

the validity of passengers' IDs, and could also include optical or facial scanners to determine if an individual is in a terrorist database. These technologies are out there, they're ready for use, and our airports should be using them starting now.

Finally, I propose legislation to mandate prison time for anyone who produces, transfers, possesses, or uses a fake ID in connection with terrorism. Currently, in Federal law, there is no mandatory imprisonment for the production, transfer, possession, or use of a fake ID. Under any circumstances, even in relation to terrorist acts. This, to me, seems wrong. If you at any point and time facilitate an act of terrorism by providing someone with a fake ID, making a fake ID, possessing a fake ID, or using that fake ID, you should go to jail. Period. My bill makes sure that principle is reflected in Federal law.

Last, my bill closes the loophole that punishes people for fake IDs used in acts of international terrorism, but not domestic terrorism. Under the USA PATRIOT Act the Congress passed last year, a definition of "domestic terrorism" was added to the criminal code. My bill makes sure that fake ID offenses related to domestic terrorism get the same punishment as those relating to international terrorism.

It simply is not enough to have sporadic safeguards in a handful of airports. The bills I am introducing today will help close loopholes that currently serve as wide open doors for terrorists.
