JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2528) making appropriations for military quality of life functions of the Department of Defense, military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2006, and for other purposes, submit the following joint statement to the House of Representatives and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The Senate amended the House bill with two amendments. The Senate amendment to the text deleted the entire House bill after the enacting clause and inserted the Senate bill. The conference agreement includes a revised bill.

The Senate amended the title of the House bill. The conference agreement adopts the title of the bill as proposed by the House.

ITEMS OF GENERAL INTEREST

Matters Addressed by Only One Committee.—The language and allocations set forth in House Report 109-95 and Senate Report 109-105 should be complied with unless specifically addressed to the contrary in the conference report and statement of the managers. Report language included by the House, which is not changed by the report of the Senate or the conference, and Senate report language, which is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly pro-

vided herein. In cases where the House or the Senate have directed the submission of a report, such report is to be submitted to both Houses of Congress.

Timely Submissions of Military Construction Reprogramming Requests.—The conferees regret that submissions of military construction reprogramming requests to Congress are often delayed. Such delays are of particular concern when projects carry bid expiration deadlines, which can lead to increased costs when those deadlines are not met. Therefore, the conferees direct the Comptroller of the Department of Defense to ensure reprogramming requests are processed expeditiously to allow Congress sufficient time to consider and act upon such requests.

Impact of Natural Disasters on Military Construction Costs.—The conferees are aware that military construction costs have increased in the United States due to reduced contractor availability and increased competition, as well as increased prices for certain materials, as a result of recent natural disasters. The conferees are additionally concerned that damage and reconstruction requirements caused by these natural disasters will seriously exacerbate this problem. Therefore, the conferees direct the Department of Defense to account for the potential increased cost to military construction projects in the fiscal year 2007 budget request. Further, the Assistant Secretary of each military department with responsibility for installations and the head of each Defense agency should certify that such costs have been taken into account upon the submission of the Administration's fiscal year 2007 military construction budget request.

Revisions to CENTCOM Master Plan.—The conferees have rescinded funds for the repair of an airfield at Karshi-Khanabad Air Base, Uzbekistan, because access to that base is no longer available to the United States. The conferees understand that revisions to the Central Command (CENTCOM) master plan, submitted to Congress in 2005, have already been made for Iraq, and the conferees believe that the loss of access rights in Uzbekistan will require further revisions to the plan. The conferees emphasize that it is the duty of CENTCOM to keep the congressional defense committees apprised of any changes to this plan and direct CENTCOM to report to the Committees on Appropriations of both Houses of Congress on changes made since its original submission no later than January 31, 2006.

Submission of Defense-Wide Military Construction Future Years Defense Plan.—The conferees clarify that Military Construction, Defense-Wide is not exempt from the Future Years Defense Program (FYDP) submission requirements of 10 U.S.C. 221. The conferees direct the Department of Defense to submit the FYDP for the Defense-Wide military construction budget with the fiscal year 2007 request.

Military Construction and Global Rebasing.—The conferees are aware that the Army spent approximately \$71,400,000 of fiscal year 2005 operation and maintenance funds on the renovation of 14 "rolling-pin" barracks at Fort Carson, Colorado, to accommodate soldiers of the 2nd Brigade, 2nd Infantry Division, which was restationed from Korea as part of the Department of Defense's Integrated Global Presence and Basing Strategy (IGPBS). The Army indicated that the expected life cycle of these renovated barracks is 15-20 years and asserted that, at a cost of approximately \$41,000 per soldier, renovated barracks are more cost-efficient than new construction, at a cost of approximately \$71,000 per soldier. The conferees note that given the Department of Defense's recapitalization goal of 67 years, the comparable cost

of the renovated barracks is likely to be much higher. The Army, however, further indicated that the overriding factor was not cost efficiency, but expediency, which raises another concern of the conferees. Costs associated with IGPBS and the modularity initiative should not be funded solely through supplemental appropriations and reprogrammings, but rather should be considered through the regular authorization and appropriations process. The conferees therefore direct the Department of Defense to integrate IGPBS, and the Army's modularity initiative, with the regular military construction program beginning with its fiscal year 2007 budget submission.

TITLE I

DEPARTMENT OF DEFENSE MILITARY CONSTRUCTION, ARMY (INCLUDING RESCISSIONS)

The conference agreement appropriates \$1,775,260,000 for Military Construction, Army, instead of \$1,652,552,000 as proposed by the House and \$1,640,641,000 as proposed by the Senate. Within this amount, the conference agreement provides \$170,021,000 for study, planning, design, architect and engineer services, and host nation support instead of \$168,804,000 as proposed by the House and \$179,343,000 as proposed by the Senate. The agreement also includes \$50,000,000 for force protection activities in Iraq as proposed by the House. The Senate bill contained no similar provision.

The conference agreement also rescinds \$3,046,000 from Public Law 107-249 and \$16,700,000 from Public Law 108-324. The conferees direct the Army to submit by March 31, 2006 a report describing how the rescissions of funds in this Act will be applied. This report shall list, by project, the amount of funds to be sourced to such rescissions.

