

established new levels of cooperation and teamwork between his program office and the numerous contractors involved in his programs. He embodies the highest tenants of Acquisition Reform and the Army's innovative Rapid Fielding Initiative.

RECOGNIZING SOMERSET COUNTY
AS "AMERICA'S COUNTY"

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 21, 2005

Mr. SHUSTER. Mr. Speaker, I rise today to recognize Somerset County which has received the honorary title of "America's County." This title, given to the county, recognizes its people whose hard work and determination made Somerset County the extraordinary place it is today.

To many Americans, Somerset County is known as the site of the United Airlines Flight 93 crash during the tragic terrorist attacks of September 11, 2001. Despite these sorrowful events, the people of Somerset have been looking into the future with enduring hope and pride. It is their patriotic determination to achieve American greatness that we commemorate today. It is their heroic determination that made Somerset County the "America's County," the source of inspiration and hope to millions of Americans.

The people of this great county are viewed as having traditional values and a strong vision of the future. Because of their hard work, Somerset County is taking pride in its schools and its emergency providers; it is taking pride in its agriculture, in its recreation, and in its industry. Somerset County is a great place to live, work, and visit, not only because it is blessed with an abundance of natural resources and breathtaking beauty, but most importantly because it is blessed with dedicated and courageous people.

For decades now the people of Somerset County have been working together to accomplish common goals for the future, while respecting the history and heritage of the past. Always welcoming to visitors, always loyal to their friends, these people make Somerset County a shining example of American greatness. Today their hard work and determination are deservedly recognized, and I rise to honor Somerset County, as it will always be known as a little piece of Heaven on Earth, as the "America's County."

INTRODUCING THE SEXUAL PREDATOR EFFECTIVE MONITORING ACT OF 2005

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 21, 2005

Mr. HASTINGS of Florida. Mr. Speaker, I rise today to introduce the Sexual Predator Effective Monitoring Act of 2005. I am pleased to introduce this bill with Florida's senior Senator BILL NELSON, and I pledge my full commitment to helping communities throughout the country take the necessary steps to protect the vulnerable from sexual predators.

A recent report done by my hometown newspaper, The South Florida Sun-Sentinel, discovered that more registered sex offenders live in a zip code located completely in my district than any other zip code in Florida. The fact that no one living in the area knew the magnitude of the problem until the story was written is beyond troubling; it's absolutely scary.

In 2003, the Justice Department completed a report on recidivism rates of sex offenders. The report provided some very disturbing statistics. The Department of Justice tracked 9,691 male sex offenders released from 15 state prisons, including Florida. They tracked them for a 3-year period and found that 40 percent of the sex offenders who re-offended did so within the first year, and within 3 years of their release from prison, 5.3 percent of those sex offenders were rearrested for another sex crime. Even more, half of the sex offenders tracked in this study included men who molested children, and within the first 3 years of their release from prison, 3.3 percent of these convicts were rearrested for another sex crime against a child.

Even more, there are more than 30,000 registered sex offenders in the state of Florida alone. Nationwide, there are more than 300,000 registered sex offenders, of which the victims of some 70 percent of all the men in prison for sex crimes were children.

It is these statistical realities combined with The Sun-Sentinel's report that led me to co-host a community forum with the Broward County Urban League. At that meeting, our community had an opportunity to discuss how to best protect our children from those who prey on the vulnerable. The forum provided law enforcement, civic leaders, elected officials, and community residents the opportunity to voice their concerns and chart a path toward making our neighborhoods safe from sex offenders.

The legislation which I am introducing today expresses Congressional support for the tracking of sex offenders on probation through the use of Global Positioning Systems. The Sexual Predator Effective Monitoring Act also establishes a grant program that will allow states to improve their ability to track and monitor the movement and activities of sexual predators. The bill authorizes a total of \$30 million over 2 years to assist states in accomplishing this critical task.

Mr. Speaker, I can think of no greater mechanism by which Congress can assist states in protecting children from sexual predators than to provide them with the financial assistance to develop and implement effective tracking tools to monitor these sick individuals. I ask for my colleagues' support for this legislation, and I urge its swift passage.

FOREIGN RELATIONS AUTHORIZATION ACT, FISCAL YEARS 2006 AND 2007

SPEECH OF

HON. JAMES L. OBERSTAR

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2005

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2601) to authorize

appropriations for the Department of State for fiscal years 2006 and 2007, and for other purposes:

Mr. OBERSTAR. Mr. Chairman, I take this opportunity to state my opposition to the amendment offered by Mr. ROGERS of Michigan.

The language of the amendment is based upon a misinterpretation of the precedents concerning the management and control of the Great Lakes, and section 1109 of the Water Resources Development Act of 1986, in particular.

