#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BOND (for himself and Ms. MIKULSKI):

S. 2269. A bill to improve environmental enforcement and security; to the Committee on Environment and Public Works.

Mr. BOND. Mr. President, I am delighted to join with my friend and colleague Senator MIKULSKI to introduce today the Environmental Enforcement and Security Act (EESA) of 2004. This bill will increase substantially enforcement of our Nation's environmental laws, increase environmentally related homeland security, and further protect our Nation's water supply from terrorist attack.

Our families and environment deserve communities free from intentional violators of environmental laws and terrorists who would attack our drinking water supplies.

With this dramatic new commitment to environmental enforcement and drinking water security, we will tell those who would intentionally harm us that we are coming after them.

The environment and health of our communities need vigorous prosecution of intentional violations of our Nation's environmental laws. The U.S. Environmental Protection Agency (EPA) Criminal Enforcement program investigates the most significant and egregious violators of environmental laws that pose a significant threat to human health and the environment. However, the number of EPA Criminal Enforcement Special Agents has remained constant for the last several years.

In addition, in our post-9/11 world, EPA Special Agents are needed for homeland security duties to detect, investigate and respond to terrorist threats involving chemical or biological hazards.

EPA Special Agents support the Department of Homeland Security, Federal Bureau of Investigation and the Department of Justice. EPA Special Agents are members of FBI Counter-Terrorism Response Teams and Evidence Response Teams.

However, with this new post-9/11 need to respond to the threat of terrorism, some are concerned that environmental violations may not be receiving the attention they deserve. A recent report by the EPA Inspector General, an internal review by the EPA Enforcement and Compliance Assurance program, and various media accounts tell how EPA needs more resources to meet both its environmental and homeland security duties.

Our bill responds to these calls with a dramatic new commitment to EPA's enforcement program. My bill will put 50 new EPA Criminal Enforcement Special Agents on the environmental beat. EESA will also provide for 80 Special Agents to support homeland security duties.

With our bill, we will no longer need to make a choice between protecting our homeland and protecting our environment.

With our bill, those who would intentionally hurt our families and communities through environmental harm will know that we are sending the manpower and resources needed to come after them.

We are also sending local communities new funding to protect our drinking water supplies. Every family and every business needs clean and safe drinking water. Every mother needs to know that when she turns on the tap in her kitchen sink, clean and safe water will come out.

That is why our bill devotes \$100 million for additional drinking water security protections. EESA will send grant funds directly to water systems to protect against terrorist attack with fencing, intruder detection, access control and water monitoring. The need is great, but the federal government will attempt to do its share.
