SEC. 2006. SENSE OF THE SENATE REGARDING WTO AGRICULTURE NEGOTIATIONS.

It is the sense of the Senate that—

(1) the goals of the United States in the Doha Round of the World Trade Organization agriculture negotiations are to achieve significantly increased market access, harmonize allowed levels of trade-distorting domestic support for all countries, and achieve a more level playing field for United States farmers, ranchers, and agricultural producers;

(2) the proposed modalities framework recently released by the Chairman of the World Trade Organization Agriculture Negotiations Committee fails to meet the goals described in paragraph (1) because—

(A) the framework accepts the European formulation of equal percentage reductions from unequal levels of support that locks in place the

European Union's current advantage on trade-distorting domestic support levels;

(B) while the framework recognizes that high tariff levels should be reduced more quickly, it nevertheless fails to sufficiently open export markets for United States products by allowing countries to maintain prohibitively high tariffs;

(C) while the framework eliminates trade-distorting export subsidies, it phases out the elimination of export subsidies over too long a period of time;

(D) the framework contains a potentially unlimited tariff reduction loophole that would disadvantage United States agricultural products exported to developing countries, and would also limit trade between developing countries; and

(E) the framework preserves trade-distorting direct payments under production-limiting programs that are not subject to commitments to reduce domestic support under the Agreement on Agriculture annexed to the World Trade Organization Agreement (as described in section 101(d) of the Uruguay Round Agreements Act; and

(3) the United States should not agree to the proposed framework unless and until it is significantly improved and will result in significantly greater market access and harmonization of allowed levels of trade-distorting domestic support, and achieve a more level playing field for United States farmers, ranchers, and agricultural producers.
