

last December. The ladies created a bond of true camaraderie and won several intense games. They out hustled, outmaneuvered and outplayed their toughest competition. The only thing that outshined their play was their sportsmanship and respect for the game. They are a true inspiration to soccer players nationwide.

Mr. Speaker, I would like to commend Jason Neidell, Wendi Whitman, and Mara Schanfield for their work in coaching the team to the Gold Medal. They provided leadership and guidance and an invaluable service to these ladies and the youth soccer movement. I would also like to honor Jamie Hacker, Allyson Gordon, and Genna Brand, who were selected as Captains of the team. May all of the ladies success in this program help them fully realize their potential for productive, successful lives, and I wish these girls all the best in their future endeavors.

The following are the members of the United States Junior Girls' Gold Medal winners at the 2005 Maccabi World Games:

Sarah Berger, Genna Brand, Allyson Gordon, Amanda Gurin, Jamie Hacker, Lizzie Haldane, Kasey Hirsty, Kayli Hirsty, Lindsay Jaffe, Carly Knue, Allison Kurtz, Samantha Kurtz, Rebecca Rostowsky, Zoe Sarnak, Alexandra Schwach, Dena Shleifer, Morani Stelmach, Rachael Sushner, Julie Kaufman, Sofia Vallone.

Head Coach—Jason Neidell, Assistant Coaches—Wendi Whitman and Mara Schanfield.

RECOGNIZING SPACE SHUTTLE
COMMANDER EILEEN COLLINS,
MISSION SPECIALIST WENDY
LAWRENCE, AND THE CONTRIBUTIONS
OF ALL OTHER WOMEN
WHO HAVE WORKED WITH NASA

SPEECH OF

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 20, 2005

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today as a proud cosponsor of H. Res. 450 which recognizes Space Shuttle Commander Eileen Collins, Mission Specialist Wendy Lawrence, and the contributions of all other women who have worked with NASA following the successful mission of Space Shuttle *Discovery* on STS-114. Let me offer my own personal congratulations to these women who have not only advanced the cause of aeronautics through their work, but also they have advanced the cause of women through their determination.

Let me take a moment to recognize Commander Eileen Collins who successfully returned NASA to flight. LTC Eileen Marie Collins was born in Elmira, New York on November 19, 1956. As a child, Eileen dreamed about space and of becoming a pilot. Her parents often took her to the airport to watch the planes take off and land. The Collins family wanted Eileen to attend college, but did not have the money to send her. After high school, she attended Corning Community College. While there, she studied hard to earn a two-year scholarship to Syracuse University. In 1978 Eileen Collins graduated with a bachelor of arts degree in mathematics and eco-

nomics from Syracuse University. Later, she went on to earn a master of science degree in operations research from Stanford University and a master of arts degree in space systems management from Webster University.

In 1979, LTC Collins graduated from Air Force Undergraduate Pilot Training at Vance Air Force Base. In 1990, while attending the Air Force Test Pilot School, she was selected for the astronaut program. Eileen Collins became an astronaut in July 1991 and the first woman to pilot the Space Shuttle on February 2, 1995. She made history once again in 1999. On July 23 LTC Collins became the first woman to command a Space Shuttle mission. Eileen Collins is also a wife and mother, but on top of all these titles and distinctions, she is an inspiration for many women throughout the world.

I also want to take a moment to recognize CAPT Wendy B. Lawrence who served as a mission specialist on the Space Shuttle *Discovery*. CAPT Lawrence is a native of Jacksonville and has flown on four missions to space. Lawrence graduated from the U.S. Naval Academy in 1981 with a degree in Ocean Engineering. She went on to earn a master of science degree in Ocean Engineering from M.I.T. in 1988. Her mission aboard *Discovery* was to transfer payloads back and forth from the International Space Station using the robotic arm. She's made history, too. She was one of the first two female helicopter pilots to make a long deployment to the Indian Ocean as part of a carrier battle group while stationed at Helicopter Combat Support Squadron Six. Clearly, she made history again when the Shuttle *Discovery* returned NASA to flight.

Both these women deserve great recognition for their work aboard the Shuttle *Discovery* and their lifetime of service to our Nation. Truly, many women from Sally Ride to Mae Jemison have made great strides to get to this day when a woman can command a space shuttle. To paraphrase a historic statement once made from the moon: 'This is one small step for women and one giant leap for womenkind.'

HONORING WILLIAM F.
RICHARDSON

HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 21, 2005

Mr. GERLACH. Mr. Speaker, I rise today to honor William F. Richardson on the occasion of his retirement after many years of distinguished service as the Executive Director of the Berks County Action Program in Pennsylvania.

