chairman THOMAS and Representatives RANGEL, CRANE and LEVIN for their leadership in moving legislation that has so measurable an impact back in our home districts, especially during such uncertain economic times.

THE DEPUTY SECRETARY OF STATE, Washington, DC.

Hon. Joe Knollenberg, House of Representatives.

DEAR MR. KNOLLENBERG: Our staffs have recently discussed the Turkey-Armenia border issue. To follow-up on the questions raised in those discussions, I want to let you know our views.

The Administration is pressing Turkey to restore economic, political and cultural links with Armenia, and is encouraging Turkey to open its border with Armenia. We believe that such action would promote the economic development of both Turkey and Armenia. We are aware of the economic impact that this border closure has on Armenia. The Department of State, in coordination with the U.S. Trade Representative, will provide to Congress by March 31, 2003, a report on the economic impact of the border closure on Armenia and Turkey, and on diplomatic contacts with both parties on this issue.

We look forward to working with you on these important issues.

Sincerely,

RICHARD L. ARMITAGE.

Mr. KNOLLENBERG. Mr. Speaker, I rise in support of this legislation, but I want to use my time to address one item in the bill, the Turkey Qualifying Industrial Zone provision.

I, along with the gentleman from New Jersey, Mr. PALLONE, serve as Co-Chairs of the Congressional Caucus on Armenian Issues. We had grave concerns about adding this provision to the bill given Turkey's continuing illegal blockade of Armenia in solidarity with Azerbaijan.

In order to achieve the stated U.S. policy goals of regional cooperation and economic integration in the Caucasus region, Turkey must restore economic, political and cultural links with Armenia as President Bush called for in his April 24, 2002 statement. It is in the national interest of the United States for Turkey to normalize relations with Armenia and open its border.

I have discussed this issue at great length with the White House, State Department and USTR. I feel that many of our concerns on this point have been addressed and that there appears to be a willingness on the part of the

Administration to devote increased energy to lifting the blockade and helping to offset its impact on Armenia.

I am going to submit for the record a letter sent to me by Deputy Secretary of State Richard Armitage explaining these commitments. An identical letter was sent to Congressman PALLONE.

I feel that this is an important step forward and I await with interest the report on the economic impact of the blockade. I will, of course, carefully monitor the commitments in this letter and will continue working through every legislative means at our disposal to make progress toward bringing an end to Turkey's blockade of Armenia.

While we have many outstanding issues to resolve, I feel that the Turkey trade provision included in H.R. 5385 is not, in and of itself, sufficient reason to vote against this legislation. I urge Members not to oppose this bill because of this issue.

Mrs. CHRISTENSEN. Mr. Speaker, I rise in support of H.R. 5385, the Miscellaneous Trade and Technical Corrections Act and urge my colleagues to support its adoption.

H.R. 5385 includes two bills I introduced earlier this year, H.R. 3395 and H.R. 4179, to bolster the economy of my district, the U.S. Virgin Islands, especially the island of St. Croix.

Mr. Speaker, I introduced H.R. 3395 to fix an anomaly in existing law which permits duty rebates on products imported into the United States and then shipped to foreign countries, but which does not allow for such drawback for products imported into the United States and then shipped to our insular areas. This form of "Catch-22" exists because under the current legal interpretation, U.S. insular areas are outside the Customs territory of the United States, but at the same time are not deemed to be foreign countries. This means that companies that want to import goods to the United States for subsequent distribution in the Virgin Islands for example, are unable to receive a rebate of the duty paid, even though the goods ultimately are not sold within the United States customs territory. This actually hurts employment in the United States and has a negative impact on the ability of merchandise to move in and out of our insular areas.

My second bill. H.R. 4179, make a series of technical and/or non-controversial adjustments to the Production Incentive Certificate ("PIC") program for watch and jewelry produced in the U.S. insular areas. In the near term, this legislation improves the operation of the PIC program for both watch and jewelry manufactures in the U.S. Virgin Islands—producers that provide a critical source of employment for the Territory. Over the longer term, this legislation would protect the PIC program and related duty incentives from the effects of any future reduction or elimination of watch tariffs.

Mr. Speaker, even though a company recently announced the closure of its facility on St. Croix and consolidate their operations in Switzerland where they are headquartered, the watch industry remains the largest light manufacturing industry in the U.S. Virgin Islands and remains one of the most important direct and indirect sources of private sector employment in the Territory.

The insular watch production industry is also highly import-sensitive and faces continued threats from multinational watch producers, who have continued to move their watch production to lower wage countries.

The various technical adjustments set forth in this legislation would enhance the ability of insular watch and jewelry producers to utilize the PIC program while, at the same time, retaining overall PIC program unit and dollar value limits. Additionally, the legislation would establish a standby mechanism to mitigate the impact of any possible future reduction or elimination of watch duties on a worldwide basis through trade negotiations and congressional action. This mechanism-which has broad support among the insular and domestic watch manufacturing and distribution sectorswould ensure that any future reduction in watch duties does not disturb the relative value of current duty incentives and PIC program benefits for the insular watch industry. Importantly, this standby mechanism would have no effect on current watch duties or PIC program limits.

In conclusion, I want to thank my cosponsors of H.R. 5179, the gentlelady from Connecticut, Representative NANCY JOHNSON and the gentleman from New York, Representative MIKE MCNULTY for their strong support. I also want to express my gratitude to the Chairman of the Ways and Means Committee, BILL THOMAS and the Ranking Democrat CHARLES RANGEL for their decision to include both of my bills in the Miscellaneous Trade bill today.

Mr. LEVIN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. THOMAS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. Petri). The question is on the motion offered by the gentleman from California (Mr. Thomas) that the House suspend the rules and pass the bill, H.R. 5385, as amended.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

#### GENERAL LEAVE

Mr. THOMAS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 5385.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.
