

The Resolution we are submitting today urges the President to issue a proclamation calling upon the people of the United States to observe the week of June 9, 2003, with appropriate recognition, programs, and activities to further ocean literacy, education, and exploration. During this week on Capitol Hill, I am pleased to be an Honorary Co-host of Capitol Hill Oceans Week, a series of events and discussions designed to facilitate awareness of the oceans within the Congress. As a country, we should use this week to further expand our awareness of the oceans and engage in discussions and activities that will help ocean resource conservation.

I would like to thank my fellow Senators who are joining me in this effort to establish National Oceans Week, and I hope that this week will help contribute to a better awareness of and appreciation for the oceans. It is through such efforts that ocean stewardship can expand and take hold as an important national ethic.

(At the request of Mr. DASCHLE, the following statement was ordered to be printed in the RECORD.)

• Mr. KERRY. Mr. President, I am proud to cosponsor this resolution with Senators SNOWE, HOLLINGS, and MCCAIN. In 1998 we recognized the International Year of the Oceans, and it is time we underscore the importance of oceans in our daily lives through an annual celebration of National Oceans Week. The global oceans need our attention now more than ever. Today, we are faced with the challenge of sustainably managing our interactions with the marine environment, in the face of increasing pressures from population growth and a global economy. While we have been making significant progress in this arena, there are constant reminders that we have not yet achieved our goal of supporting ocean-related industries while maintaining high ecological standards.

The recent oil spill of the Bouchard barge in Buzzard's Bay, MA, vividly demonstrates that we must be ever vigilant in striving for the balance between ecological protection and economic growth—as well as the need to balance competing economic interests—in this case, an important local seafood industry with our need for energy. Although we have seen a marked improvement in the safe marine transport of oil since the passage of the Oil Pollution Act in 1990, all possible care must be taken to ensure that we have a system in place that adequately protects our marine environment.

Marine fisheries are also a vitally important component of our coastal economies and culture, especially in the Bay State. We are making progress in restoring our overfished stocks to sustainable levels, and we are committed to staying the course to reduce mortality, improve water quality and restore habitat. But we must press forward to ensure all nations are pulling

their weight in providing sustainable fisheries management. Recent reports show international fleets have had a dramatic impact that appears to go largely unchecked. Living marine resources, particularly highly migratory species like tuna and swordfish, know no boundaries, and we cannot tolerate lawlessness by any nation in the management of these stocks.

The Marine Mammal Protection Act has proved to be a very successful conservation tool, bringing numerous species back from the brink of extinction. However, there is still much more to be done. I am particularly familiar with the example of the North Atlantic right whales, one of the most endangered species of marine mammals in the world, with a population of approximately 300 individuals. Unfortunately, our local New England waters are often the areas where these endangered whales literally collide with the fishing industry and the marine transportation industry. The plight of the right whales highlights the importance of working with a wide variety of interests to find solutions that will make a difference.

Congress has already asked a panel of experts to develop a plan of action for our oceans in the Oceans Act of 2000. This federal mandated U.S. Commission on Ocean Policy will help us understand what steps are needed to advance our knowledge and improve our management of the marine environment. Later this year, the Commission will make recommendations on how we can improve our ocean governance, investment and implementation, research, education and marine operations, and stewardship. Despite these great efforts, there is much more to do. Increased public attention to our Nation's ocean issues is essential if we are to make further headway. This is why, today, I am honored to join Senator SNOWE in introducing this resolution to declare the week of June 9, 2003, as National Oceans Week. •

### SEC. 5 3. RESTRICTIONS ON THE USE OF MTBE.

(a) FINDINGS.—Congress finds that—

(1) since 1979, methyl tertiary butyl ether (referred to in this section as "MTBE") has been used nationwide at low levels in gasoline to replace lead as an octane booster or anti-knocking agent;

(2) Public Law 101-549 (commonly known as the "Clean Air Act Amendments of 1990") (42 U.S.C. 7401 et seq.) established a fuel oxygenate standard under which reformulated gasoline must contain at least 2 percent oxygen by weight;

(3) at the time of the adoption of the fuel oxygenate standard, Congress was aware that—

(A) significant use of MTBE could result from the adoption of that standard; and

(B) the use of MTBE would likely be important to the cost-effective implementation of that standard;

(4) Congress is aware that gasoline and its component additives have leaked from storage tanks, with consequences for water quality;

