

SECTION 1. STUDY AUTHORIZATION.

(a) **AUTHORIZATION.**—Pursuant to reclamation laws, the Secretary of the Interior, through the Bureau of Reclamation, and in consultation and cooperation with the Arch Hurley Conservancy District and the State Engineer in New Mexico, is authorized to conduct a study to determine the feasibility of implementing a water conservation project that will minimize water losses from the irrigation conveyance works of the Arch Hurley Conservancy District, and to consider—

(1) options for utilizing any saved water made available from the conservation project including the possible conveyance of such water, in accordance with State law, to the Pecos River basin to address water supply issues in that basin;

(2) the impacts that the conservation project could have on the local water supply in and around the Arch Hurley Conservancy District and any appropriate mitigation that may be necessary if the project is implemented; and

(3) appropriate cost-sharing options for implementation of the project based on the use and possible allocation of any conserved water.

(b) REPORT.

(1) Upon completion of the feasibility study authorized by this Act, the Secretary of the Interior shall transmit to Congress a report containing the results of the study.

(2) In developing the report, the Secretary shall utilize reports or any other relevant information supplied by the Arch Hurley Conservancy District or the State Engineer in New Mexico.

SEC. 2. AUTHORIZATION OF APPROPRIATIONS.

(a) **AMOUNT.**—There are authorized to be appropriated \$500,000 \$2,500,000 to carry out this Act.

(b) COST SHARE.

(1) The Federal share of the costs of the feasibility study shall not exceed 50 percent of the total, except that the Secretary of the Interior is authorized to waive or limit the required non-Federal cost share for the feasibility study if the Secretary determines, based upon a demonstration of financial hardship on the part of the Arch-Hurley Conservancy District, that the District is unable to contribute such required share.

(2) The Secretary of the Interior may accept as part of the non-Federal cost share the contribution of such in-kind services by the Arch Hurley Conservancy District as the Secretary determines will contribute substantially toward the conduct and completion of the study.

The committee amendment was agreed to.

The bill (S. 1071), as amended, was read the third time and passed.

MANHATTAN PROJECT NATIONAL HISTORICAL PARK STUDY ACT

The Senate proceeded to consider the bill (S. 1687) to direct the Secretary of the Interior to conduct a study on the preservation and interpretation of the historic sites of the Manhattan Project for potential inclusion in the National Park System, which had been reported from the Committee on Energy and Natural Resources, with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

(Strike the part shown in black brackets and insert the part shown in italic.)

S. 1687

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

[This Act may be cited as the “Manhattan Project National Historical Park Study Act of 2003”.

SEC. 2. FINDINGS.

[Congress finds that—

(1) the Manhattan Project, the World War II effort to develop and construct the world’s first atomic bomb, represents an extraordinary era of American and world history that—

(A) included remarkable achievements in science and engineering made possible by in-

novative partnerships among Federal agencies, universities, and private industries; and

(B) culminated in a transformation of the global society by ushering in the atomic age;

(2) the Manhattan Project was an unprecedented \$2,200,000,000, 3-year, top-secret effort that employed approximately 130,000 men and women at its peak;

(3) the Manhattan Project sites contain historic resources that are crucial for the interpretation of the Manhattan Project, including facilities in—

(A) Oak Ridge, Tennessee (where the first uranium enrichment facilities and pilot-scale nuclear reactor were built);

(B) Hanford, Washington (where the first large-scale reactor for producing plutonium was built);

(C) Los Alamos, New Mexico (where the atomic bombs were designed and built); and

(D) Trinity Site, New Mexico (where the explosion of the first nuclear device took place);

(4) the Secretary of the Interior has recognized the national significance in American history of Manhattan Project facilities in the study area by—

(A) designating the Los Alamos Scientific Laboratory in the State of New Mexico as a National Historic Landmark in 1965 and adding the Laboratory to the National Register of Historic Places in 1966;

(B) designating the Trinity Site on the White Sands Missile Range in the State of New Mexico as a National Historic Landmark in 1965 and adding the Site to the National Register of Historic Places in 1966;

(C) designating the X-10 Graphite Reactor at the Oak Ridge National Laboratory in the State of Tennessee as a National Historic Landmark in 1965 and adding the Reactor to the National Register of Historic Places in 1966;

(D) adding the Oak Ridge Historic District to the National Register of Historic Places in 1991;

(E) adding the B Reactor at the Hanford Site in the State of Washington to the National Register of Historic Places in 1992; and

(F) by adding the Oak Ridge Turnpike, Bear Creek Road, and Bethel Valley Road Checking Stations in the State of Tennessee to the National Register of Historic Places in 1992;

(5) the Hanford Site has been nominated by the Richland Operations Office of the Department of Energy and the Washington State Historic Preservation Office for addition to the National Register of Historic Places;

(6) a panel of experts convened by the Advisory Council on Historic Preservation in 2001 reported that the development and use of the atomic bomb during World War II has been called “the single most significant event of the 20th century” and recommended that various sites be formally established “as a collective unit administered for preservation, commemoration, and public interpretation in cooperation with the National Park Service”;

(7) the Advisory Council on Historic Preservation reported in 2001 that the preservation and interpretation of the historic sites of the Manhattan Project offer significant value as destinations for domestic and international tourists; and

(8) preservation and interpretation of the Manhattan Project historic sites are necessary for present and future generations to fully appreciate the extraordinary undertaking and complex consequences of the Manhattan Project.

SEC. 3. DEFINITIONS.

[In this Act:

(1) SECRETARY.—The term “Secretary” means the Secretary of the Interior.
