

genetic inheritance is an important risk factor, with between 10 and 35 percent of children with AD/HD having a first-degree relative with past or present AD/HD, and with approximately 50 percent of parents who had AD/HD having a child with the disorder;

Whereas despite the serious consequences that can manifest in the family and life experiences of an individual with AD/HD, studies indicate that less than 85 percent of adults with the disorder are diagnosed and less than half of children and adults with the disorder are receiving treatment;

Whereas poor and minority communities are particularly underserved by AD/HD resources;

Whereas the Surgeon General, the American Medical Association (AMA), the American Psychiatric Association, the American Academy of Child and Adolescent Psychiatry (AACAP), the American Psychological Association, the American Academy of Pediatrics (AAP), the Centers for Disease Control and Prevention (CDC), and the National Institute of Mental Health, among others, recognize the need for proper diagnosis, education, and treatment of AD/HD;

Whereas the lack of public knowledge and understanding of the disorder play a significant role in the overwhelming numbers of undiagnosed and untreated cases of AD/HD, and the dissemination of inaccurate, misleading information contributes to the obstacles preventing diagnosis and treatment of the disorder;

Whereas lack of knowledge, combined with the issue of stigma associated with AD/HD, has a particularly detrimental effect on the diagnosis and treatment of AD/HD;

Whereas there is a need to educate health care professionals, employers, and educators about the disorder and a need for well-trained mental health professionals capable of conducting proper diagnosis and treatment activities; and

Whereas studies by the National Institute of Mental Health and others consistently reveal that through proper and comprehensive diagnosis and treatment, the symptoms of AD/HD can be substantially decreased and quality of life for the individual can be improved: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates September 7, 2004, as “National Attention Deficit Disorder Awareness Day”;

(2) recognizes Attention Deficit/Hyperactivity Disorder (AD/HD) as a major public health concern;

(3) encourages all people of the United States to find out more about AD/HD and its supporting mental health services, and to seek the appropriate treatment and support, if necessary;

(4) expresses the sense of the Senate that the Federal Government has a responsibility to—

(A) endeavor to raise public awareness about AD/HD; and

(B) continue to consider ways to improve access to, and the quality of, mental health services dedicated to the purpose of improving the quality of life for children and adults with AD/HD; and

(5) requests that the President issue a proclamation calling on Federal, State and local administrators and the people of the United States to observe the day with appropriate programs and activities.

## TEXT OF AMENDMENTS

### PREVIOUSLY SUBMITTED

SA 3230. Ms. COLLINS (for herself, Mr. BAYH, Mr. ROBERTS, Mr. REED, Mr. DORGAN, and Mr. BIDEN) submitted an amendment intended to be proposed by her to the bill S. 2400, to authorize appropriations for fiscal year 2005 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Services, and for other purposes; which was ordered to lie on the table; as follows:

### SEC. 313. ENERGY SAVINGS PERFORMANCE CONTRACTS.

(a) CONTRACTS AUTHORIZED.—The Secretary of Defense may enter into an energy savings performance contract under this section for the sole purpose of achieving energy savings and benefits ancillary to that purpose. The Secretary may incur obligations under the contract to finance energy conservation measures so long as guaranteed savings exceed the debt service requirements.

#### (b) TERMS AND CONDITIONS.—

(1) CONTRACT PERIOD.—Notwithstanding any other provision of law, an energy savings performance contract may be for a period of up to 25 years beginning on the date on which the first payment is made by the Secretary pursuant to the contract. The contract need not include funding of cancellation charges (if any) before cancellation, if—

(A) the contract was awarded in a competitive manner, using procedures and methods established under this section;

(B) the Secretary determines that funds are available and adequate for payment of the costs of the contract for the first fiscal year;

(C) the contract is governed by part 17.1 of the Federal Acquisition Regulation; and

(D) if the contract contains a clause setting forth a cancellation ceiling in excess of \$10,000,000, the Secretary provides notice to Congress of the proposed contract and the proposed cancellation ceiling at least 30 days before the award of the contract.

(2) COSTS AND SAVINGS.—An energy savings performance contract shall require the contractor to incur the costs of implementing energy savings measures, including at least the cost (if any) incurred in making energy audits, acquiring and installing equipment, and training personnel, in exchange for a share of any energy savings directly resulting from implementation of such measures during the term of the contract.