The conference agreement does not include language proposed by the Senate to designate funding for two projects. The agreement addresses this language in the attached detail table by State. The House bill contained no similar provision.

Of the funds provided for planning and design in this account, the conferees direct that \$90,000 be made available for the planning and design of the land purchase, Main Gate, Yakima Training Center, Washington.

Of the funds provided for minor construction in this account, the conferees direct that \$1,100,000 be made available for the construction of a high explosive magazine at McAlester Army Ammunition Plant, Oklahoma.

Of the funds provided for minor construction in this account, the conferees direct that \$1,500,000 be made available for the construction of the first phase of a tactical operations center on Kwajalein Atoll, instead of dome housing as proposed by the Senate. However, the conferees continue to expect the Secretary of Defense to submit a report to the Committees on Appropriations of both Houses of Congress no later than December 1, 2005, detailing the timeline for the replacement of substandard housing on Kwajalein Atoll.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

(INCLUDING RESCISSIONS)

The conference agreement appropriates \$1,157,141,000 for Military Construction, Navy and Marine Corps, instead of \$1,109,177,000 as proposed by the House and \$1,045,882,000 as proposed by the Senate. Within this amount, the conference agreement provides \$34,893,000 for study, planning, design, architect and engineer services instead of \$36,029,000 as proposed by the House and \$32,524,000 as proposed by the Senate.

The conference agreement rescinds \$5,767,000 from Public Law 108-132. The agreement also rescinds \$44,270,000 from Public

Law 108-324, instead of \$92,354,000 as proposed by the Senate. The House bill contained no similar provision. The conferees direct the Navy to submit by March 31, 2006 a report describing how the rescissions of funds in this Act will be applied. This report shall list, by project, the amount of funds to be sourced to such rescissions.

North Island, California—Bachelor Enlisted Quarters, Homeport Ashore.—The conferees are very supportive of the Homeport Ashore program to provide unaccompanied housing for enlisted sailors when in port, and encourage the Navy to pursue this initiative as part of the bachelor enlisted quarters (BEQ) privatization pilot program. Although the conferees commend the Navy for seeking innovative solutions, including privatization, to expedite the construction of new BEQ units, they also note that the authorization, as contained in the fiscal year 2003 Defense Authorization Act, limits the Navy to three pilot projects. The North Island proposal is not among the projects earlier identified by the Navy as part of the pilot program, and is therefore not authorized under current law. Although the conferees have denied funding for the North Island project for this reason, they urge the Navy to proceed as expeditiously as possible with the projects currently authorized under the BEQ privatization pilot program so that Congress has a basis on which to evaluate the potential for expansion of the program in future years.

MILITARY CONSTRUCTION, AIR FORCE
(INCLUDING RESCISSIONS)

The conference agreement appropriates \$1,288,530,000 for Military Construction, Air Force, instead of \$1,171,338,000 as proposed by the House and \$1,209,128,000 as proposed by the Senate. Within this amount, the conference agreement provides \$95,537,000 for study, planning, design, architect and engineer services instead of \$91,733,000 as proposed by the House and \$83,626,000 as proposed by the Senate.

The conference agreement rescinds \$13,000,000 from Public Law 108-11, \$6,600,000 from Public Law 108-132, and \$9,500,000 from Public Law 108-324. The agreement also rescinds \$46,500,000 from Public Law 109-13 for the runway repair project, including associated planning and design, at Karshi-Khanabad Air Base, Uzbekistan. The conferees direct the Air Force to submit by March 31, 2006 a report describing how the rescissions of funds in this Act will be applied. This report shall list, by project, the amount of funds to be sourced to such rescissions.

The conference agreement does not include language proposed by the Senate to designate funding for two projects. The agreement addresses this language in the attached detail table by State. The House bill contained no similar provision.

MILITARY CONSTRUCTION, DEFENSE-WIDE
(INCLUDING RESCISSION AND TRANSFER OF FUNDS)

The conference agreement appropriates \$1,008,855,000 for Military Construction, Defense-Wide, instead of \$976,664,000 as proposed by the House and \$1,072,165,000 as proposed by the Senate. Within this amount, the conference agreement provides \$136,406,000 for study, planning, design, architect and engineer services instead of \$107,285,000 as proposed by the House and \$133,120,000 as proposed by the Senate.

The conference agreement also rescinds \$20,000,000 from Public Law 108-324 due to unobligated balances in contingency construction.

The conference agreement provides \$50,000,000 for the Energy Conservation Improvement Program as proposed by the House, instead of \$60,000,000 as proposed by

the Senate. The agreement does not provide funding for contingency construction due to the recurrence of carryover amounts.

The conferees direct the National Security Agency to follow standard acquisition and design-review procedures on its fiscal year 2006 projects.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The conference agreement appropriates \$523,151,000 for Military Construction, Army National Guard, instead of \$410,624,000 as proposed by the House and \$467,146,000 as proposed by the Senate.

