

The senseless crime of genocide is one of the most reprehensible acts that can be committed by man. To attempt eradication of an entire population based on a misguided prejudice is absolutely vile, and the United States should do everything in its power to try and prevent such atrocities from happening in the future. Only by explicitly defining genocide and ensuring that all cases of genocide throughout history are appropriately identified can we effectively deter this crime. Particularly at this time of heightened vigilance around the world, it is absolutely imperative that America take a strong stance against the most troubling of all terrorist acts, mass killings.

We can not forget Adolph Hitler's haunting remark to his military staff prior to launching the Holocaust: "who, after all, remembers the annihilation of the Armenians." Let us stand up as a country and let the world know that we do remember.

HONORING KENDALL JUERS OF
GIRL SCOUT TROOP 555

HON. LANE EVANS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 28, 2004

Mr. EVANS. Mr. Speaker, today I would like to salute an outstanding young woman who has been honored with the Girl Scouts of the USA Gold Award by Girl Scouts—Kickapoo Council in Peoria, Illinois. She is Kendall Juers of Girl Scout Troop 555.

Kendall is being honored on May 2, 2004 for earning the highest achievement award in U.S. Girl Scouting. The Girl Scout Gold Award symbolizes outstanding accomplishments in the areas of leadership, community service, career planning, and personal development. The Girl Scout Gold Award can be earned by girls ages 14–17 or in grades 9–12.

Girl Scouts of the USA, an organization serving over 2.6 million girls, has awarded more than 20,000 Girl Scout Gold Awards to Senior Girl Scouts since the inception of the program in 1980. To receive the award, a Girl Scout must fulfill five requirements: earn four interest project patches, earn the Career Exploration Pin, earn the Senior Girl Scout Leadership Award, earn the Senior Girl Scout Challenge, and design and implement a Girl Scout Gold project. A plan for fulfilling the requirements of the award is created by the Senior Girl Scout and is carried out through close cooperation between the girl and an adult Girl Scout volunteer.

As a member of the Girl Scouts—Kickapoo Council, Kendall began working toward the Girl Scout Gold Award in September 2000. For her project, Kendall refurbished the Glen Oak Primary School library. Her efforts consisted of organizing new and slightly used books that were donated into the existing library. She also made bags that the children could use to carry home checked out library books. Kendall is currently a freshman at Illinois Central College.

The earning of the Girl Scout Gold Award is a major accomplishment for Kendall and I believe she should receive the public recognition due her for this significant service to her community and her country.

ANOTHER EXAMPLE OF
OUTRAGEOUS DRUG PRICING

HON. DOUG BEREUTER

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 28, 2004

Mr. BEREUTER. Mr. Speaker, this Member wishes to submit, for the CONGRESSIONAL RECORD, an editorial from the Omaha World Herald, which questions the skyrocketing cost of Norvir, an essential antiretroviral drug prescribed to AIDS patients. According to the editorial, the drug previously cost \$1,500 annually, on average. The cost has now risen to approximately \$7,800 per year—which is a 420 percent increase! Yet, Europeans are paying a fraction of this price for the very same drug.

While this Member believes pharmaceutical manufacturers should be able to recoup the costs of researching, developing, and marketing pharmaceutical products, American consumers should not be forced to pay the world's highest prices for the medicines they need.

Norvir has raked in more than \$1 billion dollars for Abbott Laboratories since its debut in 1996. Apparently, such profit is not enough, as the company has quintupled the price of the medication. This is just one example of how the pharmaceutical industry is working to line its pockets with dollars from hard-working Americans.

Government officials and consumers cannot allow the pharmaceutical industry to continue to charge Americans such egregious prices for medical treatments, especially when most drugs, like Norvir, are researched and developed with assistance from the National Institutes of Health (NIH). As taxpayers, we deserve and demand much better.

IF NOT NOW, WHEN?

When Abbott Laboratories quintupled the price of its vital AIDS drug, Norvir, it didn't upset merely the patients whose health depend on their daily meds. The action also set off activists already demanding drug reimportation from Canada and other countries.

Norvir is a key ingredient in the drug "cocktail" that helps AIDS patients keep their disease under control. The drug previously costs \$1,500 a year, on average. That has risen to about \$7,800 a year—in the United States. Europeans pay a tenth of that; Belgians, for instance, spend the equivalent of \$720 a year.

Abbott can't raise its drug prices overseas because nearly all other governments control pharmaceutical prices. Not only does the U.S. government not generally cap drug prices (nor are we saying it should), but Congress specifically forbade federal agencies from negotiating drug prices in the recently passed Medicare drug-benefit bill.

Even more outrageous: Norvir was developed with federal money.

Work on the drug began in 1988 with a grant from the National Institutes of Health to Abbott's AIDS drug research program. The former head of that effort called the federal money "critical" in the drug's rapid development. Norvir debuted in 1996 as only the second protease inhibitor on the market. It has earned more than \$1 billion since then for Abbott.

