

Costa County Department of Employment and Human Services.

For three decades, the Department has looked to Mr. Ward for the highest professional standards of analytical support, especially during periods of systems change.

Paul was a major force in developing the information systems necessary for the Department to succeed in its mission to move welfare participants into the workplace. His researched pick for an automated system was chosen by the Department to track the progress of participants toward independence, and he played a significant role in training Department employees to use it.

When impending welfare reform legislation prompted redesign of the benefits program, Paul became a leader for change inside and outside the Department, making presentations about the impacts of reform to fellow employees, other agencies, and local employers, and supporting critical community outreach of the Department Director.

Paul has taken on additional roles as resource to Department leadership inside and outside the organization, writing the Emergency Management Response Plan, staffing the Department Director in the Emergency Operating Center, and acting as Department liaison to other County departments, legislative advocacy associations, and university advanced degree programs.

Throughout his career, Paul has been respected and admired by those he has worked with in the Department and the community for his excellent analytical skills, voice of reason, collegial cooperation, exemplary professional demeanor—and for his dry, intelligent wit.

I thank Paul Ward for his contributions to the Contra Costa County Department of Employment and Human Services, and I wish him well in the community that he has served so well.

RECOGNIZING PETER F. BROWN

HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2005

Mr. MORAN of Virginia. Mr. Speaker, I rise today to recognize an outstanding public servant, Peter F. Brown, as he completes more than 24 years of continuous service within the civilian leadership of the Department of Defense, DoD. He began his public service life as a naval architect at the Naval Sea Systems Command, NAVSEA, and is ending it as NAVSEA's Executive Director. Throughout his career, he worked tirelessly to serve America and our Navy and Marine Corps.

Mr. Brown joined NAVSEA in 1981 as Ship Project Manager and then Branch Head for Command and Amphibious ships. In 1987, he was appointed to the Senior Executive Service and assigned as Deputy Program Manager for Amphibious and Combat Support Ships where he directed maintenance and modernization for over 175 surface ships and over 40 intermediate maintenance activities.

Over the next decade, Mr. Brown provided exceptional service to the Navy in a succession of complex and demanding assignments as NAVSEA's corporate planner, civilian manpower manager, Deputy Commander for Fleet Logistics Support, Chief Information Officer,

and Executive Director of the Logistics, Maintenance and Industrial Operations Directorate. He was instrumental in supporting the command's restructuring under the Defense Base Closure and Realignment Act and its headquarters move to the Washington Navy Yard.

In July 1998, Mr. Brown assumed his current position as the Executive Director of NAVSEA. In this role as the Command's senior civilian executive, he quickly implemented strategic changes in the Navy's largest systems command, comprised of 49,000 civilian and military personnel at 36 geographically dispersed activities with an annual budget of approximately \$20 billion. A number of these changes are being widely adopted across the Department of the Navy and DoD.

Mr. Brown was the Program Team Chair and Product Integrator for a comprehensive DoD team that recommended the creation of a National Security Personnel System, NSPS, Program Executive Office to design and implement the new civilian human resources management system. Based on his team's design, Secretary of Defense Donald Rumsfeld agreed to establish the NSPS Program Executive Office, with Mr. Brown assuming the role of interim Program Executive Officer. He was the driving force behind the successful launch of the NSPS program structure. Mr. Brown was instrumental in advancing the One Shipyard concept, which revolutionized the nation's entire ship industrial base to better meet the Navy's Fleet Response Plan requirements in response to the challenge of the Global War on Terror and the dynamic world situation.

Mr. Brown's visionary leadership included the identification of proven private sector programs and processes and their rapid deployment. His active endorsement of the Occupational Safety and Health Administration's Voluntary Protection Program, VPP, led to Portsmouth Naval Shipyard's recent designation as a STAR VPP site, the highest ranking available and the second DoD site to achieve this status and the first Navy site to do so. Mr. Brown is recognized throughout the shipbuilding industry as a leader who can be trusted and is the Navy's sole representative on the Executive Committee of the National Shipbuilding Research Program Advanced Shipbuilding Enterprise.

Mr. Brown has been an exceptional innovator of strategies to solve the most difficult challenges in personnel downsizing, work force renewal, and to reduce costs in acquisition and support of ships, submarines and systems. He provided executive leadership for several initiatives aimed at improving the efficiency and effectiveness of the Navy's five systems commands under the auspices of the Virtual System Command. He led the migration to common processes, streamlining responsibilities and systems and instituting the adoption of best practices in many key areas. Additionally, these efforts have created a single Fleet distance support solution that provides a conduit for virtually all of the technical and logistics support. These efforts collectively represent over \$6 billion in savings across the Navy over the Future Years Defense Program.