Of the funds provided for planning and design in this account, the conferees direct that \$186,000 be made available for the planning and design of the Combined Support Maintenance Shop, Searcy, Arkansas.

Of the funds provided for minor construction in this account, the conferees direct the specified amounts be made available for the construction of the following facilities: Marana, Arizona—Fire Station, \$1,499,000; Camp Murray, Washington—Homeland Security Multi-Functional Education Center, \$1,424,000.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD
(INCLUDING RESCISSION)

The conference agreement appropriates \$316,117,000 for Military Construction, Air National Guard, instead of \$225,727,000 as proposed by the House and \$279,156,000 as proposed by the Senate. The conference agreement also rescinds \$13,700,000 from Public Law 108-324. The conferees direct the Air National Guard to submit by March 31, 2006 a report describing how the rescission of funds in this Act will be applied. This report shall list, by project, the amount of funds to be sourced to such rescission.

Of the funds provided for planning and design in this account, the conferees direct that the specified amounts be made available for the planning and design of the following facilities: New Castle County Airport, Delaware—Replacement C-130 Maintenance Hangar, \$1,440,000; Duluth IAP, Minnesota—Addition to Joint FAA/ANG Fire Station Facility, Phase 2, \$700,000; March ARB, California—Replace Aircraft Maintenance Hangar and Shops, \$960,000; Fresno Yosemite IAP, California—Replace Vehicle Maintenance Complex, \$340,000.

Of the funds provided for minor construction in this account, the conferees direct that \$1,500,000 be made available for the construction of an arm and disarm apron at the end of runway 13 at Atlantic City IAP, New Jersey.

MILITARY CONSTRUCTION, ARMY RESERVE

The conference agreement appropriates \$152,569,000 for Military Construction, Army Reserve, instead of \$138,425,000 as proposed by the House and \$136,077,000 as proposed by the Senate.

MILITARY CONSTRUCTION, NAVAL RESERVE
(INCLUDING RESCISSIONS)

The conference agreement appropriates \$46,864,000 for Military Construction, Naval Reserve, instead of \$45,226,000 as proposed by the House and \$46,676,000 as proposed by the Senate. The conference agreement also rescinds \$5,368,000 from Public Law 108-132 and \$11,192,000 from Public Law 108-324. The conferees direct the Naval Reserve to submit by March 31, 2006 a report describing how the rescissions of funds in this Act will be applied. This report shall list, by project, the amount of funds to be sourced to such rescissions.

MILITARY CONSTRUCTION, AIR FORCE RESERVE
(INCLUDING RESCISSION)

The conference agreement appropriates \$105,883,000 for Military Construction, Air

Force Reserve, instead of \$110,847,000 as proposed by the House and \$89,260,000 as proposed by the Senate. The conference agreement also rescinds \$13,815,000 from Public Law 108-324. The conferees direct the Air Force Reserve to submit by March 31, 2006 a report describing how the rescission of funds in this Act will be applied. This report shall list, by project, the amount of funds to be sourced to such rescission.

Of the funds provided for planning and design in this account, the conferees direct that \$207,000 be made available for the planning and design of the Addition/Alteration Aerial Port Facility, Homestead ARB, Florida.

NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM
(INCLUDING RESCISSION)

The conference agreement appropriates \$206,858,000 for the North Atlantic Treaty Organization Security Investment Program as proposed by both the House and the Senate. The conference agreement also includes a rescission of \$30,000,000 from Public Law 108-324 due to the slow spendout rate of the program and the recurrence of carryover amounts.

FAMILY HOUSING OVERVIEW

Family Housing Reprogramming Requests.—The conferees note the language contained in House Report 109-95 regarding the applicability of reprogramming guidelines to family housing projects. The conferees feel strongly that these guidelines should continue to apply to family housing projects, including privatization projects, to enable adequate congressional oversight.

FAMILY HOUSING CONSTRUCTION, ARMY
(INCLUDING RESCISSION)

The conference agreement appropriates \$549,636,000 for Family Housing Construction, Army as proposed by both the House and the Senate. The conference agreement also rescinds \$16,000,000 from Public Law 108-324. The conferees direct the Army to submit by March 31, 2006 a report describing how the rescission of funds in this Act will be applied. This report shall list, by project, the amount of funds to be sourced to such rescission.

FAMILY HOUSING OPERATION AND MAINTENANCE, ARMY

The conference agreement appropriates \$803,993,000 for Family Housing Operation and Maintenance, Army as proposed by the House, instead of \$812,993,000 as proposed by the Senate.

FAMILY HOUSING CONSTRUCTION, NAVY AND MARINE CORPS

The conference agreement appropriates \$218,942,000 for Family Housing Construction, Navy and Marine Corps as proposed by both the House and the Senate.