(5) the fuel industry responded to the fuel oxygenate standard established by Public Law 101-549 by making substantial investments in—

(A) MTBE production capacity; and

(B) systems to deliver MTBE-containing gasoline to the marketplace;

(6) when leaked or spilled into the environment, MTBE may cause serious problems of drinking water quality;

(7) in recent years, MTBE has been detected in water sources throughout the United States;

(8) MTBE can be detected by smell and taste at low concentrations;

(9) while small quantities of MTBE can render water supplies unpalatable, the precise human health effects of MTBE consumption at low levels are yet unknown as of the date of enactment of this Act;

(10) in the report entitled "Achieving Clean Air and Clean Water: The Report of the Blue Ribbon Panel on Oxygenates in Gasoline" and dated September 1999, Congress was urged—

(A) to eliminate the fuel oxygenate standard;

(B) to greatly reduce use of MTBE; and

(C) to maintain the environmental performance of reformulated gasoline;

(11) Congress has—

(A) reconsidered the relative value of MTBE in gasoline; and

(B) decided to eliminate use of MTBE as a fuel additive;

(12) the timeline for elimination of use of MTBE as a fuel additive must be established in a manner that achieves an appropriate balance among the goals of—

(A) environmental protection;

(B) adequate energy supply; and

(C) reasonable fuel prices; and

(13) it is appropriate for Congress to provide some limited transition assistance—

(A) to merchant producers of MTBE who produced MTBE in response to a market created by the oxygenate requirement contained in the Clean Air Act (42 U.S.C. 7401 et seq.); and

(B) for the purpose of mitigating any fuel supply problems that may result from elimination of a widely-used fuel additive.

(b) PURPOSES.—The purposes of this section are—

(1) to eliminate use of MTBE as a fuel oxygenate; and

(2) to provide assistance to merchant producers of MTBE in making the transition from producing MTBE to producing other fuel additives.

(c) AUTHORITY FOR WATER QUALITY PROTECTION FROM FUELS.—Section 211(c) of the Clean Air Act (42 U.S.C. 7545(c)) is amended—

(1) in paragraph (1)(A)—

(A) by inserting "fuel or fuel additive or" after "Administrator any"; and

(B) by striking "air pollution which" and inserting "air pollution, or water pollution, that";

(2) in paragraph (4)(B), by inserting "or water quality protection," after "emission control,"; and

(3) by adding at the end the following:

"(5) RESTRICTIONS ON USE OF MTBE.—

"(A) IN GENERAL.—Subject to subparagraph (E), not later than 4 years after the date of enactment of this paragraph, the use of methyl tertiary butyl ether in motor vehicle fuel in any State other than a State described in subparagraph (C) is prohibited.

"(B) REGULATIONS.—The Administrator shall promulgate regulations to effect the prohibition in subparagraph (A).

"(C) STATES THAT AUTHORIZE USE.—A State described in this subparagraph is a State that submits to the Administrator a notice that the State authorizes use of methyl tertiary butyl ether in motor vehicle fuel sold or used in the State.

"(D) PUBLICATION OF NOTICE.—The Administrator shall publish in the Federal Register each notice submitted by a State under subparagraph (C).

"(E) TRACE QUANTITIES.—In carrying out subparagraph (A), the Administrator may allow trace quantities of methyl tertiary butyl ether, not to exceed 0.5 percent by volume, to be present in motor vehicle fuel in cases that the Administrator determines to be appropriate.

"(6) MTBE MERCHANT PRODUCER CONVERSION ASSISTANCE.—

"(A) IN GENERAL.—

"(i) GRANTS.—The Secretary of Energy, in consultation with the Administrator, may make grants to merchant producers of methyl tertiary butyl ether in the United States to assist the producers in the conversion of eligible production facilities described in subparagraph (C) to the production of—

"(i) iso-octane or alkylates, unless the Administrator, in consultation with the Secretary of Energy, determines that transition assistance for the production of iso-octane or alkylates is inconsistent with the criteria specified in subparagraph (B); and

"(ii) any other fuel additive that meets the criteria specified in subparagraph (B).

"(B) CRITERIA.—The criteria referred to in subparagraph (A) are that—

"(i) use of the fuel additive is consistent with this subsection;

"(ii) the Administrator has not determined that the fuel additive may reasonably be anticipated to endanger public health or the environment;

"(iii) the fuel additive has been registered and tested, or is being tested, in accordance with the requirements of this section; and