Within NAVSEA, Mr. Brown established a formal control structure for over 166 technical authority areas that are key to the engineering performance and safety of ships, systems, and the sailors who operate them. Nationally recognized individuals known for their professional expertise were assigned as the tech-

nical authorities in each area. Not only do these individuals represent the ultimate technical authority for their field of expertise, they are responsible to oversee the technical health of the Government, academia, and private sector network that supports that expertise. This approach has been recognized across the Navy for its clarity, effectiveness, and efficiency and has been adopted by other Navy systems commands.

Mr. Brown's visionary approach to challenges allows for the transformation from a "business as usual" mentality into actions that permit innovative improvements in the way the Government and its private industry partners achieve best value products and services. It is, therefore, a pleasure to recognize Mr. Peter F. Brown for his many contributions in a life devoted to our nation's security as he leaves the Department of the Navy. I know my colleagues join me in wishing he and his wife Terri much happiness and fair winds and following seas as they begin a new chapter in their lives.

HONORING SISTER CANDACE INTROCASO

HON. MELISSA A. HART

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2005

Ms. HART. Mr. Speaker, I would like to take this opportunity to honor Sister Candace Introcaso, on being named the seventh President of LaRoche College in Pittsburgh, Pennsylvania.

Sister Introcaso became the President of LaRoche College on July 1, 2004. A member of the Board of Trustees since 2001, Sister Candace takes over an institution, founded by women that believed religion held a very important place in the landscape of higher education. Sister Introcaso brings a very diverse background to her leadership role, having received a B.A. in psychology from Shippensburg University, an M.A. in sociology from Fordham University and Ph.D. in Higher Education from the Claremont Graduate University.

Her experience includes a prior position with LaRoche College from 1986–1991, where she was the Director of Grants and an Assistant to the Vice President for Student Affairs. From 1997 to 1999, Sister Candace served as the Assistant Vice President for Academic Affairs at Heritage College on the Yakima Indian Reservation in Toppenish Washington before moving on to serve as the Vice President for Academic Affairs at Barry University in Miami Shores, Florida. Sister Introcaso will be honored with an Installation Ceremony on Friday, April 8, at 2:30 p.m. on the East Campus of LaRoche College.

I ask my colleagues in the United States House of Representatives to join me in honoring Sister Candace Introcaso. It is an honor to represent the Fourth Congressional District of Pennsylvania and a pleasure to salute citizens such as Sister Introcaso, who make the communities that they live in truly special.

HONORING THE 2005 WOMEN OF VISION AWARD RECIPIENTS: ROSYLN MILSTEIN MEYER AND GLORIA STEINEM

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2005

Ms. DELAURO. Mr. Speaker, it is with great pleasure that I rise today to join Women's Health Research at Yale as they honor two outstanding women with their 2005 Women of Vision Award: Gloria Steinem and, my good friend, Roslyn Milstein Meyer. This recognition is a reflection of the contributions these women have made, locally and across the globe.

Author, advocate, and leader, Gloria Steinem has brought issues of concern to women to the forefront of national and international discussion. Her leadership and vision helped to create an atmosphere in which women became empowered and ensured that their voice was heard. Ms. Steinem is an individual who sparked debate and stimulated discussion. Whether it was through her books or her unparalleled activism—and whether or not you agreed with her views—women were encouraged and motivated to act. Hers is a legacy that will continue to inspire generations to come.

While there are many people with good hearts, there are few who combine that heart with a deep commitment to philanthropy and action. Roz Meyer is one of those special people. She captures the best spirit of what it is to be a community leader. She is the co-founder of Leadership, Education, and Athletics in Partnership (LEAP), a nationally recognized program supporting hundreds of young people throughout Connecticut, as well as New Haven's International Festival of Arts and Ideas, an annual celebration of art, culture, and tradition. The success of both of these programs would not have been possible without the support and commitment that Roz provided. Through her advocacy, leadership, and awe-inspiring generosity, she has left an indelible mark on our community.

Whether its impact is on the world or a community, women across the globe touch the lives of people every day. I am honored to stand today and join Women's Health Research at Yale in recognizing the outstanding achievements of Gloria Steinem and Roslyn Milstein Meyer. Through their many contributions, they are a reflection of the very spirit of the Women of Vision Award. I am delighted to extend my sincere congratulations and very best wishes to them on this very special occasion.

TRIBUTE TO DR. JEANNE PETREK

HON. NITA M. LOWEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2005

Mrs. LOWEY. Mr. Speaker, I rise today to pay tribute to an exceptional woman—a devoted wife, mother, physician, and researcher—Dr. Jeanne Petrek.

Dr. Petrek, born in Youngstown, Ohio, pioneered the field of surgical oncology during a

time when very few women practiced such a demanding specialty. She received her medical degree from Chase Western Reserve in Cleveland and served on the faculty of Emory University School of Medicine in Georgia before joining the staff at Memorial Sloan-Kettering Center in 1978.