FAMILY HOUSING OPERATION AND MAINTENANCE, NAVY AND MARINE CORPS

The conference agreement appropriates \$588,660,000 for Family Housing Operation and Maintenance, Navy and Marine Corps as proposed by the House, instead of \$593,660,000 as proposed by the Senate.

FAMILY HOUSING CONSTRUCTION, AIR FORCE
(INCLUDING RESCISSIONS)

The conference agreement appropriates \$1,101,887,000 for Family Housing Construction, Air Force, instead of \$1,236,220,000 as proposed by the House and \$1,142,622,000 as proposed by the Senate. The conference agreement also rescinds \$7,700,000 from Public Law 107-249, \$4,500,000 from Public Law 108-132, and \$31,700,000 from Public Law 108-324. The conferees direct the Air Force to submit by March 31, 2006 a report describing how the rescissions of funds in this Act will be applied. This report shall list, by project,

the amount of funds to be sourced to such rescissions.

Adjustments to Air Force Family Housing Program.—The conferees note the progress made in the Air Force family housing privatization program, allowing the 2006 construction program to be adjusted without adversely affecting Air Force families. The privatization program leverages private sector capital and expertise to build superior family housing at less direct cost to the Federal government. Progress in the privatization program has resulted in unanticipated savings most recently on projects at four installations: Peterson AFB, Colorado; the United States Air Force Academy, Colorado; Bolling AFB, District of Columbia; and F.E. Warren AFB, Wyoming. The conferees note that privatization at these four installations will now allow for the construction or renovation of 3,156 homes, a 33 percent increase over the 2,371 units originally proposed in the budget request.

Spangdahlem Air Base, Germany.—The conferees note the current need for housing at Spangdahlem Air Base, Germany, and have provided funding for such purpose. The conferees urge the Air Force to consider all options to address the housing need at Spangdahlem Air Base. Specifically, build-to-lease housing has the potential to provide quality housing quickly to the families at Spangdahlem, while also providing a more cost-effective and flexible option to the United States. The conferees direct the Secretary of the Air Force to report on the housing plan at Spangdahlem.

The report must include the following:

Footprint requirements for family housing relative to land on hand at Spangdahlem and land purchase, if any, required.

A complete cost-benefit analysis of all available housing options at Spangdahlem, including build-to-lease. The analysis should include, but not be limited to, the cost per housing unit of each option and evidence of efforts made to lower such cost.

A certification that all options have been pursued with the German government, including, but not limited to, cost-sharing, road repair between housing units, and loan guarantees.

As provided in the administrative provisions of this title, none of the funds appropriated for family housing at Spangdahlem may be obligated until the Secretary of the Air Force certifies to the Committees on Appropriations of both Houses of Congress that the above-mentioned report has been completed and received the Committees' response, or a period of 30 days has elapsed after receipt of the report.

FAMILY HOUSING OPERATION AND MAINTENANCE, AIR FORCE

The conference agreement appropriates \$766,939,000 for Family Housing Operation and Maintenance, Air Force as proposed by the Senate, instead of \$755,319,000 as proposed by the House.

FAMILY HOUSING CONSTRUCTION, DEFENSE-WIDE

The conference agreement does not appropriate funding for Family Housing Construction, Defense-Wide. The Administration's budget request did not propose funding for this account in fiscal year 2006.

FAMILY HOUSING OPERATION AND MAINTENANCE, DEFENSE-WIDE

The conference agreement appropriates \$46,391,000 for Family Housing Operation and Maintenance, Defense-Wide as proposed by both the House and the Senate.

DEPARTMENT OF DEFENSE FAMILY HOUSING IMPROVEMENT FUND

The conference agreement appropriates \$2,500,000 for the Department of Defense

Family Housing Improvement Fund as proposed by both the House and the Senate.

CHEMICAL DEMILITARIZATION CONSTRUCTION, DEFENSE-WIDE

The conference agreement does not appropriate funding for Chemical Demilitarization Construction, Defense-Wide. The purpose of this account is to provide funds for the design and construction of full-scale chemical disposal facilities and associated projects to upgrade installation support facilities and infrastructure required to support the chemical demilitarization program.

Because the Department of Defense requested no funding for this account for fiscal year 2006, the conferees have not provided funding. However, the conferees remain mindful that obligations exist to complete construction associated with the Department's chemical demilitarization program, including the Assembled Chemical Weapons Alternatives (ACWA) program. The chemical demilitarization construction account within the Military Construction title of the relevant House and Senate appropriations bills is the appropriate account for funding construction associated with this program. The conferees expect the Department of Defense to include any requests for chemical demilitarization construction funding in future years, including for ACWA, to be included in the Chemical Demilitarization Construction, Defense-Wide account.

