STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. GRASSLEY:

S. 2048. A bill to amend the Internal Revenue Code of 1986 to make permanent the deduction for qualified tuition and related expenses and to repeal the sunset of the Economic Growth and Tax Relief Reconciliation Act of 2001 with respect to such deduction; to the Committee on Finance.

By Mr. GRASSLEY:

S. 2050. A bill to repeal the sunset of the Economic Growth and Tax Relief Reconciliation Act of 2001 with respect to the affordable education provisions of such Act, and for other purposes; to the Committee on Finance.

Mr. GRASSLEY. Mr. President, I am introducing two education tax bills today. These bills will help us make permanent the \$30 billion in education tax incentives that were contained in the 2001 tax bill.

The first bill will extend and make permanent the tuition deduction that was enacted in the Economic Growth and Tax Relief Reconciliation Act of 2001, Public Law 107-16, or EGTRRA. A lot of people think we don't spend enough money on education, but they also don't think we should make the 2001 tax cuts permanent. I don't know how they can justify that position. The education tax incentives in the 2001 tax bill have done a whole lot of good. The tuition tax deduction is available only through December 31, 2005. The cost of the provision for those four years was about \$10 billion. So you can see that it was very expensive.

For parents struggling to send their children to college, the tuition tax deduction has been very important. Some of them probably wish it were set at a higher level, but at between \$2,000 and \$4,000 depending on your income, it is still a beneficial tax incentive for the middle class.

The second bill that I am introducing today will make the rest of the EGTRRA education tax provisions permanent, as well as the deduction for teacher classroom materials that was passed in the stimulus package of March 2002. That provision expired at the end of last year so it is very important that we enact it on a permanent basis and do so as soon as practicable.

I hope my colleagues will join me in sponsoring these bills and will agree to consider them and pass them in the Senate in the next month or two.

Mr. President, I ask unanimous consent that the text of the bills be printed in the RECORD.

There being no objection, the bills were ordered to be printed in the RECORD, as follows:

By Mr. SPECTER:

S. 2049. A bill to amend the Surface Mining Control and Reclamation Act of 1977 to reauthorize collection of reclamation fees, revise the abandoned mine reclamation program, promote re-mining, authorize the Office of Surface Mining to collect the black lung excise tax, and make sundry other changes; to the Committee on Energy and Natural Resources.

Mr. SPECTER. Mr. President, today I will introduce legislation which is entitled the Abandoned Mine Land Reclamation Program Extension and Reform Act of 2004. As I have explained briefly before, I do so because this program is going to be unveiled tomorrow at a ceremony in the Pennsylvania State Capitol attended by Secretary of the Interior Norton in addition to Governor Rendell and a number of other officials. While I would like to be present in Pennsylvania for the event, the Senate will be in session and there is important business to be conducted here. So in my absence there, I thought it appropriate to introduce this bill. I had planned to do so tomorrow, but there is a joint session of Congress in the morning and I am advised there may not be

morning business. So I am taking just a few moments of floor time to introduce the bill now.

The Bush administration has already announced the outline of the bill so I am not in any way preempting the administration by the introduction of this legislation. As I noted earlier, the administration had made this legislation available to me for introduction in conjunction with others in the Pennsylvania delegation, and I am pleased to do so because it will address a very serious problem for my State.

By far, Pennsylvania has the most extensive problem of any of the States in the Union, where we have some 250,000 acres which are in need of reclamation. Some 2,400 miles of streams are affected on our water supply because Pennsylvania has been so heavily mined. Shortly after I came to the Senate in the early 1980s, a little town in Pennsylvania named Centralia received national and international attention when a young man fell into a deep pit and a fire was burning there. It was a fire which resulted from an abandoned mine. For those, if any, who may be watching on C-SPAN, these fires rage underground burning unmined coal. This fire was raging. A large hole enveloped and the young man fell many feet below the surface of the terrain. Fortunately, he was rescued.

It was necessary to move the entire town at a very substantial cost borne in significant measure by the Federal Government, not entirely because homeowners could not fully recoup the losses of their houses. This bill will provide some \$3 billion to take care of health and safety. It will be a reauthorization to the year 2018 on an authorization bill which is set to expire in September of this year. There will be a phase-out of payments ramped down until the year 2018 when it is projected that the problem will be solved. This bill will improve the flexibility for the States where they can make a choice of their projects and make a decision based on where they need to go on water quality.

It is obviously a very important matter for the environment, and environmental protection is a high priority in our country. I am pleased to see President Bush and his administration move ahead on this important item. It takes care of all of the smaller States with a minimum allocation of some \$2 million. There is some assistance for the Combined Benefit Fund, which has been established for the benefit of the retired mine workers, where the health and benefit plans had been abrogated. We had legislation introduced and enacted several years ago, led by the Senator from West Virginia, Mr. ROCKEFELLER, in conjunction with Senator BYRD, which I cosponsored, and we tried to provide for the retirement health benefits for the mine workers. This bill will make an allocation which will be helpful in that regard. It will not entirely satisfy the matter.

