**HONORING PERMEDION FOR ITS
THIRTY YEARS OF OUT-
STANDING SERVICE TO THE
HEALTHCARE COMMUNITY**

HON. PATRICK J. TIBERI

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 22, 2004

Mr. TIBERI. Mr. Speaker, I rise today to congratulate Permedion for its thirty years of

service to the healthcare community. Permedion is a not for profit organization headquartered in Westerville, Ohio whose primary areas of service are healthcare quality measurement and improvement, data analysis and management, and independent medical review. Its employees work nationwide with hospitals, insurance companies, government agencies and other professional groups in order to improve our healthcare system.

Permedion helps reduce healthcare costs by monitoring the utilization and quality of healthcare services and detecting inappropriate use. They also review appeals for medical necessity and are one of the last avenues for enrollees to appeal a decision their health plan makes.

In 1974 a group of physicians founded Permedion with the goal of providing peer review and quality assurance to healthcare agencies across Ohio. Today I am proud to recognize Permedion as one of the nation's leading providers in healthcare quality improvement. Once again, I congratulate Permedion for its thirty years of service and wish them the best for the next thirty.
