STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mrs. MURRAY (for herself, Mrs. BOXER, Ms. CANTWELL, and Mr. CORZINE):

S. 1990. A bill to establish a public education awareness program relating to emergency contraception; to the Committee on Health, Education, Labor, and Pensions.

Mrs. MURRAY. Madam President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1990

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Emergency Contraception Education Act".

SEC. 2. FINDINGS.

Congress finds that—

- (1) each year, 3,000,000 pregnancies, or one half of all pregnancies, in the United States are unintended, and half of all of these unintended pregnancies end in abortion:
- (2) the Food and Drug Administration has declared emergency contraception to be safe and effective in preventing unintended pregnancy, reducing the risk by as much as 89 percent;
- (3) the most commonly used forms of emergency contraception are regimens of ordinary birth control pills taken within 72 hours of unprotected intercourse or contraceptive failure;
- (4) emergency contraception, also known as post-coital contraception, is a responsible means of preventing pregnancy that works like other hormonal contraception to delay ovulation, prevent fertilization or prevent implantation:
- (5) emergency contraception does not cause abortion and will not affect an established pregnancy;
- (6) it is estimated that the use of emergency contraception could cut the number of unintended pregnancies in half, thereby reducing the need for abortion;
- (7) emergency contraceptive use is the United States remains low, and 9 in 10 women of reproductive age remain unaware of the method;
- (8) although the American College of Obstetricians and Gynecologists recommends

that doctors routinely offer women of reproductive age a prescription for emergency contraceptive pills during their annual visit, only 1 in 5 ob/gyns routinely discuss emergency contraception with their patients, suggesting the need for greater provider and patient education;

(9) in light of their safety and efficacy, both the American Medical Association and the American College of Obstetricians and Gynecologists have endorsed more widespread availability of emergency contraceptive pills, and have recommended that dedicated emergency contraceptive products be available without a prescription;

(10) Healthy People 2010, published by the Office of the Surgeon General, establishes a 10-year national public health goal of increasing the proportion of health care providers who provide emergency contraception to their patients; and

(11) public awareness campaigns targeting women and health care providers will help remove many of the barriers to emergency contraception and will help bring this important means of pregnancy prevention to American women.

By Mr. HOLLINGS (for himself, Mr. BIDEN, Mr. BREAUX, Mr. CARPER, Mr. CLELAND, Mrs. CLINTON, Mr. CORZINE, Mr. DURBIN, Mrs. HUTCHISON, Mr. JEFFORDS, Mr. KERNY, Mr. LEAHY, Ms. MIKULSKI, Mr. ROCKEFELLER, Mr. SCHUMER, Mr. STEVENS, Mr. TORRICELLI, Mr. REID, and Mrs. FEINSTEIN):

S. 1991. To establish a national rail passenger transportation system, reauthorize Amtrak, improve security and service on Amtrak, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. HOLLINGS, Madam President, I rise today to introduce the National Defense Rail Act on behalf of myself and some 19 co-sponsors. This legislation will establish a strong and efficient national passenger rail system. For far too long, we have neglected investing in our Nation's passenger rail system. We have taken an active responsibility in developing the infrastructure of all other modes of transportation, whether it has been federally funding the development of the interstate highway system, subsidizing airport construction, or taking the responsibility for dredging harbors and channels or building locks and dams. Now it is time to build a world class passenger railroad system in the United States. We know it can be done. Japan and France provide two models of successful passenger railroad service. The time to move ahead is now. We cannot wait for highways and airports to become so clogged that they cannot operate any longer. Rail systems are not built in a day. We need to engage in long-term planning to address future passenger transportation growth and show forethought in crafting transportation solutions-not wait for an impending crisis. My legislation provides the vision to begin to do this.

The atrocious events of September 11, 2001, and the aftermath which followed, exposed the vulnerability of our society and our economy when transportation choices are limited and our mobility is diminished. In the aftermath of the horrific attack on the World Trade Center and the Pentagon, we were forced to adjust to a transportation system that was without access to aviation. That should make us all evaluate the problems inherent in a policy that results in overall dependence on any one particular mode of transportation. We need to have a more balanced system of transportation for passengers in this country. Our economy depends on it; our travelers deserve it; and our roads and airports