BASE REALIGNMENT AND CLOSURE OVERVIEW

Past Years Military Construction Impacted by BRAC.—The conferees note that some projects appropriated in this Act or in previous Acts making appropriations for military construction may be rendered unnecessary as a result of the 2005 base realignment and closure recommendations, which became effective on November 9, 2005. The conference agreement rescinds funds due to anticipated savings as a result. In the event that additional savings are realized, the conferees remind the Department that excess funds may not be reprogrammed except in accordance with the guidelines set forth by the Committees on Appropriations of both Houses of Congress. Further, the conferees have provided a single appropriation for the implementation of BRAC 2005, as requested by the Department, in order to ensure the Department has maximum flexibility to carry out this effort. All expenses resulting from the 2005 base realignment and closure recommendations should be paid from this account. The conferees have also included a statutory reporting requirement to maintain appropriate fiscal oversight.

BRAC Environmental Remediation.—The conferees note the language included in the Senate report regarding the use of Office of Economic Adjustment (OEA) funding, which is appropriated through the Department of Defense Appropriations Act, for the community share of certain environmental remediation activities at the former McClellan Air Force Base, California. The conferees support this language and further emphasize that OEA funds are to be used in all instances for the purpose for which they were appropriated and not used to supplant BRAC environmental remediation funding at any Department of Defense installation.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 1990

The conference agreement appropriates \$254,827,000 for the Department of Defense Base Closure Account 1990, instead of \$377,827,000 as proposed by the House and \$402,827,000 as proposed by the Senate. This amount fully funds the Administration's request for environmental cleanup and other activities associated with past BRAC rounds of all the Services with the exception of the

Navy, which will self-finance its program. Included in the funding is an additional \$14,000,000 for the Army and \$6,000,000 for the Air Force above the Administration's request. The purpose of this additional funding is to expedite cleanup activities in fiscal year 2006 that the Services have identified as candidates for acceleration.

The conferees note that the Navy has collected approximately \$650,000,000 from the recent sale of property at the former El Toro, California, Marine Corps Air Station. By law, proceeds from the sale of property closed under the Defense Base Closure and Realignment Act of 1990 must be deposited into the 1990 Department of Defense Base Closure (BRAC) account to be used for BRAC related activities, including environmental cleanup. By agreement between the military Services and the Office of the Secretary of Defense, BRAC land sale revenues are credited to the military Service owner of the property that was sold and are used to offset BRAC costs by that Service. Based on this agreement and the Navy's recent land sale revenues, the Navy no longer requires the \$143,000,000 in fiscal year 2006 appropriated funds as requested in the President's budget submission for activities funded through the BRAC 1990 account.

Environmental remediation associated with the BRAC process remains a key concern of the conferees. The conferees commend the Navy for its efforts to maximize revenue from the disposal of property from installations closed under previous BRAC rounds and for its application of those revenues to the environmental cleanup of closed Navy facilities. The conferees further encourage the Department of Defense and the other Services to pursue similar land sale strategies to provide additional revenue for the cleanup of their installations. To ensure that Navy land sale revenues are used to expedite environmental remediation activities at Navy installations, the conferees have included a provision in the conference report directing that no less than \$300,000,000 of the revenues deposited into the BRAC 1990 account from the sale of Navy property be used to execute the Navy's fiscal year 2006 environmental cleanup program. This level of funding is \$24,000,000 above the original budget estimate, including both appropriated funds and earlier projected land sale revenues.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 2005

The conference agreement appropriates \$1,504,466,000 for the Department of Defense Base Closure Account 2005, instead of \$1,570,466,000 as proposed by the House and \$1,479,466,000 as proposed by the Senate. TITLE II—DEPARTMENT OF VETERANS AFFAIRS

Centers of Excellence.—The conferees feel the Department of Veterans Affairs should consider designating specialized medical treatment facilities for mental health and post traumatic stress disorder as "Centers of Excellence". Establishing these centers would allow the VA to consolidate personnel, training and specialized resources. This will ensure the VA utilizes these resources in the most efficient manner, while providing bet-

ter service to our Nation's veterans. The conferees are concerned that mental health care is one of the most critical needs of our Nation's veterans, particularly those veterans returning from Operations Iraqi Freedom and Enduring Freedom.

Therefore, the conferees direct the Department of Veterans Affairs to place more emphasis on psychiatric care of our veterans by designating three centers of excellence to focus on mental health/PTSD needs. These three centers will be established at Waco VAMC, Texas; San Diego VAMC, California; and the Canandaigua VAMC, New York.

The VA should submit a report within six months of enactment of this Act to the Committees on Appropriations in both Houses of Congress outlining the progress made in this area.

Housing for Low-Income Veterans.—The conferees agree that the Government Accountability Office shall conduct a study on housing assistance to low-income veterans and submit the report to the Congress within six months of enactment of this Act. As jurisdiction over assistance to veterans spans many departments, the conferees expect the Government Accountability Office to consult with the Committees on Appropriations of both Houses of Congress concerning the scope of such a study. This issue was addressed by the Senate as an administrative provision, section 222.

