

Bernard Kerst, a great man from my district. Bernard spent most of his 87 years living in Yuma, Colorado, and during that time he made a significant impact on the life of countless individuals and his county. I am honored today to bring his contributions to the attention of this body of Congress and this Nation.

Bernard Kerst was born on July 9, 1917. When the Great Depression swept the country, he left high school and got a job to support himself and his family. He started a trucking business in his twenties and then built Victory Ships in Oregon during World War II. Afterward, he moved back to eastern Colorado, married DeVonna Gregory, and began farming and ranching. Being an avid conservationist, Bernard served on the board of the East Yuma County Soil Conservation District and was awarded the Bullshippers award from the Farm and Ranch Association for his outstanding service and leadership.

Bernard was a dedicated family man, raised two children, Carolyn and Dan, had many grandchildren and was able to know his first great grandchild, Isabel Carolyn. Due to health problems, Bernard and DeVonna moved to Arizona. After DeVonna passed away in 1999, Bernard moved back to Colorado to be close to his family living in Glenwood Springs.

Mr. Speaker, Bernard Kerst was a dedicated man who worked hard, supported his community and loved his family, and I am honored to pay tribute to him before this body of Congress today. I had the pleasure of knowing Bernard and worked with members of his family during my time in office, and I will miss his kind heart and wisdom. My thoughts and prayers go out to his family and friends during this time of bereavement.

#### HONORING BATTELLE ON THE OCCASION OF THEIR 75TH ANNIVERSARY

##### HON. DAVID L. HOBSON

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, November 17, 2004*

Mr. HOBSON. Mr. Speaker, I rise today with Mrs. PRYCE and Mr. TIBERI to congratulate Battelle, a global science and technology enterprise, on its 75th anniversary.

Although founder Gordon Battelle never lived to see his dreams come to fruition, it was his and his mothers' estates that led to Battelle's existence. The estates were generously left for the establishment of the "Battelle Memorial Institute . . . for the purpose of education in connection with and the encouragement of creative and research work and the making of discoveries and inventions . . .". It was Mr. Battelle's desire to recover zinc from Ozark mines that led him to his first patent. This initial success produced the grand vision which Mr. Battelle's business partner, Joseph Frantz, is credited with carrying out.

In 1929, Battelle opened for business with only 30 staff members. Today, including the national labs that they manage, Battelle oversees 16,000 staff members and conducts \$3 billion in annual research and development.

It is hard to believe what this Columbus, Ohio-headquartered institution has accomplished since those humble beginnings. In fact, their innovative technologies touch most Americans on a daily basis.

Possibly the most well known of Battelle's innovations is the development of xerography, which eventually led to today's copying machines and the company Xerox. Other innovations include: armor plating for U.S. Army tanks during WWII, fuel for the first nuclear powered submarine *Nautilus*, the metal composition of most of the 52.5 million coins produced each day by the U.S. Mint, cruise control for the automotive industry, the technology that led to the compact disc, and "no-melt" chocolate.

In addition to their commercial customers, Battelle provides services to over 800 federal, state, and local government agencies concentrating on important issues from national security to transportation and space.

As Chairman of the Energy and Water Development Appropriations Subcommittee, I have the distinct pleasure of working very closely with Battelle on a number of issues. Through the annual Energy and Water Development Appropriations bill, I provide funds for the U.S. Department of Energy's National Labs. One of Battelle's primary services includes the management or co-management of the Pacific Northwest National Laboratory, Brookhaven National Laboratory, Oak Ridge National Laboratory, and the National Renewable National Laboratory. In fact, just last week, Battelle won a 10-year contract to operate the newly created Idaho National Laboratory, and congratulations are certainly in order regarding this new addition to the Battelle family.

As we look forward with great anticipation to the next 75 years of Battelle innovations, one can only dream of what may come. Battelle projects that they will concentrate on a broad range of issues in the upcoming years including: advanced healthcare, sustainable and renewable energy, clean water, and nuclear power.

Mr. Speaker, I look forward to continuing to work with Battelle on these issues, and many more, and I congratulate them on their continued success.

#### PERSONAL EXPLANATION

##### HON. JAMES R. LANGEVIN

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, November 17, 2004*

Mr. LANGEVIN. Mr. Speaker, on November 16, I was unavoidably detained during rollcall vote No. 531. Had I been present, I would have voted "yea."

#### IN MEMORY OF JOHN H.G. STUART

##### HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, November 17, 2004*

Mr. FARR. Mr. Speaker, I stand in mourning to honor my good friend John H.G. Stuart, who passed peacefully on October 23, 2004, at the age of 86. He is survived by his wife, Sheila, his son Orin, his daughter Oria, his sister Kathleen of Toronto, Canada, four grandchildren, and one great grandchild. Mr. Stuart was a great contributor to the global community, and an example of the American dream.

