Mr. Nicastro was one of twenty inductees selected by a 13-member executive committee comprised of veteran leaders from throughout Ohio. Mr. Nicastro holds the distinction as being one of the youngest Commission Combat Officers in the United States Air Force. By age 19, he had risen up the military ranks to Second Lieutenant. His assignment with the 8th Army Air Force, 303rd Heavy Bomb Group, known as the Hell's Angels, took him to the European Theater of Operations, where his exemplary service included the successful completion of 35 combat missions.

Following his service in WWII, Mr. Nicastro became an installer with the Ohio Bell Tele-

phone Company. Like his service in the military, he ascended the corporate ladder, attaining the position of Account Executive. During his tenure at Ohio Bell, Mr. Nicastro led the effort to upgrade communication systems throughout the county, including the implementation of the 911 emergency calling system. Aside from his professional career, Mr. Nicastro continues to reflect a life-long focus on service to his community. He served as a member of the Independence City Council for sixteen years, served as President of the Independence Board of Education, and has held numerous leadership positions in veterans and civic organizations. RECOGNIZING THE OUTSTANDING  
EFFORTS OF ABERDEEN TEST  
CENTER

**HON. C.A. DUTCH RUPPERSBERGER**

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 2, 2005

Mr. RUPPERSBERGER. Mr. Speaker, I rise before you today to commend the significant contributions of Aberdeen Test Center (ATC) located in Aberdeen, MD, for their outstanding efforts to protect American troops.

In August of 2003, the M1 tanks moving toward Baghdad were assailed by Rocket Propelled Grenades (RPG). This situation highlighted a potential vulnerability to the Abram M1 fleet of tanks.

Based on this concern, ATC was requested to provide modifications to the tanks to remedy the potential vulnerability. ATC employees developed the Slat Armor System designed to address the issue. Because of their diligence and motivation, the modifications were completed in only three days. The efficiency demonstrated by ATC enabled the vulnerability to be rectified in less than ten days.

As the initial Stryker brigade prepared to enter combat in Iraq, ATC was again contacted requesting similar modifications to the Strykers, addressing a potential vulnerability to RPGs. These modifications were designed, prototyped and tested in under 10 days for mass production and fielding. Each Stryker was outfitted with this slat armor solution prior to entering combat in Iraq.

In the course of one year the Stryker Brigade Commander reported one hundred fifteen incidents of RPG attacks on Stryker vehicles. Because of the modification to the Slat Armor System, there have been no fatalities as a result of these RPG attacks.

Mr. Speaker, please join with me to acknowledge the exceptional work Aberdeen Test Center has done on the Abram M1s and Strykers. The elite attention and enthusiasm shown in this matter has saved the lives of many soldiers fighting the War on Terror.

**MILITARY ORDER OF THE PURPLE HEART SUPPORTS COMPREHENSIVE ASSISTANCE FOR VETERANS EXPOSED TO TRAUMATIC STRESSORS ACT OF 2005, H.R. 1588**

**HON. LANE EVANS**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 2, 2005

Mr. EVANS. Mr. Speaker, the Military Order of the Purple Heart, whose membership is comprised entirely of combat wounded veterans, fully supports H.R. 1588, which is a comprehensive approach to addressing the mental health needs of service members exposed to combat, including those members of our Armed Forces now serving in Iraq and Afghanistan.

A recent Army survey found that about 28 percent of Iraq veterans—about 50,000 servicemembers in this year alone—returned home with problems from lingering battle wounds to toothaches, from suicidal thoughts to strained marriages. Almost 1,700 servicemembers returning from the battlefield this year had thoughts of hurting themselves or that they would be better off dead. If left undiagnosed and untreated, post-traumatic stress disorder, PTSD, can lead to suicide.

Last year, the New England Journal of Medicine published research that found 15 to 17 percent of front-line troops suffered depression, anxiety or PTSD.

As the MOPH letter states, "We have learned from past wars that the injuries to military members do not stop on the battlefield but may manifest themselves months or years afterward. America must be there to help the healing process. H.R. 1588 would accomplish this goal."

I ask that the letter from the Military Order of the Purple Heart be included in the RECORD.

**MILITARY ORDER OF THE  
PURPLE HEART,  
Springfield, VA, November 1, 2005.**

Hon. LANE EVANS,  
*Rayburn House Office Building,  
Washington, DC.*

DEAR CONGRESSMAN EVANS: On behalf of the membership of the Military Order of the Purple Heart (MOPH), whose membership is comprised entirely of combat wounded veterans, I write to pledge our unequivocal support of H.R. 1588 the "Comprehensive Assistance for Veterans Exposed to Traumatic Stressors Act of 2005".

At a time when our military men and women are engaged in the war on terrorism this act is most appropriate. We have learned from past wars that the injuries to military members do not stop on the battlefield but may manifest themselves months or years afterward. America must be there to help the healing process. H.R. 1588 would help accomplish this goal.

You may count on the MOPH in anyway possible to ensure that this legislation becomes law.

Respectfully,

JAMES D. RANDLES,  
*National Commander.*
