STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS—March 18, 2003

By Mrs. FEINSTEIN:

S. 649. A bill to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to participate in projects within the San Diego Creek Watershed, California, and for other purposes, to the Committee on Energy and Natural Resources.

Mrs. FEINSTEIN. Mr. President, I rise to introduce legislation to amend

the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to fund projects within the Irvine Basin.

This bill will authorize up to \$19 million in funds in order to cover up to 25 percent of the costs of constructing three water projects in Southern California. Water is an issue of paramount importance in California, and these projects provide innovative examples of ways that we can improve our water quality and increase our water supply.

The first project, called the Natural Treatment System, will build a network of wetlands to filter surface water and urban runoff in the San Diego Creek Watershed and Upper Newport Bay. Based on the performance of a single constructed wetland in the area, we expect the Natural Treatment System to filter out 126,000 pounds of nitrogen and 21,000 pounds of phosphorus from the watershed each year and reduce levels of harmful bacteria such as fecal coliform by as much as 26 percent.

The second project, the Irvine Desalter, will clean brackish groundwater and provide drinking water for between 40,000 and 50,000 people. By allowing the Irvine Basin to access another water source, the desalter will reduce our dependence on imported water and take considerable pressure off of our other water resources.

The final project will construct a regional brine line to dispose of brine directly into the ocean. Like much of California, the Irvine Ranch Water District is a leader in water reclamation and recycling efforts. Buildup of too much salt in the system can hamper these reclamation efforts. The brine line will allow the District to continue its innovative efforts to ensure that water is used more than once while increasing use of brackish water resources.

These projects shows us how California and the West can improve our water situation. Projects like these show us the way forward. I urge my colleagues to support this bill.
