

CUMMINGS, BARBARA LEE, GUTIERREZ, GEORGE MILLER, WOOLSEY, LOFGREN, GONZALES, SANDERS, and LINDA SÁNCHEZ in introducing the Hate Crimes Statistics Improvement Act.

The Hate Crimes Statistics Improvement Act will ensure that hate crimes motivated by gender are accounted for by the FBI and local law enforcement agencies. With accurate data, local communities can identify gender-based hate crimes in their area and chart their progress toward eliminating them. Moreover, the inclusion of gender will send a strong message that gender-based hate crimes will not be tolerated.

In states with gender-based hate crimes laws, prosecutors typically must present concrete evidence that the criminal act was committed due to gender bias. Obviously, not all crimes against women are gender-based crimes, and prosecutors should have discretion in identifying what constitutes a gender-based hate crime. The process of discussing these differences will improve the understanding of all hate crimes by law enforcement personnel and will improve reporting of these tragic crimes.

I urge my colleagues to support this important legislation that will help reduce hate crimes against women.

#### ON THE RETIREMENT OF JOHN FIELDS STOVALL

### HON. WILLIAM M. THOMAS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, March 9, 2005*

Mr. THOMAS. Mr. Speaker, I rise today to celebrate the retirement of a distinguished constituent and good friend, John Fields Stovall. John has worked as General Counsel for the Kern County Water Agency in my district for more than sixteen years, earning the respect of his peers for his thoughtful, effective work on behalf of California water interests.

John has lived most of his life in Bakersfield, California, beginning at the age of ten. He graduated from Bakersfield High School and subsequently Bakersfield College, where he studied pre-pharmacy. John moved to the University of California at Los Angeles, where he graduated in 1970 with a Bachelor of Arts degree in Psychology.

Before beginning his career in water issues, John first worked for the Food and Drug Administration as an Investigator and received his J.D. degree, with honors, from Loyola Law School. John worked for several law firms, in-

cluding the respected Lebeau, Thelen and Lampe. While working at Lebeau, Thelen and Lampe, John met his wife, the former Jan Blocher, and began legal work on water rights issues. He took that experience with him to the Kern County Water Agency in 1989, when he joined the Agency as General Counsel.

John has successfully shepherded the Agency through many legal challenges and opportunities, including the organization of the Kern Water Bank. His work to ensure continued favorable operation of the State Water Project has helped to provide consistent water supplies for thousands of Kern County residents and farmers. It was a pleasure to work closely with John in our efforts to reauthorize the federal portion of the California Bay-Delta Program. In recent years, he studied for and successfully received his Doctorate from the highly-respected Peter F. Drucker Graduate School of Management at Claremont Graduate University.

In his personal life, John is active in the local community. He participates in the Bakersfield Chamber of Commerce's Government Review Council and the Bakersfield Breakfast Rotary Club. He supports local students as a competition judge for high school mock trial competitions, and is an active member of the Kern County Republican Party.

While John's full-time career at Kern County Water Agency is coming to an end, I am sure that he and Jan will continue to be valuable and active members of our community in Bakersfield. On behalf of Kern County residents who recognize the necessity and value of reliable water supplies, I thank John for his service and wish him and Jan the best as they begin the next stage of their lives.

INTRODUCTION OF LEGISLATION  
TO BENEFIT THE U.S. AUTO-  
MOTIVE INDUSTRY AND PRO-  
VIDE JOBS FOR WISCONSIN'S  
MANUFACTURING SECTOR

**HON. PAUL RYAN**

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, March 9, 2005*

Mr. RYAN of Wisconsin. Mr. Speaker, I rise today to introduce legislation that will benefit the U.S. automotive industry and help provide jobs for Wisconsin's manufacturing sector. Wisconsin has seen a net loss of more than 71,000 manufacturing jobs over the last five years, which is very troubling for a state with the second highest number of manufacturing employees per capita in the nation. Although the economy has improved significantly since mid-2003, many of our lost manufacturing jobs have not been recovered. Congress must continue to work to help our manufacturers remain competitive in the global marketplace.

Johnson Controls, Inc. (JCI), a Fortune 500 company headquartered in Milwaukee, Wisconsin, employs 2,500 workers in the state and thousands more throughout the country. As the world's largest producer of automotive interiors, JCI works to develop and produce seating systems, instrument panels, door systems, overhead systems, and automotive electronics. They are a leader in the production of electronic telecommunications systems for vehicles and have developed innovative voice recognition systems that are used by the major manufacturers in the U.S. automotive industry.

The microphones covered in this legislation are a key component of JCI's electronic telecommunications systems. However, they are not produced domestically and JCI must import them subject to a 4.9 percent tariff rate. By temporarily eliminating this tariff, this bill will reduce JCI's production costs and help them remain competitive against international competition. In addition, this bill will benefit U.S. automotive manufacturers who rely on JCI for their telecommunications systems, consumers who will pay reduced prices for these products, and hard-working Americans who are employed in the manufacturing industry.

I look forward to working with my colleagues in Congress to pass this legislation and help U.S. manufacturing.

IN HONOR OF TILLIE FOWLER,  
FORMER MEMBER OF CONGRESS
