

included Mercer, McDowell and Cabell counties in my district. She organized home and garden clubs, 4-H clubs, and established the West Virginia State Farm Homemakers Council, under the auspices of West Virginia State College, West Virginia University and the U.S. Department of Agriculture. She was the district home demonstration agent and became program development leader. After 27 years in the Extension Service, Mrs. Livisay retired as a specialist in child development and human relations. A personal account of the work of the West Virginia Extension Service for African-Americans is recorded in the book, "Reaching Out with Heart and Hands—The Memories of An Extension Worker," written by Mrs. Livisay in 1994.

A diamond soror and life member, Mrs. Livisay was initiated into Nu Chapter of Alpha Kappa Alpha Sorority Inc. in 1925. She was a charter member of Epsilon Delta Omega Chapter in Beckley, West Virginia and at the time of her death, she was a member of Eta Iota Omega Chapter, in Inkster, Michigan. Mrs. Livisay, was the proud mother of four children, Carolyn L. McGhee, Marilyn L. Stewart, Jackson P. Livisay, Jr. and Osborne Livisay.

Mr. Speaker, I am honored today to pay tribute to the late Mrs. Tanner Johnson Livisay, for her many accomplishments and achievements and the legacy she leaves for her family and the great State of West Virginia, and in particular, my third congressional district.

CONGRATULATIONS TO REPRESENTATIVE BILL LIPINSKI

HON. LANE EVANS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. EVANS. Mr. Speaker, today I would like to congratulate my good friend Representative BILL LIPINSKI his retirement after 22 years of dedicated service in the House of Representatives. BILL has been a close friend of mine since we were freshman together in the 98th Congress, and I know that reporting to work each day will not be the same without BILL around.

Representative LIPINSKI is a native of Chicago and works incredibly hard for the residents of the 3rd Congressional district. Even after 11 terms in Congress he still flies home nearly every weekend to address the concerns of his constituents. BILL has spent his entire career working for the people of Chicago, first in Chicago's Park District for 17 years, then as the 23rd Ward Alderman in the Chicago City Council, and then as a U.S. Congressman.

Some of BILL's greatest achievements lie in his work on the House Committee on Transportation and Infrastructure. He has done an incredible amount both for Chicago and for the entire state of Illinois and has secured millions of dollars in federal funding for improvements at both Midway and O'Hare airports. For example, in 1990 Representative LIPINSKI sponsored and helped pass the Passenger Facility Charge BILL to enable both Midway and O'Hare to finance important airport infrastructure projects.

In the 105th Congress, BILL was instrumental in passing the Transportation Equity

Act for the 21st Century, under which Illinois continues to receive an average of \$885 million per year for highway funding and \$150 million per year for mass transit programs. During the 107th Congress, Representative LIPINSKI was the author of legislation to allow Chicago's Mayor Daley to expand O'Hare International Airport without consulting the Illinois Governor, an important step of autonomy for the city.

I cannot say enough about how much I have enjoyed working with BILL. Again, Mr. Speaker, I would like to convey my sincerest thanks to Representative BILL Lipinski for his friendship and counsel, and congratulations to both him and his family on this well-deserved retirement. He has built an outstanding career during these past 22 years and will be sorely missed in the halls of Congress. I will look forward to working with his son, incoming Representative DANIEL LIPINSKI, during the coming years.

IN HONOR OF DR. STEVEN K. WEBSTER

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. FARR. Mr. Speaker, I rise today to honor Dr. Steven K. Webster, a dedicated educator and community volunteer, upon his retirement as Senior Marine Biologist at the Monterey, Bay Aquarium. Dr. Webster has diligently worked to develop and shape the aquarium's education, teacher training, and outreach programs. His dedication to the people of the Monterey Bay region has been a great benefit to the community for over twenty-five years.

As an educator at the Monterey Bay Aquarium, Dr. Webster developed the Discovery Lab programs that have served over 1.5 million children to date. There is scarcely a child in Monterey County who has not participated in one of the aquarium's free education programs, thanks in great part to Dr. Webster's vision and advocacy. In addition, Dr. Webster has initiated teacher education workshops in which over 10,000 teachers have participated free of charge. He has encouraged thousands of aquarium guides and volunteers in the aquarium's nationally recognized volunteer guide training program which he developed. Dr. Webster has served as an inspiration and has offered great encouragement to those consulting him on a career in marine biology.

Beyond his extensive career in marine biology, Dr. Webster has served in numerous volunteer community and board positions, including the Monterey Bay Chapter of the American Cetacean Society, the Cannery Row Foundation, the Lyceum of the Monterey Peninsula, the State Underwater Parks Advisory Board, the Monterey Bay National Marine Sanctuary, and the Friends of Moss Landing Marine Laboratories. An avid diving instructor and underwater photographer, Dr. Webster is a popular speaker on natural history topics ranging from the Monterey Bay to the Galapagos Islands.