Veterans Benefits Handbooks.—The conferees recognize the valuable information contained in the Department's annual publication "Federal Benefits for Veterans and Dependents." Adequate distribution of this publication is essential to keep veterans informed of the benefits to which they are entitled. The conferees urge the Secretary to work in coordination with the various veterans services organizations, including the National Association of County Veterans Service Officers, as well as with State departments of veterans affairs, to ensure that a comprehensive plan exists to distribute an adequate supply of the 2006 and future editions of "Federal Benefits for Veterans and Dependents." This issue was addressed by the Senate as section 223 of the administrative provisions which the conferees have deleted from the bill.

Post Traumatic Stress Disorder.—The conferees agree with the House direction under the "Items of Interest" regarding Post Traumatic Stress Disorder Clinical Teams.

Changing Veterans Population.—The conferees agree with the direction of the Senate responding to the changing population of veterans.

VETERANS BENEFITS ADMINISTRATION COMPENSATION AND PENSIONS (INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$33,897,787,000 for Compensation and Pensions, instead of \$33,412,879,000 as proposed by both the House and the Senate. The amount provided reflects the most current estimate of funding required for this mandatory account and reflects a 4.1 percent cost-of-living adjustment. Of the amount provided, not more than \$23,491,000 is to be transferred to General Operating Expenses and Medical Services for reimbursement of necessary expenses in implementing the Omnibus Budget Reconciliation Act of 1990 and the Veterans' Benefits Act of 1992.

Annual Benefits Report.—The conferees agree with the Senate language directing the Department to continue production of the annual benefits report which shall include select veteran data for all benefit programs by State.

READJUSTMENT BENEFITS

The conference agreement appropriates \$3,309,234,000 for Readjustment Benefits, instead of \$3,214,246,000 as proposed by both the

House and the Senate. The amount provided reflects the most current estimate of funding required for this mandatory account.

Task Force on VRE Benefits.—The conferees direct the Department to report to the Committees on Appropriations of both Houses of Congress by March 16, 2006 on its efforts to implement the recommendations of the Task Force on the Vocational Rehabilitation and Employment benefits program.

VETERANS INSURANCE AND INDEMNITIES

The conference agreement appropriates \$45,907,000 for Veterans Insurance and Indemnities as proposed by both the House and the Senate.

VETERANS HOUSING BENEFIT PROGRAM FUND PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates such sums as may be necessary for costs associated with direct and guaranteed loans from the Veterans Housing Benefit Program Fund Program Account as proposed by both the House and the Senate. The agreement limits obligations for direct loans to not more than \$500,000 and provides that \$153,575,000 is to be transferred to and merged with General Operating Expenses.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$53,000 for the costs of direct loans from the Vocational Rehabilitation Loans Program Account as proposed by both the House and the Senate, plus \$305,000 to be transferred to and merged with General Operating Expenses. The agreement provides for a direct loan limitation of \$4,242,000.

NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$580,000 for administrative expenses of the Native American Veteran Housing Loan Program Account to be transferred to and merged with General Operating Expenses as proposed by both the House and the Senate. The agreement also provides for a loan limitation of \$30,000,000 for the program as proposed by both the House and the Senate.

GUARANTEED TRANSITIONAL HOUSING LOANS FOR HOMELESS VETERANS PROGRAM ACCOUNT

The conference agreement provides up to \$750,000 of the funds available in Medical Administration and General Operating Expenses to carry out the Guaranteed Transitional Housing Loans for Homeless Veterans program as proposed by both the House and the Senate.

VETERANS HEALTH ADMINISTRATION MEDICAL SERVICES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$22,547,141,000 to finance Medical Services for all veterans and beneficiaries in Department of Veterans Administration facilities, State nursing homes, and contract medical facilities, of which \$1,225,000,000 is designated an emergency. The House had proposed \$20,995,141,000 and the Senate had proposed \$23,308,011,000, of which \$1,977,000,000 was designated as emergency funding.

Of the amount provided, \$1,100,000,000 is available for obligation until September 30, 2007 as proposed by the House, instead of \$1,500,000,000 as proposed by the Senate. The conferees also agree that the Department shall spend not less than \$2,200,000,000 for specialty mental health care as proposed by the House.

The conference agreement includes a net increase of \$1,100,000,000 to the original bud-

et request to reverse policy proposals contained in the budget. These proposals included a priority system of care relating to veterans needing long-term or nursing home care, a proposal to institute an enrollment fee for certain veterans, and a change in the co-pay amount for prescription drugs. The conferees reject all of these proposals and direct the Department to maintain policies in existence prior to submission of the budget. It is the agreement of the conferees that the budget savings anticipated from such policy proposals in the future should not be included in the budget unless the proposals are enacted and savings are realized. For the last four years, there has been a proposal for an enrollment fee and an increase in pharmacy co-payments included in the budget with unrealistic savings. Every year the Congress has had to find resources to make up for savings projections which do not materialize.