Mr. Stuart, who was known to one and all as Harry, was born in 1918 in County Sligo, Ireland. He and his family later moved to Dublin, where he attended engineering school, and graduated with his degree from Trinity College. He later joined the British Navy, and spent the whole of the Second World War as a naval engineer, including two tours as chief engineer. After the end of World War II, he returned home to Ireland where he met and married Sheila, his wife and lifelong love of 58 years.

In 1948, Harry joined the Calcutta Electric Supply in India. He worked with their three power plants to make sure that Calcutta had plenty of power. Then, after almost 6 years in India and many months of applications and waiting, the Stuarts were granted visas and entry into the United States. They went to San Francisco in 1954 via Hong Kong, and ended up settling in Santa Cruz a year later in 1955.

As an engineer, Harry did power work with local companies and offices such as Pacific Gas & Electric and Lockheed Martin. He was able to help build geothermal plants in Iceland, Hawaii, and southern California. Through this work, he helped the world community to use better and cleaner power.

Harry had many faces. He was an avid traveler, as anyone would know just by reading these exploits, and he loved to fish and smoke salmon. In fact, I spent many a long night with Harry, discussing his travels throughout the British Isles, his passion for the outdoors, and most of all his thoughts on the best whiskey. In short, Harry was one of "the best," a friend and companion to one and all and a beautiful human being.

Mr. Speaker, I hope that we can all stand today and honor this man. He bettered the global environment, exemplified America's true diversity and opportunity to those who want to make a life here, and gave of his time to better the lives of his fellow travelers. I will miss him deeply and extend my deepest condolences to Sheila, Orin, Oria, Kathleen and the rest of his wonderful family.

#### PAYING TRIBUTE TO NORMA ANDERSON

##### HON. SCOTT MCINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, November 17, 2004*

Mr. MCINNIS. Mr. Speaker, I would like to take this opportunity to pay tribute to Senate Majority Leader Norma Anderson and thank her for her tireless efforts serving the people of Colorado as a three-term member of the Colorado State Senate. Norma will always be remembered as a dedicated public servant and leader of her community. As she continues to serve the citizens of District 22, let it be known that she has made a great commitment to the Colorado General Assembly and the State of Colorado.

Norma began her public service career when she was elected to the Colorado State House of Representatives in 1986, and has been a champion of education, transportation, crime and tax reform issues in the General Assembly. She served as the Chair of the Education, Transportation and Energy, and Audit Committees and previously as the Vice-Chair of Long-Term Health Care Task Force,

and Higher Education Planning Committees. After serving ten years in the State House, Norma continued her service to Colorado when she was elected to the Colorado State Senate in 1998. As a State Senator, Norma currently leads her party as the Senate Majority Leader. She serves on the Finance and Legislative Audit Committees and is the former chair of the Business Affairs and Labor Committee. Norma's major accomplishments include such important laws as the School Finance Act of 1994, the Third Grade Literacy Act and the creation of the Colorado Department of Transportation.

Norma is a dedicated legislator whose leadership has been awarded with the honor of being the first woman to hold the position of Majority Leader in both the state House and state Senate. Over the course of her tenure she has been the recipient of more than sixty-five recognitions and awards including the Denver Women's Commission, the Colorado Women's Chamber Senator of the Year, and the Colorado School of Mines Medal. In addition to her service to the General Assembly, Norma is also a member of the Great Outdoors Colorado Board, the Governor's Blue Ribbon Panel on Higher Education, the American Cancer Society and several other community organizations.

Mr. Speaker, it is clear that Norma Anderson has ceaselessly dedicated her time and efforts to serving her country and the people of Colorado as a Colorado State Senator. I am honored to bring her hard work and commitment to the attention of this body of Congress and this nation today. Thank you for all your service Norma and I wish you all the best in your future endeavors.

#### ON THE IMPORTANCE OF CIVIC EDUCATION AND IN RECOGNITION OF THE MARYLAND COALITION FOR CIVIC EDUCATION

##### HON. CHRIS VAN HOLLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. VAN HOLLEN. Mr. Speaker, one of the major goals of our education system is to produce knowledgeable and informed citizens. We accomplish this, in part, through effective civic education programs in our schools—like the innovative We The People program sponsored by the Center for Civic Education.

The first annual Congressional Conference on Civic Education was held in September 2003. The event was sponsored by the Alliance for Representative Democracy and co-hosted by our four distinguished congressional leaders: Senator FRIST, Senator DASCHLE, Speaker HASTERT and Leader PELOSI. One of the very positive outcomes of the congressional conference was the establishment of state delegations that returned home with the mission to enact specific policies designed to restore the civic mission of our schools and make available programs like We the People in each of our fifty states.