As Executive Director of the Economic Opportunity Council and the Berks County Action Program (BCAP), Mr. Richardson has actively fought to mobilize the human and financial resources to combat poverty in the City of Reading and the County of Berks. Under Mr. Richardson's leadership, BCAP has initiated, coordinated, and implemented numerous social programs to fight against poverty. This organization is well known for its ability to stimulate activities within their local communities and for the services it continually provides for the low-income, financially distressed, and disadvan-

tagged citizens in the area. These invaluable services include job training, counseling, vocational rehabilitation, housing, parenting classes, home management, child care classes, and substance abuse prevention.

In attempt to make a difference in the lives of the poor in his community, Mr. Richardson entered into community service as the assistant to former Mayor Victor Yarnell from 1968 to 1969. He then made the decision to leave City Hall and take a position as the assistant director for community liaison for the Reading Redevelopment Authority in 1969. In 1979, Mr. Richardson resigned from the Authority and came to his current position as the Executive Director of the Economic Opportunity Council.

Throughout the past 35 years, Mr. Richardson further proved his commitment to helping the less fortunate by participating as an active member of his community, serving on numerous boards, including those of the Reading Parking Authority and the Reading-Berks Human Relations Council. Mr. Richardson is also the president of the Greater Berks Food Bank.

Mr. Speaker, I ask that my colleagues join me in honoring this extraordinary gentleman and his selfless mission to help those in need and for the invaluable service he has so diligently provided. I wish him the very best of luck in his retirement.

HONORING BARBARA JEAN BROWN

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 21, 2005

Ms. PELOSI. Mr. Speaker, I rise today to recognize and honor an extraordinary woman who dedicated her life to the service of San Francisco's most needy individuals. Barbara Jean Brown, known to those who loved her as "Mother Brown," passed away on August 9 after a year-long struggle with leukemia.

Mother Brown distinguished herself through her generous and untiring efforts feeding the poor and homeless of our city through Mother Brown's Dining Room. By offering a haven to countless individuals for more than 20 years, her spirit and kindness touched all those to whom she tended. I offer my deepest sympathy to her sons, Frederick and Jaamel; her brother, Arthur; and her sisters, Alice, Fanny, and Dennie Marie.

Mother Brown served San Francisco with dignity and love. The beginning of her public ministry consisted of parking an old, oversized Cadillac and serving hot meals out of her trunk that she had cooked in her own kitchen. Sharon Williams, the operations manager of Mother Brown's Dining Hall, said of her colleague, "She knew there was a need. She believed no one should ever go to bed hungry." Mother Brown never turned anyone away.

Her work did not go unnoticed. Government agencies, community organizations, and private corporations donated funds to allow Mother Brown to set up the Bayview Hope Homeless Resource Center and Mother Brown's Dining Room in a converted warehouse. With this new facility, Mother Brown was able to serve more people with additional resources and services. Beyond her work with the Center and Dining Room, she threw an annual Christmas party at the Bayview Opera

House for those without a home during the holidays and donated 1,200 toys to children last year alone.

Barbara Jean Brown was born in Shreveport, LA, and moved to the bay area at the age of 5. After marrying, she had three children and lived in San Francisco's Bayview district, where she headquartered her community efforts. In addition to her life of public service, she supported herself through clerical and administrative work, including a term working in advertising for San Francisco's major newspapers, the Chronicle and the Examiner.

She began her charity work partnering with her eldest son, J.J. When he died at age 34, she invested the little money he left her into what would become the Bayview Hope Homeless Resource Center. Every dollar she later received from sponsorships and gifts went directly to her projects. Mother Brown demonstrated extraordinary generosity and selflessness.

San Francisco was fortunate to have this remarkable woman in our midst. Those whom she helped, served, cared for, and inspired will sorely miss her. However, her legacy continues as she leaves behind the Bayview Hope Homeless Resource Center and Mother Brown's Dining Room to carry on the mission she started so long ago.

CHEMISTRY WEEK RESOLUTION

HON. RUSH D. HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 21, 2005

Mr. HOLT. Mr. Speaker, as we face the concern about the United States' ability to sustain its scientific and technological superiority throughout this decade and beyond, when we are losing jobs to more technologically literate nations, and when our science, technology, engineering, and mathematics education is in need of serious attention and renovation, it is important that we consider this resolution recognizing the importance of chemistry in our everyday lives, and in particular with the toys that we, or our children, grandchildren, or family members play with today. That is why today I am introducing along with Representative VERNON EHLERS a resolution recognizing the importance and positive contributions of chemistry to our everyday lives and supporting the goals and ideals of National Chemistry Week.

We have all seen the joy and wonder of children at play, and we can certainly all recall our favorite childhood toys, such as Silly Putty, the Slinky, and the Etch-a-Sketch. In fact, the astronauts on the Apollo 8 mission carried Silly Putty with them to alleviate boredom and to help fasten down tools during periods of weightlessness. Silly Putty came to us as a product of chemistry; Silly Putty is a polymer of isoprene.