In addition, the conference agreement includes funding of \$1,452,000,000 tied to various corrections of errors in the original budget submission and adjustments for workload due to corrections of the Department's actuarial model. The conferees have made some funding adjustments to accommodate this increased need for funding, and language is included which requires submission of a revised budget amendment by the President to enable the use of emergency funding for the remaining funds.

The conference agreement retains language proposed by both the House and the Senate providing the Secretary with the authority to establish a priority system for veterans seeking medical care, allowing the Secretary to give priority to medical services for priority 1-6 veterans, allowing the Secretary to fill privately written prescriptions by Department of Veterans Affairs facilities, and provides \$15,000,000 for the Department of Defense/Veterans Affairs Health Care Sharing Incentive Fund.

Long-Term Care.—The conferees do not agree with the proposal contained in the budget to alter the long-term care policies, including a policy of priority care in nursing homes. The conferees have provided, within this total appropriation, sufficient resources to maintain a policy of providing long-term care to all veterans, utilizing VA-owned facilities, community nursing homes, State nursing homes, and other non-institutional venues. The conferees expect there to be no change from the policy in existence prior to fiscal year 2005.

Prosthetics Research and Integrative Health Care.—The conferees note that the fiscal year 2005 conference agreement included language directing the Department to prioritize prosthetics in its research agenda and establish a new prosthetics and integrative health care initiative. The conferees are pleased with the response of the Department, including designating four VA Medical Centers as polytrauma centers which will provide medical care and rehabilitation to service members sustaining multiple conditions such as amputation, visual and auditory impairment, post traumatic stress, traumatic brain injury, and spinal cord injury. The conferees continue to be interested in progress being made in this area of integrative treatment and direct the Department to provide semi-annual updates on the status of this initiative.

MEDICAL ADMINISTRATION

The conference agreement appropriates \$2,858,442,000 for Medical Administration as proposed by the Senate instead of \$4,134,874,000 as proposed by the House. The conference funding level includes the movement of information technology development funding to a new Information Technology Systems account, as proposed by the

Senate, under Departmental Administration. The agreement also includes language allowing \$250,000,000 of the funds to be available until September 30, 2007.

Revenue Improvement Demonstration.—The conferees share the Senate concern that the Department of Veterans Affairs is only collecting 41 percent (unadjusted for Medicare impacts) of the billed amounts from third party insurance companies and expect the Department to report to both Houses of Congress on its efforts to improve this collection rate by January 1, 2006. Furthermore, the conference agreement does not support all the guidelines as specified in House Report 109-95; however, the conferees do support the following guidelines regarding a revenue improvement demonstration project: the recommendation that the VA initiate a new pilot program that will provide a comprehensive restructuring of the complete revenue cycle including cash-flow management and accounts receivable processes in certain VA hospitals; the recommendation that the VHA Chief Business Officer must have the concurrence of the VA Chief Information Officer on the business plan for this demonstration; and that the Department provide quarterly progress reports to the Committees on Appropriations in both Houses of Congress.

In selecting a site for this project, the conferees direct the Department to select one medical center in a Veterans Integrated Service Network (VISN) other than 10, which is the host site of a demonstration project authorized by Public Law 108-357. The Department must initiate this project within 60 days of the date of enactment of this Act. The conferees expect that no Department full-time equivalent employees associated with the demonstration project would be terminated during the term of the project, except for purposes of personnel action relating to employee misconduct or unsatisfactory performance, in accordance with existing labor management agreements and personnel authorities of titles 5 and 38, United States Code, as applicable.

Contract Care Coordination.—The conferees support expeditious action by the Department to implement care management strategies that have proven valuable in the broader public and private sectors. It is essential that care purchased for enrollees from private sector providers be secured in a cost effective manner, in a way that complements the larger Veterans Health Administration system of care, and preserves important agency interest, such as sustaining a partnership with university affiliates. In that interest, the VHA shall establish through competitive award by the end of calendar year 2006, at least three managed care demonstration programs designed to satisfy a set of health system objectives related to arranging and managing care. The conferees encourage the Department to formulate demonstration objectives in collaboration with industry and academia, and the Secretary will report objectives to the Committees on Appropriations of both Houses of Congress within 90 days of the enactment of this Act. Multiple competitive awards and designs may be employed that may incorporate a variety of forms of public-private participation. The demonstrations, in satisfying the objectives to be enumerated, must be established in at least three VISNs, be comprehensive in scope, and serve a substantial patient population.

Management Efficiencies.—The conferees share the concern of the Senate that estimated management efficiencies are not supported by adequate budget justification details. Therefore, in future budget submissions, the Department is directed to provide more detail on its justification for management efficiencies.

MEDICAL FACILITIES

The conference agreement appropriates \$3,297,669,000 for operation, maintenance and security of Medical Facilities as proposed by both the House and the Senate. The agreement also includes language allowing \$250,000,000 of the funds to be available until September 30, 2007.

