STATEMENTS ON SUBMITTED RESOLUTIONS

SENATE RESOLUTION 321—COM-MEMORATING THE 30TH ANNI-VERSARY OF THE FOUNDING OF THE AMERICAN INDIAN HIGHER EDUCATION CONSORTIUM (AIHEC)

Mr. CAMPBELL (for himself, Mr. DORGAN, Mr. MURKOWSKI, Mr. DOMENICI, Mr. BINGAMAN, Mr. CONRAD, and Ms. STABENOW) submitted the following resolution; which was referred to the Committee on Indian Affairs:

Whereas the United States of America and Indian Tribes have a unique legal and political relationship as expressed in the U.S. Constitution, Treaties, Federal statutes and executive orders, court decisions, and course of dealing.

Whereas the United States has committed itself to national educational excellence including excellence in institutions that educate American Indian and Alaska Native children and adults.

Whereas Tribal Colleges and Universities are fully accredited community-based educational institutions devoted to the education, welfare and economic advancement of American Indian communities.

Whereas, the populations in the communities served by Tribal Colleges and Universities are among the poorest of the nation, and the services provided by the Tribal Colleges and Universities enable students to train for and obtain jobs that offer social and economic stability, and serve to reduce welfare dependence in these communities.

Whereas, Tribal Colleges and Universities are chronically underfunded, and in addition to offering their communities higher education opportunities, also function as community centers, libraries, childcare centers, tribal archives, career and business centers, economic development centers, and public meeting places.

Whereas in 1970 President Nixon issued his now-famous "Special Message to Congress on Indian Affairs" rejecting the failed policies of assimilation and termination and heralding the new era of Indian Self Determination.

Whereas in 1972 six Tribal Colleges established the American Indian Higher Education Consortium to empower its member institutions through collective action, construct a national support and communications network, and assist Indian communities and Native people in the field of educational achievement, while nurturing, advocating, and protecting American Indian history, culture, art and language.

Whereas The American Indian Higher Education Consortium consists of 32 Tribal Colleges and Universities located in 12 states that enroll approximately 30,000 full-and part-time students from over 250 Federally-recognized Indian Tribes.

Whereas on July 3, 2002, President Bush issued Executive Order 13270 ensuring that Tribal Colleges and Universities are more

fully recognized and integrated into the American family of institutions of higher education.

Whereas tribal Colleges and Universities provide access to information technology critical to full participation in America's economic, political and social life, bridging great distances and transforming learning environment.

Whereas, Tribal Colleges and Universities and their Native communities continue to play an integral role in American Indian education including in assisting in the implementation of the No Child Left Behind Act of 2002. Now, therefore, be it

Resolved, that the Senate of the United States recognizes the essential role Tribal Colleges and Universities play in American Indian communities, honors the vision and commitment of the founders of the American Indian Higher Education Consortium, and celebrates 30 successful years of implementing that vision for the benefit of American Indian peoples across the United States.

Mr. CAMPBELL. Mr. President, I am pleased to be joined today by Senators DORGAN, MURKOWSKI, DOMENICI, BINGAMAN, CONRAD and STABENOW in submitting a resolution to commemorate the establishment of the American Indian Higher Education Consortium that took place in the fall of 1972.

In the late 1960s Indian people began to realize that their futures depended more on their own keen insights, beliefs and actions than on those of the Federal Government or other communities.

This phenomenon was assisted in 1970 when President Nixon issued his "Special Message to Congress on Indian Affairs" which rejected the tried and failed policies of assimilation and termination. Nixon's message launched the era of Indian Self Determination with a renewed focus on local, tribal decision making and economic self sufficiency.

In 1972 six Indian tribal colleges joined forces to form the American Indian Higher Education Consortium, AIHEC, with the goal of creating a network of tribally-controlled institutions of higher education.

The founders of the AIHEC envisioned that through collective action, they could better assist Indian communities and Native people in the field of education and vocational education.

Thirty years later, the American Indian Higher Education Consortium has grown to include 32 Tribal Colleges and Universities located in 12 States with an enrollment of 30,000 students from over 250 federally recognized Indian Tribes.

Tribal Colleges and Universities provide quality higher education to Indian students and have become the "hubs" of a sort for accessing state-of-the-art information technology. It is important to realize that in addition to providing educational opportunities for their communities, these institutions function as community centers, libraries, childcare centers, tribal archives, career and business centers, economic development centers and public meeting places.

The communities served by Tribal Colleges and Universities are among the poorest in the Nation. The training and education provided by Tribal Colleges and Universities allows Native students to prepare for and obtain jobs that offer a decent salary with benefits, and help reduce the trap of dependency that has befallen so many Native people.

On July 3, 2002 President Bush issued Executive Order 13270 recognizing the enduring contributions of Indian Tribal Colleges and Universities and hailing their success on a wide range of issues.

I urge my colleagues to join me in supporting this resolution which recognizes the critical role Tribal Colleges and Universities play in American Indian communities, honors the vision and commitment of the founds of the American Indian Higher Education Consortium, and celebrates 30 successful years of implementing that vision for the benefit of American Indian peoples across the United States.
