STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. CANTWELL (for herself, Mr. WARNER, Mr. CHAFEE, Mr. CLELAND, Mr. ROCKEFELLER, and Mr. BINGAMAN):

S. 2790. A bill to provide lasting protection for inventoried roadless areas within the National Forest System; to the Committee on Energy and Natural Resources.

Mr. WARNER. Madam President, I rise today to join with my colleague from Washington, Senator CANTWELL, to ensure that the remaining, undisturbed areas within our National Forest system are permanently preserved.

Like many of my colleagues, I have worked with the Forest Service and participated in the public comment process on the development of the current Roadless Area Conservation Rule. This administrative procedure was several years in the making with extensive public outreach of public hearings across the country. Thousands of Americans voiced support for protecting these areas from road building and other development.

For my part, this legislation today continues efforts I have undertaken with my colleagues from the Southeast to protect the existing roadless areas in the Southern Appalachia forests. In 1997 I urged the Secretary of Agriculture to impose a moratorium on new road construction in these inventoried roadless areas. Last year, I urged President Bush to embrace and implement this important resource conservation policy. I was very encouraged that the President announced his administration's support for this rule on May 4, 2001.

Today, with this rule under legal challenge, I believe that it is important to take another step forward with ensuring that this rule is codified so that it has the full force of law. While some may advocate changes to the current rule to gain advantages for greater use or greater restrictions on these inventoried roadless areas, I want to assure my colleagues that our legislation today mirrors the current rule. With the extensive efforts of the Forest Service to analyze the impact of the rule and the large number of public comments in support, we must stay true to this effort.

The devastating fires on Forest Service lands in the West this summer have renewed our commitment to programs to reduce the fuel load on forest lands. I support Sen. Domenici's initiatives to redirect Forest Service funding of fuel reduction projects in areas adjoining residential areas, and remain committed to giving the Forest Service all of the tools it needs to reduce the loss of life and property from fires.

An important reason for my support today is because I am convinced that the Roadless Rule does not prevent the Forest Service from undertaking any fire prevention activities in roadless areas. Nor, when a fire exists, does the rule prevent the Forest Service from taking any appropriate action, including building roads in roadless areas, to create fire breaks or other means to control a wildfire.

But, Mr. President, there must be no doubt on this important issue. For that

reason, we have provided further clarification that the Forest Service has every authority to prevent fires or to respond to fires, and to use appropriated funds to undertake fire suppression activities in roadless areas.

This rule is a balanced approach to forest service management because it provides for reasonable exceptions for activities in roadless areas. I remain committed to the multiple-use management of our national forests. Timber and mineral resources on these public lands are assets that should be appropriately utilized and available for all Americans. My view of multiple-use management also recognizes and advances the recreational and environmental assets of these roadless areas.

The remaining roadless areas in our national forests are important for providing outstanding recreational opportunities for the public. These lands also provide wildlife habitat and protect the water quality of many watersheds that serve as downstream drinking water sources for our communities.

The Roadless Area Conservation rule is also sound fiscal policy for our national forests. The Forest Service has documented an \$8.4 billion backlog in maintaining existing roads within our national forests. Continuing to build new roads in these fragile areas will only further strain the scarce dollars within the Forest Service.

As I have indicated, the legislation we are introducing today does not change the substance or spirit of the Roadless rule in any way. To be clear, this legislation preserves the exemptions in the rule to allow for road construction where needed to protect these lands from floods, fires, and pest infestation. It ensures public access to private lands, and recognizes the existing rights to ongoing oil and gas leases.

For Virginia, this legislation ensures that 394,000 acres of inventoried roadless areas in the George Washington and Jefferson National Forests are permanently protected. During the public comment period on the Draft Environmental Impact Statement, the Forest Service received 68,586 comments from residents of Virginia. The Forest Service advises me that of this amount more than 98 percent of the comments supported full protection of these roadless areas.

I am pleased to support this legislation that is important to all regions of the country. The public has voiced its overwhelming support for this important conservation initiative, and I trust that my colleagues will respond by passing this bill this year.