(3) OTHER TERMS AND CONDITIONS.—An energy savings performance contract shall require an annual energy audit and specify the terms and conditions of any Government payments and performance guarantees. Any such performance guarantee shall provide that either the Government or the contractor is responsible for maintenance and repair services for any energy related equipment, including computer software systems.

(c) LIMITATION ON ANNUAL CONTRACT PAYMENTS.—Aggregate annual payments by the Secretary to a contractor for energy, operations, and maintenance under an energy savings performance contract may not exceed the amount that the Department of Defense would have paid for energy, operations, and maintenance in the absence of the contract (as estimated through the procedures developed pursuant to this section) during term of the contract. The contract shall provide for a guarantee of savings to the Department, and shall establish payment schedules reflecting such guarantee, taking into account any capital costs under the contract.

(d) RULEMAKING.—Not later than 90 days after the date of the enactment of this Act, the Secretary, with the concurrence of the Federal Acquisition Regulatory Council, shall issue final rules to establish the procedures and methods for use by the Department of Defense to select, monitor, and terminate energy savings performance contracts in accordance with laws governing Federal procurement that will achieve the intent of this section in a cost-effective manner. In developing such procedures and methods, the Secretary, with the concurrence of the Federal Acquisition Regulatory Council, shall determine which existing regulations are inconsistent with the intent of this sec-

tion and shall formulate substitute regulations consistent with laws governing Federal procurement.

(e) IMPLEMENTATION PROCEDURES AND METHODS.—The procedures and methods established by rule under subsection (d) shall—

(1) provide for the calculation of energy savings based on sound engineering and financial practices;

(2) allow the Secretary to request statements of qualifications, which shall, at a minimum, include prior experience and capabilities of contractors to perform the proposed types of energy savings services and financial and performance information from firms engaged in providing energy savings services;

(3) allow the Secretary to presume that a contractor meets the requirements of paragraph (2) if the contractor either—

(A) has carried out contracts with a value of at least \$1,000,000,000 with the Federal Government over the previous 10 years; or

(B) is listed by a Federal agency pursuant to section 801(b)(2) of the National Energy Policy Act (42 U.S.C. 8287(b)(2));

(4) allow the Secretary to, from the statements received, designate and prepare a list, with an update at least annually, of those firms that are qualified to provide energy savings services;

(5) allow the Secretary to select firms from such list to conduct discussions concerning a particular proposed energy savings project, including requesting a technical and price proposal from such selected firms for such project;

(6) allow the Secretary to select from such firms the most qualified firm to provide energy savings services based on technical and price proposals and any other relevant information;

(7) allow the Secretary to permit receipt of unsolicited proposals for energy savings performance contracting services from a firm that the Department of Defense has determined is qualified to provide such services under the procedures established pursuant to subsection (d) and require facility managers to place a notice in the Commerce Business Daily announcing they have received such a proposal and invite other similarly qualified firms to submit competing proposals;

(8) allow the Secretary to enter into an energy savings performance contract with a firm qualified under paragraph (7), consistent with the procedures and methods established pursuant to subsection (d); and

(9) allow a firm not designated as qualified to provide energy savings services under paragraph (4) to request a review of such decision to be conducted in accordance with procedures, substantially equivalent to procedures established under section 759(f) of title 40, United States Code, to be developed by the board of contract appeals of the General Services Administration.

(f) TRANSITION RULE FOR CERTAIN ENERGY SAVINGS PERFORMANCE CONTRACTS.—In the case of any energy savings performance contract entered into by the Secretary, or the Secretary of Energy, before October 1, 2003, for services to be provided at Department of Defense facilities, the Secretary may issue additional task orders pursuant to such contract and may make whatever contract modifications the parties to such contract agree are necessary to conform to the provisions of this section.

(g) PILOT PROGRAM FOR NONBUILDING APPLICATIONS.—

(1) IN GENERAL.—The Secretary may carry out a pilot program to enter into up to 10 energy savings performance contracts for the purpose of achieving energy savings, secondary savings, and benefits incidental to those purposes, in nonbuilding applications.