As director of the surgical program at the Evelyn H. Lauder Breast Center, Dr. Petrek became a leading expert on lymphedema and pregnancy-related breast cancer. In a field where most physicians focus on survival and the ability to extend life, Dr. Petrek chose to study how to improve the quality of life for cancer survivors, particularly after treatment. She also went on to study the links between surgery and lymphedema, which ultimately led to the development of surgical procedures that spare lymph nodes.

Dr. Petrek treated more than 4,000 women during her career in a specialty in which doctors normally handle about 400 patients. She was a true patient advocate and embodied the very best of what science and the medical profession can achieve.

Mr. Speaker, please join me in honor and recognition of Dr. Jeanne Petrek whose life will be remembered as one in which her determination to make a difference through her work was only matched by her devotion to her family. Her passing is a tremendous loss to her husband, her children, her colleagues, and her community, and she will be remembered in the hearts and minds of the thousands whose lives she touched.

TRIBUTE TO HARVEY L. STOCKWELL

HON. RICHARD W. POMBO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 19, 2005

Mr. POMBO. Mr. Speaker, I rise today to call attention to the House of Representatives the life accomplishments of a dedicated man. A man who has made a difference in so many lives that he should be recognized here today.

Harvey L. Stockwell, 87, of Garden Grove, California, was a retired U.S. Army Lieutenant Colonel with combat service in World War II, Korea and Vietnam. He died Feb. 28, 2005, of pulmonary complications at St. Joseph's Hospital in Orange, California.

Brother to Warren Stockwell, Harvey Lee "Bud" Stockwell was born in Irving Park, a suburb of Chicago, Illinois, on June 10, 1917, to Archie Lee and Anna Helen Stockwell.

He graduated from the University of Illinois in 1940 with a bachelor's degree in Geology and married Mary Lenore Lamb on August 21, 1943.

When our Nation was called into a second world war, Colonel Stockwell answered the call of duty. He started military life as an enlisted soldier in the US Army Corps of Engineers and quickly advanced to the rank of Corporal. His leadership ability earned him selection to Officer Candidate School where he was commissioned a Second Lieutenant in the Army Engineers and was sent overseas to fight, where he continued to lead.

Col. Stockwell was not a tall man in physical stature. But it was the quality of his character that defined the essence of his size. In that manner, he was a giant. A line of poetry from

Emily Dickinson defines his character well: "We never know how high we are until called upon to rise, and if our plan is true to form, our statures touch the skies."

During the 40th commemoration of the landing at Normandy in 1984, President Ronald Reagan described the character of the men who fought to preserve our freedom. In his address from France, President Reagan said, "These are the champions who helped free a continent. These are the heroes who helped win the war." Col. Stockwell was a champion and a hero. He helped make it possible for our Nation's flag to continue flying in all of its glory, long may she wave.

After World War II, he left military service for the private sector in Chicago, Illinois where he then answered our Nation's call again by reentering the service and fighting in the Korean War. This time, he stayed in uniform and was one of our Nation's first military advisors to serve in Vietnam.

Col. Stockwell was an honorable man who served our Nation faithfully in an honorable profession. He retired from the Army in 1966 at the rank of Lieutenant Colonel after 25 years of active military service, and traded one form of honorable service for another when he headed up the Junior Reserve Officer Training Corps in Long Beach, California. There, for over 15 years, he instilled in thousands of students the values that have made our Nation great, values such as selfless service, loyalty and honor. He influenced generations of young people who, without his mentoring, may not have gone to college and on to successful careers in military service and professional civilian life. They never would have known how high they could reach until he called upon them to rise, and their statures touched the skies.

One of the high schools where he taught in Long Beach—Polytechnic High School—established an annual leadership award in his name to the most-deserving member of Junior ROTC there who exemplifies good leadership, military bearing and the ability to teach subordinates basic military knowledge. The recipient receives a gold medal whose name is inscribed on a perpetual plaque displayed in the unit; May 2005 will be the 21st award of the honor.

Col. Stockwell also gave his guidance and approval for a family scholarship to be established in Phoenix, Arizona. The name of the scholarship is the Stockwell Family Leadership Award and will be awarded to the most deserving graduate of Arizona Project Challenge, which graduates two classes each year. The Arizona National Guard runs Project Challenge as an alternative to high school for at-risk youth between the ages of 16 and 18. Most of the program's graduates receive their GED certificates and go on to institutions of higher learning, and this scholarship will help some deserving young people achieve their goals. Thanks to him, the statures of even more young people will reach to touch the skies. The first award of the scholarship will be made in June 2005 in his memory, and the memories of his son Robert and his brother Warren. They, too, served our Nation faithfully in uniform during times of war and peace. Their legacy of service lives.

Col. Stockwell's health began to decline about 15 years ago. It seemed the worse his health became, the taller he stood in stature. Poor leg circulation and breathing difficulties