The Great Lakes are not possessed by the 8 states that border them. The United States maintains sovereign power over the Great Lakes under its authority to regulate commerce and to control the navigable waters within its jurisdiction. As the Supreme Court specifically recognized, the United States' ultimate interest in the Great Lakes is greater than those of any state.

It is the United States, not the states, that manages the Great Lakes. For example, the Great Lakes' role as a national transportation corridor is vital to the national economy. The Great Lakes navigation system generates more than 150,000 jobs for the U.S. economy, \$4.3 billion in personal income, and \$3.4 billion in transportation-related business revenue.

The United States has sovereign power over the Great Lakes and frequently exercises this power through control of water pollution, reducing the introduction of invasive species, protecting endangered species, and exercising water management functions generally.

Mr. ROGERS's amendment misinterprets section 1109 of the Water Resources Development Act to mean that Congress ceded authority over the Great Lakes to the Governors of the Great Lakes States. Congress did not.

The legislative history of section 1109 of the Water Resources Development Act of 1986 clearly indicates that Congress was acting to protect the limited quantity of water available from the Great Lakes system for use by the Great Lakes States and to prohibit any diversion unless that diversion was approved by the Governors of all the Great Lakes States. This "veto" authority granted to the Governors of the 8 Great Lakes States was the implementation mechanism for the Federal policy, not a relinquishment of authority. Therefore, it is inconsistent with law and precedent to indicate that Congress recognizes that management authority over the Great Lakes should be vested with the Governors of the 8 Great Lakes States, and the Premiers of the Canadian provinces.

For these reasons, I state my strong belief that the amendment erroneously characterizes Congressional policy and law.

A TRIBUTE TO DR. BOISEY O. BARNES

HON. G.K. BUTTERFIELD

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 21, 2005

Mr. BUTTERFIELD. Mr. Speaker, I rise and ask my colleagues to join me in paying tribute to Dr. Boisey O. Barnes who will be honored by the Association of Black Cardiologists, Inc.

in conjunction with the National Medical Association on Friday, July 22, 2005 at the Sheraton New York Hotel. Dr. Barnes is being honored for his outstanding contributions to cardiology as an acclaimed physician, researcher, educator, humanitarian and spokesman.

Mr. Speaker, Dr. Barnes is a native of my hometown of Wilson, North Carolina. His parents were Dr. B.O. Barnes and Flossie Howard Barnes. He graduated from Charles H. Darden High School in 1960, Johnson C. Smith University in 1964, and the Howard University School of Medicine in 1968. While in high school, Dr. Barnes distinguished himself as a scholar and an outstanding quarterback on the football team.

Dr. Barnes' father practiced medicine in our hometown for many years prior to his untimely death in 1956. His patients were the poor and disadvantaged minority citizens of the county who basically could not afford health care but he provided it without reservation. One of the local elementary schools in our community is named "B.O. Barnes Elementary School." Mr. Speaker, it was this family background of public service that has laid the foundation for the great work of Dr. Barnes.

Mr. Speaker, Dr. Barnes has held a number of significant positions over the years including that of Founding Member of the Association of Black Cardiologists, Inc; developer of the Echocardiography, Laboratory at Howard University Hospital; Lead Investigator for ARIES, the first national cholesterol study in African Americans; and recipient of the Favorite Doctor in D.C. Award.

However, it is not the work for which he has already been honored that is most impressive nor is it the numerous accolades he has received from such notables as the D.C. Medical Society, Providence Hospital and President Bill Clinton. Rather it is the work that has received no recognition that makes Dr. Barnes a truly special individual.

Over the last 30 years, Dr. Barnes has acted as a dedicated servant to one of our nation's most disadvantaged communities. As the only Board Certified Cardiologist in Anacostia, Dr. Barnes has devoted his career, his talents and his long list of credentials to fighting the number one killer in our nation, heart disease. Over three decades, Dr. Barnes has stood for dedication, service and compassion in an environment that rarely affords either.

For his steadfast work through adversity and breakthrough accomplishments in the field of cardiology, I call upon my colleagues to join me today in rising to honor this truly great man and praise not simply his individual deeds but the body of his work. Dr. Barnes is a remarkable physician and a credit to his field; I thank him for his service, and thank his lovely wife of decades, Bernadine and their two precious daughters, Tamera and Bridget, for sharing Dr. Barnes with us.

RECOGNIZING THE 100TH ANNIVERSARY OF GM POWERTRAIN FLINT NORTH

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 21, 2005

Mr. KILDEE. Mr. Speaker, I am very pleased to rise before you today to ask my

colleagues in the 109th Congress to join me in celebrating a milestone happening in my hometown of Flint, Michigan. On Thursday, July 21, civic and community leaders will join General Motors and the United Auto Workers to commemorate the 100th anniversary of GM's Powertrain Flint North plant.

