SECTION 1. SHORT TITLE.

This Act may be cited as the "Upper Connecticut River Partnership Act".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) the upper Connecticut River watershed in the States of New Hampshire and Vermont is a scenic region of historic villages located in a working landscape of farms, forests, and the mountainous headwaters and broad fertile floodplains of New England's longest river, the Connecticut River;

(2) the River provides outstanding fish and wildlife habitat, recreation, and hydropower generation for the New England region;

(3) the upper Connecticut River watershed has been recognized by Congress as part of the Silvio O. Conte National Fish and Wildlife Refuge, established by the Silvio O. Conte National Fish and Wildlife Refuge Act (16 U.S.C. 668dd note; Public Law 102-212);

(4) the demonstrated interest in stewardship of the River by the citizens living in the watershed led to the Presidential designation of the River as 1 of 14 American Heritage Rivers on July 30, 1998;

(5) the River is home to the bistate Connecticut River Scenic Byway, which will foster heritage tourism in the region;

(6) each of the legislatures of the States of Vermont and New Hampshire has established a commission for the Connecticut River watershed, and the 2 commissions, known col-

lectively as the "Connecticut River Joint Commissions"—

(A) have worked together since 1989; and
(B) serve as the focal point for cooperation between Federal agencies, States, communities, and citizens;

(7) in 1997, as directed by the legislatures, the Connecticut River Joint Commissions, with the substantial involvement of 5 bistate local river subcommittees appointed to represent riverfront towns, produced the 6-volume Connecticut River Corridor Management Plan, to be used as a blueprint in educating agencies, communities, and the public in how to be good neighbors to a great river;

(8) this year, by Joint Legislative Resolution, the legislatures have requested that Congress provide for continuation of cooperative partnerships and support for the Connecticut River Joint Commissions from the New England Federal Partners for Natural Resources, a consortium of Federal agencies, in carrying out recommendations of the Connecticut River Corridor Management Plan;

(9) this Act effectuates certain recommendations of the Connecticut River Corridor Management Plan that are most appropriately directed by the States through the Connecticut River Joint Commissions, with assistance from the National Park Service and United States Fish and Wildlife Service; and

(10) where implementation of those recommendations involves partnership with local communities and organizations, support for the partnership should be provided by the Secretary.

(b) PURPOSE.—The purpose of this Act is to authorize the Secretary to provide to the States of New Hampshire and Vermont (including communities in those States), through the Connecticut River Joint Commissions, technical and financial assistance for management of the River.

SEC. 3. DEFINITIONS.

(c) COST-SHARING.—

(1) FEDERAL SHARE.—The Federal share of the cost of carrying out a grant project under subsection (a) shall not exceed 75 percent.

Whereas Albert Einstein is a widely recognized scientific figure who contributed enormously to the development of physics, beginning in 1905 with Einstein's groundbreaking papers on the photoelectric effect, the size of molecules, Brownian motion, and the theory of relativity that led to Einstein's most famous equation, $E = mc^2$;

Whereas 2005 will be the 100th anniversary of the publication of those groundbreaking papers;

Whereas the General Assembly of the International Union of Pure and Applied Physics unanimously approved the proposition designating 2005 as the World Year of Physics; and

Whereas the Department of Energy is the leading source of Federal support for academic physics research, accounting for a majority of Federal funding for physics: Now, therefore, be it