BusinessWeek Online ran an article with the subtitle "Toymakers are pushing the boundaries in artificial intelligence, wireless communications, and virtual realities. And the benefits are flowing to other industries as well." The military, the medical field, gamers, chemists, and material scientists all connect to the toy industry. Chemists and material scientists have created such materials as self-healing plastics, giving toys and many other consumer goods a longer lifetime.

The curiosity that toys ignite through the "why did it do that?" and "how did that happen?" invigorate the exploration and discovery of the world around us. Many scientists and engineers turn to toys for moments of respite and of inspiration. Innovations in technology, at times can be traced back to moments with toys. That is why this year's theme of National Chemistry Week, "The Joy of Toys", is relevant. What better ways to inspire and educate the potential chemists and engineers of tomorrow but through the loved experiences of playing with toys and learning what has made all the fun possible?

Toys spark imagination, imagination fuels innovation. The celebration of chemistry, a science which is the backbone to the health of many industries including pharmaceuticals, electronics, automotive, and aerospace, through the chemistry of toys is worthy of our wholehearted support. It is in the best interest of our Nation to create both a curiosity and a desire to understand our world to fuel a technological and scientifically literate, critical thinking population to carry us forward in the 21st century.

RECOGNITION OF HON. ROBERT J. STAKER

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 21, 2005

Mr. RAHALL. Mr. Speaker, it is with great honor that I pay tribute to a devoted public servant, the Honorable Robert J. Staker. Judge Staker is retiring as Judge of the United States District Court of the Southern District of West Virginia after 26 years of service.

A long and distinguished history of accomplishment and public service marks Judge Staker's career. He served his country in the United States Navy in the 1940's. Judge Staker attended both Marshall University and West Virginia University, and received his law degree from West Virginia University College of Law in 1952. Judge Staker has committed himself to serving the people of West Virginia as a member of the legal profession.

He practiced law in Williamson, West Virginia from 1952 until 1968. He served as Judge of the Circuit Court of Mingo County from January 1969 to September 1979, when he assumed his current office as Judge of the United States District Court of the Southern District of West Virginia in Huntington. Judge Staker continued his career by becoming a Senior United States District Judge on January 1, 1965.

Judge Staker's tenure on the federal bench was one marked by common sense and common justice for all. It has been said that those who clearly recognize the voice of their own conscience, usually recognize also the voice of justice. Judge Staker's legacy on the federal court will echo the voice of justice for generations to come.

Mr. Speaker, I ask that my colleagues join me today in congratulating Judge Staker on his admirable career. It is with tremendous gratitude and appreciation for his extensive service to the community and deep love of the law that we honor his distinguished service. Together with his wife Sue Blankenship Poore, and his two sons J. Timothy Poore and Don-

ald Seth Staker, I offer to him my sincerest wishes for great success in all his future endeavors as he begins the next chapter of his life.

INTERNATIONAL DAY OF PEACE

HON. TAMMY BALDWIN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 21, 2005

Ms. BALDWIN. Mr. Speaker, I rise today to recognize the International Day of Peace, a world-wide observance of 24 hours of non-violence and global cease-fire.

The International Day of Peace was first established by the United Nations in 1981 to coincide with the opening session of the UN every September, and, in 2001, was unanimously adopted by Member States to formally recognize the day on September 21 of each year. Today, citizens across the globe will mark this occasion. I know that there are many of my constituents observing the International Day of Peace, affirming a vision of our world at peace, and fostering cooperation between individuals, organizations and nations.

I hope that individuals will take the opportunity today to consider what they can do to promote unity and cultural understanding, and help make the idea of peace not just a utopian dream, but something that humankind can achieve. I applaud the efforts of Member States, organizations of the United Nations, governmental and nongovernmental agencies, as well as civil societies and religious groups for their promotion of the International Day of Peace and the principles of peace and non-violence through education and public awareness efforts.

As Secretary General Kofi Annan stated, "24 hours is not a lot of time." Please join me in taking a few moments today to reflect on our aspirations for peace and the measures we will take to achieve them on this International Day of Peace 2005.

RECOGNIZING THE CENTRAL OREGON CROP WALK

HON. GREG WALDEN

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 21, 2005

Mr. WALDEN of Oregon. Mr. Speaker, I rise today to recognize a very special event that is taking place in the heart of the 2nd Congressional District on Sunday, September 25, 2005—the Central Oregon Crop Walk. This weekend, over 125 walkers will gather in Bend, Oregon to raise awareness and funds to fight hunger at home in Central Oregon and in nearly 80 countries around the world.

Since 1998, this gathering has become an annual event in Bend and is now in its 8th year. This Fall, walkers participating in the Central Oregon Crop Walk join Oregonians in four other communities—Baker City, Hood River, Corvallis and Grants Pass—and 1,800 Walks nationwide, to make a real difference toward ending hunger one step at a time. Money raised by walkers in Oregon and around the nation supports Church World
