(b) PURPOSE.—The purpose of this section is to promote the timely completion of authorizations and environmental reviews under Federal law relating to construction, operation, or maintenance of energy delivery systems consistent with the public safety, energy efficiency, and socioeconomic values of—

(1) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(2) other Federal laws that further the purposes of that Act.

(c) INTEGRATED REVIEW PROCESS.—

(1) DESIGNATION OF LEAD AGENCY.—

(A) PRIMARILY RESPONSIBLE FEDERAL AGENCY.—In any case in which a single Federal agency has primary authority to issue an overall authorization for an energy delivery

system under Federal law (such as the Federal Energy Regulatory Commission with respect to interstate natural gas pipelines), that Federal agency shall be the lead agency in conducting any environmental review, preparing any environmental review document, and carrying out any other activity that—

(i) is required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(ii) relates to construction, operation, or maintenance of an energy delivery system.

(B) MULTIPLE RESPONSIBLE FEDERAL AGENCIES.—In any case in which no single Federal agency has primary authority to issue an overall authorization for an energy delivery system under Federal law, but more than 1 Federal or State agency has authority to issue an authorization for the energy delivery system under Federal law—

(i) the applicant may request that the Federal agencies with that authority designate a lead agency to conduct any environmental review, prepare any environmental review document, and carry out any other activity that—

(I) is required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(II) relates to construction, operation, or maintenance of an energy delivery system; and

(ii)(I) the Federal agencies shall jointly designate 1 of the Federal agencies as the lead agency, taking into account—

(aa) the extent of the involvement of each Federal agency in issuing the authorization for the energy delivery system; and

(bb) the expertise of each Federal agency concerning the energy delivery system; or

(II) if the Federal agencies do not make a joint designation under subclause (I) by the date that is 30 days after the date of the request by the applicant under clause (i), the Council on Environmental Quality established by title II of the National Environmental Policy Act of 1969 (42 U.S.C. 4341 et seq.) shall designate, not later than 45 days after the date of the request by the applicant under clause (i), 1 of the Federal agencies as the lead agency.

(2) FEDERAL AGENCY RESPONSIBILITIES.—

(A) SINGLE ENVIRONMENTAL REVIEW.—

(i) DUTIES OF LEAD AGENCY.—The lead agency shall—

(I) conduct any environmental review and prepare any environmental review document that—

(ii) DUTIES OF PARTICIPATING AGENCIES.—Each participating agency with respect to the energy delivery system shall—

(I)(aa) provide to the lead agency input that relates to the environmental review and other activities described in clause (i) and focuses on direct project impacts; and

(bb) submit data based on sound science necessary to substantiate that input; and

(II) in issuing the authorization for which the participating agency has authority, rely on the activities described in clause (i) carried out, approved, or completed by the lead agency for the energy delivery system.

(B) INTEGRATION OF FEDERAL ENVIRONMENTAL REVIEW AND AUTHORIZATION PROCESS.—

(i) IN GENERAL.—In consultation with each participating agency, the lead agency shall—

(I) develop and implement a single coordinated and timely process that provides such environmental review as is required under Federal law for construction, operation, or maintenance of an energy delivery system; and

(II) ensure, to the maximum extent practicable, the integration with that environmental review process of all relevant Federal, State, and local environmental protection requirements applicable to the energy delivery system.

(ii) ACTIVITIES TO BE INTEGRATED.—The integrated review process shall integrate—

(I) the preparation of an environmental impact statement, or, at the discretion of the lead agency, the preparation of an environmental assessment, if such a statement or assessment is required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(aa) shall be advisory; and

(bb) shall be taken into account at the discretion of the lead agency and only to the extent that taking the input into account does not delay issuance of an authorization for the energy delivery system.

(iii) MINIMIZATION OF DUPLICATION AND DELAYS.—The integrated review process shall seek to minimize—

(I) duplication of activities carried out by the lead agency and the participating agencies; and

(II) delays in decisionmaking by those agencies.

(B) PRESENTATION OF INFORMATION.—Under subparagraph (A)(ii), the lead agency shall ensure that the presentation of environmental information to the public is informative and understandable.

(4) DISPUTE RESOLUTION.—If the lead agency finds that an environmental concern relating to an authorization for an energy delivery system over which a participating agency has jurisdiction under Federal law has not been resolved, the lead agency, in consultation with the Council on Environmental Quality and the head of the participating agency, shall resolve the matter not later than 30 days after the date of the finding.

(d) DELEGATION FROM PARTICIPATING AGENCY TO LEAD AGENCY.—Notwithstanding any other provision of law, with the agreement of the lead agency, the head of any participating agency may delegate to the lead agency the authority to issue any authorization for an energy delivery system or a class of energy delivery systems.

(e) PARTICIPATION OF STATE AGENCIES.—A State agency that has jurisdiction under State law (which jurisdiction has not been preempted by Federal law) over siting, construction, or operation of energy delivery systems may elect to participate in an integrated review process under the terms and conditions established by the lead agency for all Federal agencies that participate in the integrated review process.

(f) FEDERAL DELEGATION TO STATES.—

(1) IN GENERAL.—At the request of a Governor of a State, and with the concurrence of an applicant, the lead agency may delegate to an appropriate State agency the authority to prepare an environmental impact statement or an environmental assessment relating to construction, operation, or maintenance of an energy delivery system if—

(A) such an environmental impact statement or environmental assessment is required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(B)(i) the energy delivery system is located entirely within the State; and

(ii) the State agency has sufficient expertise concerning energy delivery systems to prepare the environmental impact statement or environmental assessment;

(C) the responsible Federal official of the lead agency provides guidance and participates in the preparation of the environmental impact statement or environmental assessment by the State agency;

(D) the responsible Federal official independently evaluates any environmental impact statement or environmental assessment prepared by the State agency before the statement or assessment is approved; and

(E) the responsible Federal official—

(i) provides early notification to and solicits the views of any other affected State or any affected Federal land management entity of any action or alternative to the action that may have a significant impact on the State or the Federal land management entity; and

(ii) if the State agency disagrees with the assessment of the responsible Federal official with respect to an impact described in clause (i), prepares a written assessment of the impact for incorporation into the environmental impact statement or environmental assessment prepared by the State agency.

(2) EFFECT ON OTHER RESPONSIBILITIES AND STATEMENTS.—Nothing in paragraph (1)—

(A) relieves the responsible Federal official referred to in that paragraph of—

(i) any responsibility of the official for the scope, objectivity, or content of the environmental impact statement referred to in that paragraph; or

(ii) any other responsibility of the official under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); or