And the company expresses its thank-you by quintupling the cost of the drug. It's reason? Well, company spokesmen said, patients

are using smaller doses of Norvir and the price increase is needed to make up lost revenue. And, of course, there is the overseas price-cap "problem."

The federal government needn't be helpless in the face of such gall.

In the boilerplate wording that companies agree to when they accept NIH money, it says that the government can require "reasonable" prices for drugs developed with federal grants.

The clause isn't often invoked. But if not now, when?

PAYING TRIBUTE TO THE ROYAL
COLLEGE OF PHYSICIANS AND
SURGEONS

HON. MIKE ROGERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 28, 2004

Mr. ROGERS of Michigan. Mr. Speaker, I rise today to celebrate the 20th anniversary of the Royal College of Physicians and Surgeons of the United States. The Royal College was created in 1984 and is located in Detroit, Michigan. Today, the Royal College of Physicians provides invaluable publications and continuing education to physicians across the globe.

The Royal College of Physicians and Surgeons, is truly an international organization. With locations in Canada, England, Ireland, Australia, and South Africa. The Royal College of Physicians and Surgeons is committed to providing better health care around the world through their commitment to the science of medicine and surgery. This commitment has led the Royal College of Physicians and Surgeons to be one of the most highly respected Royal Colleges in the World.

Mr. Speaker, I am proud to say the hard work and dedication of the Royal College takes place in my home State of Michigan. I ask my colleagues to join me in recognizing the tremendous work of the Royal College of Physicians and Surgeons and to join me in celebrating their 20 years of service.

HONORING DR. GEORGE WILLIAMS

HON. TIMOTHY H. BISHOP

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 28, 2004

Mr. BISHOP of New York. Mr. Speaker, I rise in honor of Dr. George Williams, a distinguished faculty member emeritus at Stony Brook University on the occasion of a symposium celebrating his work. Dr. William an acclaimed scientist and internationally renowned evolutionary biologist.

Dr. Williams arrived at Stony Brook University in 1960, before the school existed in its current form. His expertise and accomplishments were critical in building the reputation of the school, now one of the premier research institutions in our country. Dr. Williams legacy has greatly benefited the thousands of students and faculty that have passed through Stony Brook since his arrival.

Dr. Williams was elected to the U.S. National Academy of Sciences in 1993. In 1999, he shared the distinguished Crafoord Prize of

the Royal Swedish Academy of Sciences with Ernst Mayr and John Maynard Smith for his seminal contributions to evolutionary biology. At that time, the Royal Institute noted that Dr. Williams was one of the first to establish that adaptations generally come through the process of natural selection, favoring those in a population possessing such characteristics that they have more offspring than others. The Academy noted his contribution toward the concept that adaptations arise "for the good of the species," a linchpin of the theory of evolution that Darwin had not fully developed.

The significance of Dr. Williams' career is evident in the extraordinary list of scholars and speakers gathered for the symposium in his honor. I am pleased to have the opportunity to express my appreciation for the outstanding contribution he has made to Long Island and to the advancement of scientific thought.

I offer Dr. Williams my warmest congratulations and wish him continued success in his worthy endeavors.

HONORING LESLIE CARTER OF GIRL SCOUT TROOP 47

HON. LANE EVANS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 28, 2004

Mr. EVANS. Mr. Speaker, today I would like to salute an outstanding young woman who has been honored with the Girl Scouts of the USA Gold Award by Girl Scouts—Kickapoo Council in Peoria, Illinois. She is Leslie Carter of Girl Scout Troop 47.

Leslie is being honored on May 2, 2004 for earning the highest achievement award in U.S. Girl Scouting. The Girl Scout Gold Award symbolizes outstanding accomplishments in the areas of leadership, community service, career planning, and personal development. The Girl Scout Gold Award can be earned by girls ages 14–17 or in grades 9–12.

Girl Scouts of the USA, an organization serving over 2.6 million girls, has awarded more than 20,000 Girl Scout Gold Awards to Senior Girl Scouts since the inception of the program in 1980. To receive the award, a Girl Scout must fulfill five requirements: earn four interest project patches, earn the Career Exploration Pin, earn the Senior Girl Scout Leadership Award, earn the Senior Girl Scout Challenge, and design and implement a Girl Scout Gold project. A plan for fulfilling the requirements of the award is created by the Senior Girl Scout and is carried out through close cooperation between the girl and an adult Girl Scout volunteer.

As a member of the Girl Scouts—Kickapoo Council, Leslie began working toward the Girl Scout Gold Award in September 2000. For her project she was a personalized student aide for a girl with special needs during the summer school term. She planned lessons and activities that helped the girl improve her socialization skills and enabled her to be receptive to her lessons, try new skills, and improve her abilities. She is currently a freshman at the University of Illinois.

The earning of the Girl Scout Gold Award is a major accomplishment for Leslie and I believe she should receive the public recognition due her for this significant service to her community and her country.

