RECOGNIZING THE OUTSTANDING
EFFORTS OF ABERDEEN TEST
CENTER

HON. C.A. DUTCH RUPPERSBERGER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 2, 2005

Mr. RUPPERSBERGER. Mr. Speaker, I rise before you today to commend the significant contributions of Aberdeen Test Center (ATC) located in Aberdeen, MD, for their outstanding efforts to protect American troops.

In August of 2003, the M1 tanks moving toward Baghdad were assailed by Rocket Propelled Grenades (RPG). This situation highlighted a potential vulnerability to the Abram M1 fleet of tanks.

Based on this concern, ATC was requested to provide modifications to the tanks to remedy the potential vulnerability. ATC employees developed the Slat Armor System designed to address the issue. Because of their diligence and motivation, the modifications were completed in only three days. The efficiency demonstrated by ATC enabled the vulnerability to be rectified in less than ten days.

As the initial Stryker brigade prepared to enter combat in Iraq, ATC was again contacted requesting similar modifications to the Strykers, addressing a potential vulnerability to RPGs. These modifications were designed, prototyped and tested in under 10 days for mass production and fielding. Each Stryker was outfitted with this slat armor solution prior to entering combat in Iraq.

In the course of one year the Stryker Brigade Commander reported one hundred fifteen incidents of RPG attacks on Stryker vehicles. Because of the modification to the Slat Armor System, there have been no fatalities as a result of these RPG attacks.

Mr. Speaker, please join with me to acknowledge the exceptional work Aberdeen Test Center has done on the Abram M1s and Strykers. The elite attention and enthusiasm shown in this matter has saved the lives of many soldiers fighting the War on Terror.