As I noted, this is President Bush's top priority in the Interior section of

his budget. Secretary of the Interior Norton will tour some mines in Pennsylvania. Again, I express my regrets not being able to be with her and the Governor when the event will be held in the rotunda of the State Capitol at 11 o'clock tomorrow. Burt we intend to have a news conference here in Washington simultaneously with her announcement there.

Mr. SPECTER. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

“(b) ALLOCATION OF FUNDS AFTER SEPTEMBER 30, 2004.—

An allocation shall be made to each State and tribe that is eligible to receive a payment under section 401(d)(2)(C) of this Act and to each State and tribe that—

“(ii) is not certified under section 411 of this Act; and

“(iii) has within its jurisdiction unreclaimed lands or waters that are eligible pursuant to section 404 and that meet one of the priorities stated in paragraphs (1) and (2) of subsection (a) of this section; *Provided*, That, when all States and Indian tribes have completed or provided for completion of reclamation of all lands and waters meeting the priorities in paragraphs (1) and (2) of subsection (a) of this section, this criterion will no longer apply.

“(C) The amount dedicated by section 401(d)(2)(B) of this Act to each State or Indian tribe that is not certified under section 411 of this Act shall be reduced by the amount allocated to that State or tribe under this paragraph.

“(D) Amounts allocated to States and Indian tribes under this paragraph may be used to fund projects that protect, repair, replace, construct, or enhance facilities relating to water supply, including water distribution facilities and treatment plants, to replace water supplies adversely affected by coal mining practices. In making funding decisions on these projects, the State or tribe need not consider the priorities in subsection (a) of this section. If the adverse effect on water supplies occurred both prior to and after August 3, 1977 (or other applicable date under section 404), section 404 shall not be construed to prohibit a State or Indian tribe from using funds under this paragraph if the State or Indian tribe determines that such adverse effects occurred predominately prior to August 3, 1977 (or other applicable date under section 404).

“(2) FEDERAL EXPENDITURES.—To the extent authorized by annual appropriations, the Secretary may expend monies from the fund for any of the following purposes—

“(C) meeting the objectives of the fund set forth in paragraph (a) of this section for eligible lands and waters pursuant to section 404 of this Act in States and on Indian lands where the State or Indian tribe does not have an approved abandoned mine reclamation program pursuant to section 405 of this Act;

“(D) the administration of this title of this Act by the Secretary;

“(E) making supplemental grants to States and Indian tribes for the purposes of this title of this Act;

“(F) implementation of section 401(c)(6) of this Act; and

“(G) conducting other activities consistent with this title of this Act.”;

(E) in subsection (c), redesignating the first sentence as paragraph (1), the second and third sentences as paragraph (2), the fourth sentence as paragraph (3), and the last sentence as paragraph (4); and

(F) striking “section 411(a)” in paragraph (c)(1) and inserting in its place “section 411”.

(15) Section 404 is amended to read as follows:

“SEC. 404. ELIGIBLE LANDS AND WATERS.

“(a) IN GENERAL.—

“(1) Lands and waters eligible for reclamation or drainage abatement expenditures under this title of this Act are those which were mined for coal, or which were affected by such mining, waste banks, coal processing, or other coal mining processes, and abandoned or left in an inadequate reclamation status prior to August 3, 1977, and for which there is no continuing reclamation responsibility under State or other Federal laws. For other provisions relating to lands and waters eligible for such expenditures, see subsections (b) and (c) of this section and sections 402(g)(1), 403(b)(1), and 409 of this Act.

“(2) Surface coal mining operations on lands eligible for remining shall not affect the eligibility of such lands for reclamation and restoration under this title of this Act after the release of the bond or deposit for any such operation as provided under section 519 of this Act. In the event the bond or deposit for a surface coal mining operation on lands eligible for remining is forfeited, funds available under this title of this Act may be used if the amount of such bond or deposit is not sufficient to provide for adequate reclamation or abatement. If conditions warrant, the Secretary, State or Indian tribe shall immediately exercise the appropriate authority under section 410 of this Act.

“(b) INITIAL PROGRAM SITES AND BOND FORFEITURE SITES WITH INSOLVENT SURETIES.—

(1) Sites of surface coal mining operations conducted after August 3, 1977, and lands and waters affected by such operations are also eligible for reclamation or drainage abatement expenditures under this title of this Act if they were left in an inadequate reclamation status and if the Secretary or the State, with the concurrence of the Secretary, makes either of the following findings:

“(A) A finding that the surface coal mining operation occurred during the period beginning on August 3, 1977, and ending on or be-

fore the effective date of the State regulatory program approved by the Secretary pursuant to section 503 of this Act for the State in which the site is located, and that any funds for reclamation or abatement which are available pursuant to a bond or other form of financial guarantee or from any other source are not sufficient to provide for adequate reclamation or abatement at the site.
