The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 326

Whereas according to the American Cancer Society, in 2002, 203,500 women will be diagnosed with breast cancer and 39,600 women will die from this disease;

Whereas it is estimated that about 2,000,000 women were diagnosed with breast cancer in the 1990s, and that in nearly 500,000 of those cases, the cancer resulted in death;

Whereas the risk of breast cancer increases with age, with a woman at age 70 years having twice as much of a chance of developing the disease as a woman at age 50 years;

Whereas at least 80 percent of the women who get breast cancer have no family history of the disease;

Whereas mammograms, when operated professionally at a certified facility, can provide safe screening and early detection of breast cancer in many women;

Whereas mammography is an excellent method for early detection of localized breast cancer, which has a 5-year survival rate of more than 97 percent;

Whereas the National Cancer Institute and the American Cancer Society continue to recommend periodic mammograms; and

Whereas the National Breast Cancer Coalition recommends that each woman and her health care provider make an individual decision about mammography: Now, therefore, be it

Resolved, That the Senate—

(1) designates October 18, 2002, as “National Mammography Day”; and

(2) requests that the President issue a proclamation calling upon the people of the United States to observe the day with appropriate programs and activities.