In that regard, I'd like to take this opportunity to recognize Dr. Marcie Taylor-Thoma, the facilitator of the Maryland delegation, for her leadership in designing an action plan to improve civic education in our state. As a result of her efforts, the Maryland Coalition for

Civic Education, representing over 40 community leaders and organizations, has been formed; a tool kit of best practices in civic education has been developed; and Maryland's teachers will soon have access to further professional development in the area of civic education.

Moreover, I'm proud to note that these exciting developments come on top of Maryland's substantial existing commitments in the area of civic education—including our Student Service Learning requirement, our mandatory Government Civics course and our nearly finished state curriculum, which will include the teaching of civics and government from pre-K through high school.

Mr. Speaker, I want to congratulate Dr. Taylor-Thoma and the rest of her colleagues again for all of their hard work, and I look forward to the success of the Maryland Coalition for Civic Education as they participate in the second annual Congressional Conference on Civic Education on December 4–6 of this year.

#### TRIBUTE TO ARMY PV2 JUSTIN RAY YOEMANS, A MODEL OF VALOR IN SERVICE TO HIS COUNTRY

##### HON. TERRY EVERETT

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. EVERETT. Mr. Speaker, I rise to pay tribute to Army PV2 Justin Ray Yoemans of Eufaula, Alabama, who lost his life November 6 while defending our nation.

Private Yoemans was manning his gun position when his Humvee encountered a roadside bomb during a street patrol of Baghdad, Iraq. According to military accounts, Private Yoemans gave his life to protect his fellow soldiers. His was posthumously awarded a total of five military medals, including the Bronze Star and Purple Heart.

Private Yoemans, who was assigned to the Fourth Battalion, Fifth Air Defense Artillery at Fort Hood, Texas, gave the ultimate sacrifice to his country at the age of 20. His family and friends describe him as a loving son and a patriot who was proud to serve in the military.

I cannot express the proper words to console his family at the loss of their beloved son. However, I do wish to convey that America shares in your grief as we struggle together to protect our homeland from terrorism.

Private Yoemans loved life and was described by his younger sister as "a little boy inside a great man." America is fortunate to have such "great men" standing up for the cause of freedom. His valor and his sacrifice will never be forgotten.

#### A TRIBUTE TO MR. STEVE F. AIKEN

##### HON. MIKE MCINTYRE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mr. MCINTYRE. Mr. Speaker, today I want to extend my warmest thanks and my most sincere best wishes to Mr. Steve F. Aiken who is retiring after 35 years of faithful service to

the U.S. Army Corps of Engineers, Wilmington District.

Currently serving as Chief of the Programs Management Branch, Steve has had a distinguished career with the Corps of Engineers. A recipient of the Sustained Superior Performance Award and the Exceptional Performance Award several times, Steve has also received the District Humanitarian Award, the South Atlantic Division Program Management Chief of the Year award, and the Commander's Award for Civilian Service. Clearly, his record has been one of stellar performance and superb leadership. In addition, both my staff in Washington and in the Wilmington area have immensely enjoyed working with Steve and benefiting from his professional advice on some many key projects in our area. Each of them joins me in thanking you for being so accessible and informed. As the father of an Eagle Scout, I am also very grateful for his dedication and service to the Boy Scouts of America.

When I think of Steve's commitment to the public good, the words "spirit, sacrifice, and service" come to mind. Steve's positive spirit has always been to do the task at hand—a spirit that inspires others to achieve. Steve's sacrifice in time and commitment has been to make southeastern North Carolina a better place to live and work—a sacrifice that meant doing the right thing and not being concerned with who gets the credit.

Pearl S. Buck once said, "To serve is beautiful, but only if it is done with joy and a whole heart and free mind." There is no question that his years of service have been the epitome of this statement. Service to others has been the embodiment of his life—service that sets a path for others to follow and that we all should emulate.

As he enters this next stage of life, I am confident that his talents and energy will continue to be of benefit to many. Through his commitment to family and community, a shining gem he will continue to be.

Bart Giamatti, the former president of Yale University, said it well in 1987, "Be mindful of what we share and must share; not the least of which is that each of our hopes for a full and decent life depends upon others hoping the same and all of us sustaining each other's hopes . . . If there is no striving for the good life for any of us, there cannot be a good life for any of us."

On behalf of the citizens of the Seventh Congressional District of North Carolina, thanks to Steve so much for the good life he has given to so many. Now, may he enjoy the same, and may God's strength, peace and joy be with him always.

#### IN RECOGNITION OF GREECE'S OUTSTANDING PERFORMANCE IN HOSTING THE 2004 SUMMER OLYMPICS

##### HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 2004

Mrs. MALONEY. Mr. Speaker, I rise to pay tribute to Greece for its outstanding performance as host of the 2004 Olympic Games. As Co-Chair of the Congressional Caucus on Hellenic Issues and as the House Member privileged to represent Astoria, Queens, one of the