TRIBUTE TO HENRY AND RUTH MORGENTHAU

HON. MICHAEL E. CAPUANO

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 28, 2004

Mr. CAPUANO. Mr. Speaker, I rise to praise two of my most illustrious constituents, Henry Morgenthau III and Ruth S. Morgenthau. Harvard Hillel will honor them this weekend, on Sunday, May 2, with its Tribute to Excellence. Henry and Ruth Morgenthau are distinguished citizens of the 8th Congressional District, Massachusetts, and of our nation. They can be said, truly, to be also citizens of the world. They are cosmopolitan in the best sense, their knowledge and compassion embracing several continents.

Ruth Morgenthau is Adlai Stevenson Professor of International Politics emerita at Brandeis University and Founding Director of its graduate program in sustainable development. She wrote an award-winning book on the politics of francophone Africa and became an early, persuasive advocate of micro-finance and micro-enterprise as development strategies. She organized Food Corps International to provide low cost, low-tech assistance to rural populations in Africa, Asia, and Latin America. She serves now as Chair of the Board of Directors of PACT, an NGO that supports capacity building community projects in twenty countries. PACT is remarkable too, and here one sees Ruth Morgenthau's leadership, for its work in educating and empowering women.

Henry Morgenthau III, the son and grandson of eminent public servants, has been a pioneer in public television. He early sensed the role it could play in our civic life, and he used it to deepen our understanding of ourselves as a people. He served as Executive Producer of Prospects for Mankind, the program that Eleanor Roosevelt hosted during the last three years of her life, interviewing, among others, Ralph Bunche, John Kenneth Galbraith, Adlai Stevenson, and, at Henry's urging, a young Senator from Massachusetts, John Kennedy. In the spring of 1963, he produced, for Boston's WGBH, an important series on The Negro and the American Promise, featuring interviews with Dr. Kenneth Clark, Martin Luther King, Malcolm X, and James Baldwin. He has won many awards, including the Peabody, Emmy, UPI, EFLA, and Flaherty Film Festival Awards.

Both Henry and Ruth Morgenthau achieved significant and enduring professional triumphs. But they were never too busy to help a friend, shelter a refugee, or further a good cause. Their house on Highland Street in Cambridge commemorates decades of public service. There are pictures of Henry Morgenthau, Wilson's ambassador to Turkey, who pleaded for the Armenians; Henry Morgenthau II who helped President Roosevelt shape the New Deal and defeat the Axis; family photos with Eleanor Roosevelt and other world leaders. Mrs. Roosevelt was a dear friend to them both and stood by the chupa at their wedding. Every year, on October 11, they celebrate her birthday, with a party, verging on a rally, that never fails to inspire all present.

Today, I want, above all, to thank Ruth and Henry Morgenthau for their tireless efforts to make the world free and safe. They have kept

hope alive and encouraged us all to carry on the struggle.

RECOGNIZE AND HONOR WELDON VOLUNTEER FIRE COMPANY #3 ON ONE HUNDRED YEARS OF SERVICE

HON. JOSEPH M. HOFFEL

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 28, 2004

Mr. HOFFEL. Mr. Speaker, I rise today to recognize and honor Weldon Volunteer Fire Company #3 on its one hundred years of service to Glenside, Pennsylvania and the surrounding areas.

The fire company was established in 1904. Originally, it owned a single horse-drawn hose reel, which it had to house on a community member's property. From its difficult beginning, the company has expanded and moved into its current building, which provides space for its growing number of members and fire rescue vehicles. This expansion has allowed the company to serve over 55,000 people in Abington Township, including my family.

The Weldon Fire Company holds strong values of volunteerism and community involvement. In my experiences with the company, I have seen its dedication to its past and present members and to the community. These basic principles will allow the company to prosper in the years to come. I thank the company and its volunteer members for their service to Abington Township. Again, I congratulate Weldon Volunteer Fire Company #3 on its 100th anniversary.

IN CONTINUED SUPPORT OF THE REPUBLIC OF CYPRUS

HON. ROBERT E. ANDREWS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 28, 2004

Mr. ANDREWS. Mr. Speaker, I rise today to voice my continued support for the Republic of Cyprus, and to urge the Administration and the international community to continue working towards an agreeable solution to the division of the island.

While it is certainly disappointing that the UN brokered negotiations on reunification were not successful, it is important that the responsibility for this lack of success not be placed squarely on one party. It was determined by the Greek-Cypriot community that the final version of the Annan plan was not an acceptable solution to the division of the island, and they therefore chose to reject the plan through the democratic process. The Greek-Cypriots have made it clear that while they did have objections to the plan that was presented through the referendum, they are still very much in favor of reunification. Given the expressed willingness of both sides to work towards an agreeable solution to the division of the island, it would be a mistake for the international community to abandon these efforts.

The final version of the Annan plan, which was brought before both Cypriot communities for a referendum, was not in the best interest
