#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. FEINGOLD:

S. 2691. A bill to amend the Communications Act of 1934 to facilitate an increase in programming and content on radio that is locally and independently produced, to facilitate competition in radio programming, radio advertising, and concerts, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. FEINGOLD. Mr. President, I rise today to introduce legislation that will promote competition in the radio and concert industries.

This legislation will begin to address many of the concerns that I have heard from my constituents regarding the concentration of ownership in the radio and concert industry and its effect on consumers, artists, local businesses, and ticket prices.

A few weeks ago, I began discussing with my colleagues a number of con-

cerns that I have been hearing from Wisconsinites. Anti-competitive practices are hurting local radio station owners, local businesses, consumers, and artists.

During the debate of the 1996 Telecommunications Act, I joined a number of my colleagues in opposing the deregulation of radio ownership rules because of concerns about its effect on consumers, artists, and local radio stations.

Passage of this act was an unfortunate example of the influence of soft money in the political process. As my colleagues will recall, I have consistently said that this act was bought and paid for by soft money. Everyone was at the table, except for the consumers.

We have enacted legislation to rid the system of this loophole in campaign finance law, but we must also repair the damage that it allowed.

In just five years since its passage, the effects of the Telecommunications Act have been far worse than we imagined. While I opposed this act because of its anti-consumer bias, I did not predict that the elimination of the national radio ownership caps and relaxation of local ownership caps would have triggered such a tremendous wave of consolidation and harmed such as diverse range of interests.

This legislation did not simply raise the national ownership limits on radio stations, it eliminated them all together. It also dramatically altered the local radio station ownership limits through the implementation of a tiered ownership system that allowed a company to own more radio stations in the larger markets.

When the 1996 Telecommunications Act became law there were approximately 5,100 owners of radio stations. Today, there are only about 3,800 owners, a decrease of about 25 percent.

Concentration at the local levels are unprecedented.

At the same time that ownership of radio stations has become increasingly concentrated, some large radio station ownership groups have also bought promotion services and advertising.

I have been hearing from people at home in Wisconsin, from radio station owners, artists, broadcasters, and concert promoters who are being pushed out by anti-competitive practices, practices that result from an increasingly concentrated market.

I am very concerned that these levels of concentration are pushing independent radio station owners and concert promoters out of business. And I am concerned that a few companies are leveraging their cross-ownership of radio, concert promotion, and venues in an anti-competitive manner.

My legislation addresses these concerns by prohibiting any entity that owns radio stations, concert promotion services, or venues from leveraging their cross-ownership in anti-competitive manner. Under this proposal, the FCC would revoke the license of any radio station that uses its cross owner
