STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KYL:

S. 3. A bill to repeal the sunset of the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001, and for other purposes; to the Committee on Finance.

Mr. KYL. Mr. President, Investors are the backbone of the U.S. economic system. They provide the capital that entrepreneurs use to start and grow businesses. Investors invest in everything from corporations like General Electric to the local Mom and Pop convenience store. These are the businesses that employ our American workers and compete against other businesses throughout the United States and the world. It is investor capital that fuels the most dynamic workings of our economy.

Too often, our Federal Government has taken the American investor for granted. Even worse, our Federal Government has singled him out for adverse treatment by placing significant impediments in his path.

Congress needs to refocus our government's attention on helping our investors as well as making our U.S. businesses more attractive entities in which to invest.

Today, I am introducing legislation, the "Contract with Investors," which incorporates a number of proposals to foster a better investment environment.

In order to satisfy an arcane Senate budget rule, the 2001 tax-relief law's provisions will expire in 2011. Making this bipartisan tax relief permanent will eliminate a large source of investor uncertainty that currently exists in the marketplace. Businesses are having a hard time planning with the Tax Code potentially reverting back to old tax laws. Businesses, and the investors who own them, need certainty and a stable environment in which to prosper. Making last year's tax provisions permanent will go a long way towards providing that certainty.

The second thing my bill does is accelerate last year's marginal income tax rate reductions. Instead of reducing the tax brackets in 2004 and 2006, as currently scheduled, my bill will move the 2004 rate reductions up to 2003 and the 2006 rate reductions up to 2004. Marginal tax-rate reductions benefit all income tax-paying Americans. Many investors invest in businesses that are sole proprietorships, i.e. non-incorporated business entities. Owners of these businesses pay the highest individual marginal income tax rate; under my bill the highest rate they would pay in 2004 and beyond would be 35 percent, the same rate as corporations.

The third provision would accelerate the repeal of the estate, or more accurately "death", tax. A December 1998 report by the Joint Economic Committee concluded that the existence of the death tax during the last century has reduced the stock of investors' capital in the economy by nearly half a
