

GENERAL SERVICES ADMINISTRATION MODERNIZATION ACT

SPEECH OF

HON. TOM DAVIS

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 23, 2005

Mr. TOM DAVIS of Virginia. Mr. Speaker, H.R. 2066, the General Services Administration Modernization Act, was introduced by myself and Armed Services Chairman Hunter last month and approved by the Committee on Government Reform by unanimous consent on May 5, 2005.

The legislation would authorize a much needed reorganization and streamlining of the General Services Administration, the federal agency charged with leveraging the federal government's buying power to purchase commercial goods and services for the federal government at the best value possible in order to maximize the use of taxpayer funds.

This legislation has been under consideration in the Government Reform Committee for a number of years and has been the subject of multiple legislative and oversight hearings. It was also included in the President's budget proposal for fiscal year 2006.

Mr. Speaker, each year GSA buys products and services from the private sector worth well over \$30 billion and resells them to federal agencies through two different Services. The Federal Technology Service uses the Information Technology Fund to purchase information technology, and the Federal Supply Service uses the General Supply Fund to purchase commercial goods and services.

This bifurcated system may have made sense when the IT fund was created two decades ago, when information technology was in its infancy. Today, however, laptop computers, cell phones, and e-mail are as ubiquitous as desks and phones. The business case for a separate system to handle IT goods and services no longer exists. In fact, the bifurcated system has become a barrier to coordinated acquisition of management services and the technology needed to support a total solution.

Since 2002, Administrator Perry has instituted and is currently carrying out an internal reorganization aimed at establishing GSA as a modern enterprise more reflective of the current market. H.R. 2066 would assist those efforts. Critical to Administrator Perry's efforts to modernize the General Services Administration is ensuring that the structural reforms are memorialized in GSA's organic legislation so that the remedies will endure.

To accomplish this, H.R. 2066 would consolidate the Federal Supply Service and the Federal Technology Service into a single entity operating out of a unified fund, providing federal agencies with a one-stop shop to acquire all of their commercial goods and services. This change in statute would provide GSA with the structure it needs to bring it in line with the current commercial market.

Specifically, the legislation would amend the Federal Property and Administrative Services Act of 1949 to create a new "Federal Acquisition Service," to be headed by a high-level Commissioner appointed by the GSA Administrator. H.R. 2066 would also provide that the new Federal Acquisition Service be supported by a newly created "Acquisition Services Fund" consisting of the assets of the old Information Technology and Supply Funds.

In addition, H.R. 2066 would authorize the GSA Administrator to appoint up to five "Regional Executives" for the Federal Acquisition Service to facilitate closer oversight and more management control over acquisition-related activities.

Finally, Mr./Madam Speaker, the General Services Administration Modernization Act would authorize retention bonuses and reemployment relief aimed at maintaining the strength and experience of the federal government's civilian acquisition workforce.

The environment in which the federal government purchases goods and services has changed dramatically in recent decades. Relinquishing the federal agency charged with purchasing goods and services for the rest of the federal government to an organizational structure that was constructed to function in a different era is a waste of taxpayer dollars. H.R. 2066 would remove the old structures that inhibit efficient federal purchases of solutions that are a mix of products, services and technology. The federal marketplace should reflect the best of the commercial marketplace: both in the products and services we buy and the way we buy them.

BUSINESS CHECKING FREEDOM ACT OF 2005

SPEECH OF

HON. MICHAEL G. OXLEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, May 23, 2005

Mr. OXLEY. Mr. Speaker, I rise in strong support of H.R. 1224, the Business Checking Freedom Act of 2005, which repeals antiquated banking laws that prohibit banks from paying interest on business checking accounts and the Federal Reserve from paying interest on funds that banks and other depository institutions are required by law to maintain at the Federal Reserve Banks.

Mr. Speaker, it may surprise some of our colleagues to know that since 1933, banks have been unable to pay interest on business checking accounts. The law was originally intended to ensure that larger banks did not use higher interest payments to lure deposits away from small, rural banks to fund stock market speculation. While at the time this law may have been wise public policy—although even that is debatable—in the year 2005 it is a relic of a financial world that no longer exists.

There is little doubt that now, with the current complex and competitive nature of the financial services industry, all depository institutions would benefit from the ability to offer business checking accounts and are more than able to manage the potential risks involved.

In fact, as the financial services industry grows more competitive and more complex, antiquated laws that limit the competitive capacities of financial institutions only harm the customer's ability to find appropriate financial solutions. Repealing the ban on interest on business checking accounts will free banks to compete for business customers on a level playing field, and promote the development of bank products and services geared toward a small business clientele that is ill-served by the current prohibition.

In addition to providing small businesses with much-needed regulatory relief, H.R. 1224 would authorize the payment of interest on certain reserves that depository institutions are required to maintain at the Federal Reserve. Current law prohibits such payments, thereby imposing a "hidden tax" on depository institutions and placing them at a competitive disadvantage relative to non-bank financial firms and foreign banks that are not subject to the same reserve requirements. If, under the Federal Reserve Act, banks, thrifts, and credit unions are required to hold funds against transaction accounts, simple fairness dictates that the Federal Reserve should be required to pay interest on those reserve balances. Federal Reserve Chairman Alan Greenspan has testified on numerous occasions that repealing the current prohibition would have the additional benefit of facilitating the Federal Reserve's management of U.S. monetary policy.

The bill also contains a hard fought compromise by Mr. GILLMOR of Ohio and Mr. FRANK of Massachusetts that addresses the authority of industrial loan companies (ILCs) to offer interest-bearing accounts to their business customers. The provision specifies that an ILC which obtained deposit insurance prior to October 1, 2003, is authorized to pay interest on a business account, provided the ILC is owned by the same parent company that owned it as of that date. Other ILCs could also offer such interest-bearing accounts, provided that at least 85 percent of the gross revenues of their parent company and other affiliates were derived from activities that were financial in nature or incidental to a financial activity during at least three of the prior four calendar quarters.

Mr. Speaker, legislation substantially similar to H.R. 1224 has been approved by this body on several prior occasions, including twice in the last Congress. The Bush administration has previously endorsed authorizing banks to pay interest on business checking accounts. In addition, H.R. 1224 is strongly supported by all segments of the small business community, including the National Federation of Independent Business and the U.S. Chamber of

Commerce, and by America's Community Bankers.

I want to conclude by thanking two valued Members of the Financial Services Committee, the gentlelady from New York, Mrs. KELLY and Mr. GILLMOR from Ohio, who have worked tirelessly over several Congresses to advance this legislation, as well as our Ranking Minority Member, Mr. FRANK, who has contributed greatly to this legislation and has been strongly supportive of the overall effort on this bill.

Mr. Speaker, I urge all of my colleagues to vote in favor of H.R. 1224.
