STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KYL (for himself and Mr. MCCAIN):

S. 2992. A bill to provide for adjustments to the Central Arizona Project in Arizona, to authorize the Gila River Indian Community water rights settlement to reauthorize and amend the Southern Arizona Water Rights Settlement Act of 1982, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. KYL. Mr. President, on behalf of Senator MCCAIN and myself I am introducing legislation today that would codify the largest water claims settlement in the history of Arizona. This bill represents the tremendous efforts of literally hundreds of people in Arizona and here in Washington over a period of five years. Looking ahead, this bill could ultimately be nearly as important to Arizona's future as was the authorization of the Central Arizona Project, CAP, itself.

Since Arizona began receiving CAP water from the Colorado River, litigation has divided water users over how the CAP water should be allocated and exactly how much Arizona was required to repay the Federal Government. This bill will, among other things, codify the settlement reached between the United States and the Central Arizona Water Conservation District over the State's repayment obligation for costs incurred by the United States in constructing the Central Arizona Project. It will also resolve, once and for all, the allocation of all remaining CAP water. This final allocation will provide the stability necessary for State water authorities to plan for Arizona's future water needs. In addition, approximately 200,000 acre-feet of CAP water will be made available to settle various Indian water claims in the State. The bill would also authorize the use of the Lower Colorado River Basin Development Fund, which is funded solely from revenues paid by Arizona entities, to construct irrigation works necessary for tribes with congressionally approved water settlements to use CAP water.

Title II of this bill settles the water rights claims of the Gila River Indian Community. It allocates nearly 100,000 acre-feet of CAP water to the Community, and provides funds to subsidize
