CONVEYANCE OF CERTAIN PUBLIC LAND IN CLARK COUNTY, NEVADA

The bill (H.R. 2937) to provide for the conveyance of certain public land in Clark County, Nevada, for use as a shooting range, was considered, ordered to a third reading, read the third time, and passed.

Mr. REID. Mr. President, I would like to engage my friend, the chairman of the Energy and Natural Resources Committee, in a discussion regarding the Clark County Shooting Range bill, S. 1451. The chairman has been very helpful in moving this important legislation through the process and I appreciate and am grateful for his hard work. As we moved this bill through the committee process, the chairman made two constructive suggestions regarding how my bill might be improved. I believe that it would benefit the full Senate for us to review those issues briefly at this time.

Mr. BINGAMAN. I share the assistant majority leader's view that this bill would address an important need for a safe recreational shooting facility

in southern Nevada and believe that S. 1451, which my committee reported favorably with amendment, is a good bill. The two primary concerns raised by many interested parties were that the original bill would have released land from wilderness study area status and that the parcel of land conveyed was possibly too large, and therefore the bill might set an unfortunate precedent on those two issues.

Mr. REID. As the chairman knows, we worked together on these two issues and developed a compromise solution that he, Senator MURKOWSKI, Senator ENSIGN, Congressman GIBBONS, Congresswoman BERKLEY, Clark County and I could all support. The compromise included conveying the full 2800 acres to Clark County but requiring that only the core of the area, 640 acres, be developed for facilities and that the remainder of the area remain as open space to serve as a valuable buffer around the range. This compromise if completely consistent with Clark County's intended use of the land because the county realizes the absolute necessity of having a substantial buffer around a shooting range. In fact, the county provided their plans for the facility, which embody the compromise.

As I have noted many times on the floor of the Senate, Clark County has nearly doubled in population from 770,000 to more than 1.4 million people since 1990. This growth has placed greater demands on public lands throughout Clark County for recreational activities such as hunting, fishing and target shooting. There are literally dozens, if not hundreds, of makeshift shooting ranges across Las Vegas Valley that pose extreme danger to nearby homes and our increasingly busy roads. This facility will provide a great public benefit by creating a safe centralized location for this important purpose. It will enhance public safety by reducing indiscriminate shooting. The need for this shooting range is crystal clear and I am grateful that the chairman has recognized the urgency associated with this issue.

In addition, I would like the RECORD to reflect that the issue of wilderness study area release is now a moot point because the wilderness study area in question was released earlier this month when President Bush signed the Clark County Conservation of Public Lands and Natural Resources Act into law. Public law 107-282 designated about 450,000 acres as wilderness and released 220,000 acres from wilderness study area consideration in Clark County. Having made this point, I would like to ask the chairman whether he shares my view that no precedent could be set on the issue of wilderness study area release given that there is no wilderness study area in existence?

Mr. BINGAMAN. I do share that view and appreciate the fact that wilderness study area release is no longer a concern in this legislation.

Mr. REID. I appreciate the chairman's concurrence on that point and

his leadership on this and other public land related issues very much. We now face a dilemma. The very good Clark County Shooting Range bill that was earlier reported by the Senate Energy and Natural Resources Committee cannot pass this year because the House of Representatives has gone home for the year. However, the House passed a similar bill earlier this year. The substantive difference in the House bill is that it does not include the buffer requirement we put in the Senate version of the bill. Given that we agree that no wilderness study area precedents can be set here, and given that the county's plan for the range were used to create our buffer compromise. I hope the chairman might allow for the passage of the House version of this bill so that this important project can be started this year.