Mr. Speaker, I wish to thank Dr. Webster for his outstanding and invaluable contributions to our community, and commend him for his many accomplishments. I congratulate him on his much deserved retirement and wish him the best of luck in all of his future endeavors.

PAYING TRIBUTE TO COL. JOHN E.
STAVAST (USAF RET.)

HON. SCOTT MCINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. MCINNIS. Mr. Speaker, it is with a sad heart that I rise to pay tribute to the passing of a great man from my district. John Stavast, a native of Denver, Colorado, recently passed away at the age of 78. Colonel Stavast dedicated 33 years of his life the armed services, in both the Army and Air Force. I am honored today to bring his contributions to the attention of this body of Congress and this Nation.

John joined the Army in 1944 and served in Europe during World War II as a gunner on B-17s. He was discharged in 1946 and enlisted again in 1949 earning his pilots wings. John trained Japanese Self Defense Force pilots in the USAF Air Training Command. While flying over North Vietnam in 1967, Colonel Stavast and his crewmate were shot down near Hanoi. Both men safely ejected and were taken prisoner. He endured torture for seven full days after his capture and remained a POW until 1972. During his time in the POW camp, the colonel, as the senior ranking officer, was responsible for over 200 American POW's at the prison near the Chinese border.

Colonel Stavast suffered numerous injuries during his imprisonment including broken bones in his back, arms and legs, and a skull fracture. He had over 6,000 flying hours when retired from the Air Force in 1980, and was awarded many medals for his service. These include three Silver Stars, two Legions of Merit, three Distinguished Flying Crosses, two Purple Hearts, the Bronze Star for Valor, and six Air Medals. After his retirement he was a member of the Military Officers Association, the Military Order of the Purple Heart, VFW, American Legion, and others. He was also a dedicated volunteer at the Veterans Administration Hospital.

Mr. Speaker, John Stavast was a dedicated patriot that selflessly served his community and country, and I am honored to pay tribute to his memory. He will be greatly missed. My thoughts and prayers go out to his family.

A TRIBUTE TO DR. JOHN LA
MONTAGNE—A TRUE PUBLIC
SERVANT

HON. FRED UPTON

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. UPTON. Mr. Speaker, I rise today to pay tribute to John La Montagne, Ph.D., Deputy Director of the National Institute of Allergy and Infectious Diseases, who died suddenly on November 2, 2004. He was a true public servant who worked tirelessly to improve public health in the United States and across the world. He is sorely missed in the public health community, by Elaine, his beloved wife of 37 years, his family, and the many persons in his community who were blessed to be able to call him friend and know his warmth, compassion for others, humor, and quiet modesty and dignity.

Dr. La Montagne's contributions to the national and international effort against infectious

diseases are remarkable. Trained as a microbiologist, Dr. La Montagne was a leader in the effort to develop a safer pertussis vaccine and new vaccines against childhood diarrhea and pneumonia. He guided the National Institute on Allergy and Infectious Disease's response to the emerging AIDS crisis and led the effort to respond to severe respiratory syndrome within months of the first outbreak.

Globally, he played a central role in the organization of the Multilateral Initiative on Malaria. He served as a member of the Scientific Advisory Groups of Experts on Vaccines and Biologicals as well as for Vaccines and Immunization for the World Health Organization. He chaired the WHO Task Force on Strategic Planning for the Children's Vaccine Initiative, advised the Pan American Health Organization on its programs in vaccine research implementation, and served as a member of the board of the Global Alliance for Tuberculosis Drug Development.

As an influential contributor to the field of infectious diseases, Dr. La Montagne delivered many major lectures all over the world. He received many prestigious awards for his scientific accomplishments, including the Public Health Service Special Recognition Award for leadership in childhood vaccine research programs, the Surgeon General's Certificate of Appreciation, the Presidential Meritorious Executive Rank Award, the Distinguished Executive Award for his work in the areas of infectious diseases research of global health relevance, the Secretary's Award for Distinguished Service for leadership of acellular pertussis vaccine trials, and most recently the Secretary's Award for Distinguished Service for design and implementation of critically important biodefense strategies.

As Dr. Zerhouni, the Director the National Institutes of Health said, "Personally, he was a dear friend and one of the finest people I have ever known. Professionally, in an NIH career spanning nearly thirty years, his leadership and commitment to improving global health were remarkable. His generosity, wit, even-handedness and kindness made him a friend to all who knew him. He will be sorely missed."

On November 2nd, our country and the world lost a great and good man.

HONORING BETTY MOSELY-MABERRY

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. KILDEE. Mr. Speaker, I rise before you today on behalf of United Auto Workers (UAW) Local 1811, located in my hometown of Flint, Michigan. On December 9, 2004, civic and community leaders will join family, friends, and members of Local 1811 to honor Ms. Betty Mosely-Maberry, who was unanimously selected by the Local's Executive Board to be the first recipient of their Walter Reuther Distinguished Service Award.

