TRIBUTE TO DETECTIVE RUSSELL NICHOLS

● Mr. BUNNING. Mr. President, I rise today in the Senate to honor and pay tribute to Kentucky State Police Detective Russell Nichols for being named the Trooper of the Year for Post 16 in Henderson.

This is the second time that this honor was bestowed upon Detective Nichols. As a 18-year veteran of the Kentucky State Police, he has proven himself over and over again to be a exemplary law enforcement officer. Detective Nichols was nominated for this prestigious award because of his investigations into crimes ranging from burglaries to homicides. Detective Nichols is also a field training officer who uses his expertise to train and mentor rookie troopers.

The citizens of western Kentucky are fortunate to have Detective Nichols protecting their communities. His example of leadership, hard work, and compassion should be an inspiration to all throughout the Commonwealth.

Congratulations, Detective Nichols, for receiving this award. Detective Nichols is just one of the many Kentucky State Police officers who put others before themselves by vowing to protect and serve Kentuckians. They have earned our admiration and respect, and for this we will always be grateful.●

TRIBUTE TO MR. THOMAS "BUDDY" MORGAN OF MONTGOMERY, AL, PRESIDENT OF THE AMERICAN METROPOLITAN SEWERAGE ASSOCIATION

● Mr. SHELBY. Mr. President, I rise today in honor of Mr. Thomas "Buddy" Morgan, the general manager of the Montgomery Water Works and Sanitary Sewer Board in Montgomery, AL. Mr. Morgan serves as their representative to the Association of Metropolitan Sewerage Agencies, AMSA. On May 19, 2030, the members of AMSA elected Mr. Morgan to be the first president of the association from Alabama. Mr. Morgan was selected for his exemplary commitment and dedication to a clean-water community.

AMSA's mission is to effectively maintain a strong leadership role in the development and implementation of scientifically sound, cost-effective, and environmentally friendly policies for the protection of the health of the public and the environment. In May of 2003, AMSA will celebrate 33 years of service to the clean-water community and the Nation.

Mr. Morgan has worked on many projects on behalf of the city of Montgomery. His distinguished background includes his service on the U.S. Environmental Protection Agency's Urban Wet Weather Flows Federal Advisory Committee and the Sanitary Sewer Overflow Federal Advisory Committee. He also served as chair of the Catoma Creek Watershed Committee and as a board member of the Alabama Clean Water Partnership. As a result of his involvement, Montgomery and surrounding areas of the Great State of Alabama are directly represented in national policy discussions.

Mr. Morgan was instrumental in creating the Montgomery County Water Festival, which is now in its third year. As a result of his efforts, the water festival brings together local students for a day of activities and entertainment that instills in them a sense of environmental stewardship and awareness.

Alabama is honored to be the home to Mr. Morgan. It is no secret that he is a man who, day in and day out, goes above and beyond the call of duty. He is to be commended for his extraordinary efforts on behalf of the Montgomery Water Works and Sanitary Sewer Board and his election to lead the Association of Metropolitan Sewerage Agencies.●

MESSAGE FROM THE HOUSE

At 8:30 a.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2) to provide for reconciliation pursuant to section 201 of the concurrent resolution on the budget for fiscal year 2004.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 191. Concurrent resolution providing for a conditional adjournment of the House of Representatives and a conditional recess or adjournment of the Senate.

ENROLLED BILL SIGNED

The following enrolled bill, previously signed by the Speaker of the House, was signed on today, May 23, 2003, by the President pro tempore (Mr. STEVENS):

H.R. 1298. An act to provide assistance to foreign countries to combat HIV AIDS, tuberculosis, and malaria, and for other purposes.

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

S. 1104. A bill to amend title 10, United States Code, to provide for parental involvement in abortions of dependent children of members of the Armed Forces.

PETITIONS AND MEMORIALS

The following petition or memorial was laid before the Senate and was referred or ordered to lie on the table as indicated:

POM-126. A Senate concurrent resolution adopted by the Legislature of the State of Louisiana relative to the food imports that contain the use of banned antibiotics, especially in foreign imported shrimp; to the Committee on Health, Education, Labor, and Pensions.

SENATE CONCURRENT RESOLUTION NO. 18

Whereas, it is the concern of the Legislature of Louisiana that the presence of chloramphenicol and other banned veterinary drugs in imported shrimp and the legislature calls on the federal government to take immediate and focused efforts to improve enforcement of food import restrictions of seafood imports in order to protect American consumers and ensure safety of the food supply; and

Whereas, chloramphenicol, a potent antibiotic, can cause severe toxic effects in humans, including hypoplastic and aplastic anemia, which is usually irreversible and fatal; and

Whereas, because of these human health impacts, chloramphenicol, nitrofurans, and similar veterinary drugs are not approved for use in food-producing animals in the United States; and

Whereas, countries such as Thailand, Vietnam, and China have been found to use these drugs in the aquaculture of shrimp and other seafood; and

Whereas, the United States imports over four hundred thousand metric tons of shrimp annually, and Thailand and Vietnam are the top two exporters of shrimp to the United States, and China is the fifth largest exporter of shrimp to the United States; and

Whereas, upon detection of chloramphenicol using testing protocols that detect such substances as low as zero point three-tenths (0.3) parts per billion in certain shipments of seafood from China and other nations, in 2002 the European Union and Canada severely restricted imports of shrimp and other food from these nations; and

Whereas, the United States Food and Drug Administration inspects only two percent of all seafood imports into the country and utilizes a testing procedure that cannot detect

the presence of chloramphenicol below one part per billion; and

Whereas, the Food and Drug Administration import testing did not detect chloramphenicol in shrimp imported from these nations in 2002; and

Whereas, independent testing performed by the states of Alabama, Florida, Louisiana, Mississippi, and Texas detected the presence of chloramphenicol in samples of imported shrimp from China, as well as from other countries, that were at levels considered harmful to human beings; and

Whereas, imports of seafood from nations that utilize substances banned in the United States such as chloramphenicol, nitrofurans, and other veterinary drugs pose potential threats to American consumers; and

Whereas, denial of entry to contaminated shrimp and other seafood products to the European Union and Canada will likely redirect imports to the United States of contaminated products turned away from these countries; and

Whereas, United States based companies involved in the importation and processing of shrimp are opposed to the use of chloramphenicol and are working with the domestic shrimp industry and the Food and Drug Administration to develop effective protocols, including in-country testing, certification of foreign testing facilities and other means to detect banned antibiotics and to exclude all tainted products from the United States marked; Therefore be it

Resolved That the Legislature of Louisiana expresses its concern about the presence of chloramphenicol, nitrofurans, and other veterinary drugs in seafood products especially imported shrimp and its potential impact on the safety of the food, and calls for immediate and focused efforts by the government of the United States to improve enforcement of food import restrictions of seafood imports containing chloramphenicol, nitrofurans, and other banned veterinary drugs in order to protect American consumers and ensure the safety of the food supply and further urges the Food and Drug Administration to continue to work with importers and domestic stakeholders to develop effective methods of excluding such banned antibiotics.

Be it further resolved That a copy of this Resolution shall be transmitted to the secretary of the United States Senate and the clerk of the United States House of Representatives and to each member of the Louisiana delegation to the United States Congress.