Originally a tract of farmland owned by the Durant-Dort Carriage Company, William Crapo Durant and J. Dallas Dort used the site to create a network of factories with the intention of maintaining all aspects of carriage production in close proximity. This network was the basis on which General Motors was formed. On September 4, 1905, a construction contract was signed for the creation of Buick Factory 1, and the company broke ground on November 1 that same year. Other factories followed, including the Weston-Mott Axle Factory and the Imperial Wheel Building, among many others that added to the history of General Motors, and the City of Flint.

The Buick site, where my father worked, became one of America's greatest contributors during both World Wars, producing many engines and parts used by the United States and the Allied Forces. Following World War II, the site experienced a period of growth and prosperity, with the development of new onsite foundries and factories, as well as several administrative and support buildings. The site was also home to Buick City, a multi-million dollar manufacturing project that garnered international attention. Today, under the name of GM Powertrain Flint North, the site remains home to four factories, five support buildings, a Cultural and Diversity Center, and the dedicated men and women of UAW Local 599, which has represented its members for 66 years.

Mr. Speaker, Flint, Michigan is still known to many as "Buick City." This name signifies the level of pride GM employees, UAW members, and Flint residents have in the Buick name, their product, and the community in which they have invested much of their lives. I have a personal reason to be proud of Powertrain Flint North's centennial; my father was a founding member of Local 599, joining the UAW in the 1930's. From my own family's experience, I know the impact the site's presence has made in the quality of life for many Flint households. As the Member of Congress representing the City of Flint, home of Powertrain Flint North and as the proud owner of a Buick LeSabre, I again ask my colleagues to join me in congratulating General Motors and the UAW.

HONORING ARTHUR A. FLETCHER

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 21, 2005

Ms. LEE. Mr. Speaker, Mr. WATT, CBC chairman, and I rise today to honor the extraordinary life and achievements of Arthur A. Fletcher of Washington, DC. Known for his lifelong commitment to advancing civil rights and increasing educational and professional opportunity for African Americans and other minorities, Mr. Fletcher was a true pioneer in the movement for racial and socioeconomic equality in America. He passed away at his home in Washington on July 12, 2005 at the age of 80.

Mr. Fletcher was born in Phoenix, Arizona in 1924, but grew up in California, Oklahoma, Arizona and Kansas due to his father's career in the military. While attending high school in Junction City, Kansas, he organized his first civil rights protest after being told that African American student photographs would only be included in the back of the yearbook. Remaining in Kansas for college, he attended Washburn University in Topeka, earning degrees in political science and sociology, and later went on to earn a law degree and a Ph.D. in education.

Mr. Fletcher served in World War II under General George Patton, earning a purple heart after being shot while fighting with his Army tanker division. He went on to become a professional football player in 1950, joining the Los Angeles Rams and later the Baltimore Colts, where he was one of the team's first African American players.

Mr. Fletcher entered politics in 1954, working first on Fred Hall's gubernatorial campaign in Kansas, and later taking a post working for the Kansas Highway Commission. Central to his work in that position and in subsequent ones was his determination to use his knowledge of government contracts to encourage African Americans to bid on contracts and grow their businesses.

Mr. Fletcher lived in the San Francisco Bay Area during the late 1960s and later moved to Washington, where he served as a special assistant to the governor and was the first black candidate to run for lieutenant governor or any statewide office. In 1969, President Nixon appointed him assistant secretary of wage and labor standards in the Department of Labor. There he became best known for devising the "Philadelphia plan," which set and enforced equal opportunity employment standards for companies with federal contracts and their labor unions.

Given Congresswoman LEE's history as a small business owner, we can personal attest to the positive impact of Mr. Fletcher's work to extend federal contracting opportunities to African Americans has had on the minority business community. As a federal contractor in the SBA 8A program in the 1980s, Congresswoman LEE was able to directly benefit from his vision and foresight with regard to getting minorities involved in business, as have countless others.

In 1972, Mr. Fletcher became the Executive Director of the United Negro College Fund, where he fought to extend equal educational opportunity to African Americans, and coined the slogan "a mind is a terrible thing to waste." Known as "the father of affirmative action," he was later asked to serve on the U.S. Commission on Civil Rights under Presidents Ford, Reagan and Bush as a commissioner, and later as chairman, until 1993. Prompted by a series of attacks on longstanding affirmative action policies in the mid-1990s, Mr. Fletcher ran for president in 1996, and later became president and CEO of Fletcher's Learning Systems and publisher of USA Tomorrow/The Fletcher Letter, Mr. Fletcher served as a delegate to the United Nations and as the chairman of the National Black Chamber of Commerce, and spent a great deal of time speaking at venues across the country on the benefits of affirmative action and equal opportunity.

Many have benefited from the affirmative action policies and Mr. Fletcher's unyielding