The Walter Reuther Distinguished Service Award is bestowed on UAW members who have authenticated 20 years of notable service. It honors the extraordinary contributions they have made to advance the cause of working people, their families, and commu-

nities. As Walter Reuther championed human dignity and social justice for all, the men and women who have received the award in his name have committed themselves to these same ideals.

Betty Mosely-Maberry began her career at Buick Medical in December 1967. She was one of the driving forces behind Local 1811's organization in 1972 and 1973, and as a result, was elected Chairperson of their bargaining unit. Over the years, Betty has fulfilled the duties of interim President and Vice-President of Local 1811, and officially represented them as Recording Secretary for over 16 years. Betty also served on their Civil Rights, Community Service, and Education Committees as either a member or Chair. Betty retired on July 1, 1999, although the influence she had on her peers was so great that she was asked to continue as Recording Secretary. She selflessly and respectfully declined the offer, citing that active members should hold the position. However, Betty decided to run for a trustee seat, which she won and holds to this day.

Mr. Speaker, all 22 members of UAW Local 1811's Executive Board feel that Betty Mosely-Maberry truly exemplifies the spirit in which the Walter Reuther Distinguished Service Award is given. Her willingness, hard work, and dedication to her brothers and sisters in labor as well as the community, are deserving of the highest respect. I ask my colleagues in the 108th Congress to join me in commending her.

PROJECT INTELLICARE

HON. JOHN T. DOOLITTLE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. DOOLITTLE. Mr. Speaker, it is with great pleasure that I rise today to speak about Project IntelliCare, a groundbreaking innovation in health care delivery that will revolutionize the way health care providers manage patient care, in addition to imparting tremendous improvements in the quality of care available to Americans.

As we all have undoubtedly read or witnessed in our districts, forecasts for the future of health care delivery are dire. Developments in medical technology have long been confined to procedural or pharmaceutical advances, while neglecting a most basic and essential component of medicine: patient information management.

The information systems that maintain patient files and transmit care history are antiquated in many of our hospitals and clinics. In fact, many systems are still paper based. The result: a patient's complete medical history is difficult to transmit when necessary and may not be available to new health caretakers, leaving the physician with a limited understanding of prior illnesses, treatment, and complications. This, in turn, leads to unnecessary and redundant testing and treatment and greater health risks due to preventable errors.

I would like to draw your attention to a May 3, 2004, New York Times op-ed by former Speaker Newt Gingrich and Congressman PATRICK KENNEDY. The writers correctly assert that information sharing may be one of the greatest issues facing health care provision

today, expounding on escalating costs and medical mistakes attributed to an archaic information system. They urge for bipartisan support of "moving American medicine into the 21st century" by standardizing information systems with technology readily available today.

Mr. Speaker, I am happy to report that the innovation discussed as "a matter of life and death" has already arrived in the State of California. Project IntelliCare was first implemented by the Adventist Health System in 1999, over four years ago. The program is hailed by the Department of Health and Human Services as ahead of its time in Healthcare IT and is positioned to serve as a model for other systems throughout the country.

Project IntelliCare employs cutting edge technology to provide seamless integration of a patient's whole medical history. Through this initiative, medical records are maintained electronically and securely, available only to the patient's health care provider. Project IntelliCare ensures that when a patient goes to visit a physician, regardless of when, where, or why, the patient will receive treatment that is current and relevant. No longer will those in need of medical help suffer from incomplete or inaccurate care.

Project IntelliCare not only protects Americans from substandard health care, it promises more efficient and cost-effective delivery. Inflating health care costs and skyrocketing insurance premiums are highly salient issues today. Duplication or incorrect prescription of services places a large burden on insurance companies. Greater costs to insurance companies translate to higher premiums for employers that provide insurance, the selfemployed, and individuals who pay out of pocket for their health care. In addition, redundant or unnecessary care strains the capacity of health care providers. However, Project IntelliCare poses a mechanism to mitigate some of the factors that contribute to these higher costs.

Project IntelliCare promises to modernize the way American health care is administered with tremendous benefits in quality of care, efficient, and cost-savings anticipated to accrue.

Mr. Speaker, I thank you for the opportunity to speak on this important and exciting topic and urge my colleagues to support further funding for Project IntelliCare. By supporting this program, we work to collectively improve American health care standards and delivery.

TRIBUTE TO EDDIE N. WILLIAMS

HON. HAROLD E. FORD, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. FORD. Mr. Speaker, I rise today to honor Eddie N. Williams, admired journalist, researcher, and civil servant who is retiring as President of the Joint Center for Political and Economic Studies. Mr. Williams has led the Center for 32 years in its mission to improve the socioeconomic status of African Americans and other minorities, through research, policy analysis, and political engagement. In every sense, Mr. Williams' life and career are emblematic of how one courageous and hard working American can overcome challenges, take advantage of opportunities and make people's lives better.