Community Based Outpatient Clinics.—The conferees have received numerous requests for funding specific Community Based Outpatient Clinics (CBOCs) but have retained the practice of not earmarking funds for these facilities. However, the conferees are concerned that the commitments made as a result of the final recommendations of the Capital Asset Realignment for Enhanced Services Commission may not be kept due to a variety of reasons. The conferees direct the Department to report on the status of CBOC's in Bessemer, Alabama; Richmond County (Hamlet), North Carolina; Conroe, Texas; Athens, Tennessee; North Central Washington; Lynchburg, Virginia; and Charlottesville, Virginia, including the reasons for any delay associated with their establishment. In addition, the conferees urge the Department to re-evaluate the need for CBOC's in Capitola, California; Jackson County, Florida; Levittown (Bucks County), Pennsylvania; Sunbury (Northumberland County), Pennsylvania; Bellingham, Washington; and Gladstone, Michigan. The conferees direct the Department to complete this report no later than March 15, 2006 and submit it to the Committees on Appropriations of both Houses of Congress.

Community Based Outpatient Clinics in Rural Areas.—The conferees remain concerned about veterans' access to healthcare in rural areas. As such, the conferees direct the Secretary to reevaluate Veterans Health Administration Handbook 1006.1 and other guidance and procedures related to planning, activating, staffing, and maintaining Community Based Outpatient Clinics to ensure that rural areas are adequately served. In addition, the Secretary should also review the criteria utilized, including geographic access, number of Priority 1 through 6 veterans, market penetration, cost effectiveness and distance to parent facilities, to determine whether planning criteria disadvantage rural veterans. The Senate had addressed this issue as administrative provision 227.

Beckley, West Virginia.—The conferees agree with language included in the Senate report urging the Department to include sufficient funding in its fiscal year 2007 budget request for construction of a 120-bed nursing home care unit at the Beckley, West Virginia VAMC, consistent with the CARES priority list as described in the Department's February 2005 Five-Year Capital Plan 2005-2010 report.

MEDICAL AND PROSTHETIC RESEARCH

The conference agreement appropriates \$412,000,000 for Medical and Prosthetic Research as proposed by the Senate instead of \$393,000,000 as proposed by the House. The conferees agree with the Senate provision which designates \$15,000,000 for Gulf War Illness research.

Mental Health Research.—The conferees agree that research on mental health diagnosis and treatment should be a priority of the Department of Veterans Affairs. The conferees believe that more research may lead to earlier identification of problems and more effective treatment, thereby reducing the long-term complications and costs associated with mental health issues. The conferees strongly suggest that the Department encourage research in this discipline by establishing a balanced and goal-based research program which takes into consideration the potential benefit of better treat-

ment as well as reducing the cost of care provided by the Department.

Gulf War Illness.—The conferees recognize the unique nature of Gulf War Illness and direct the Department to implement the recommendations of the Research Advisory Committee (RAC) on Gulf War Veterans' Illness in the context of the overall Department research program. One aspect of this effort is the establishment of a research center of excellence devoted to Gulf War Illness research. The conferees are supportive of this effort and direct the Department to report to the Committees on Appropriations of both Houses of Congress regarding establishment of such a center by March 15, 2006. In complying with the RAC recommendations, the Department is directed to devote at least \$15,000,000 to Gulf War Illness research in this fiscal year, and in each of the next four fiscal years. In addition, this initiative shall, at a minimum, begin with a pilot study involving collaborative research between a VA Medical Center and the University of Texas, Southwestern Medical Center, which is presently conducting extensive research on Gulf War Illness.

DEPARTMENTAL ADMINISTRATION

GENERAL OPERATING EXPENSES

The conference agreement appropriates \$1,410,520,000 for General Operating Expenses instead of \$1,411,827,000 as proposed by the House and \$1,418,827,000 as proposed by the Senate. The conference agreement provides not less than \$1,053,938,000 for the Veterans Benefits Administration, instead of \$1,086,938,000 as proposed by the House and \$1,093,937,500 as proposed by the Senate. Of the amount provided, \$70,000,000 is available for obligation until September 30, 2007, as proposed by the House instead of \$71,000,000 as proposed by the Senate.

The agreement also provides for a limitation on the purchase of passenger motor vehicles for use in operations by the Veterans Benefits Administration in Manila, Philippines, as proposed by the House. The Senate had proposed no limitation.

Senate language directing the Department to conduct an information campaign in States with lower disability compensation payments has been moved to administrative provisions, section 228.

The conferees do not agree to the Senate language calling for a report on the cost of replacing non-standardized home glucose monitoring equipment while maintaining existing equipment, depending upon patient choice. The report is not required since the conferees have adopted an administrative provision (section 220) prohibiting the Department from moving forward with a national standardization effort for home glucose monitoring equipment.

INFORMATION TECHNOLOGY SYSTEMS

The conference agreement appropriates \$1,213,820,000 for Information Technology Systems as a new account instead of \$1,456,821,000 as proposed by the Senate. The House had maintained information technology funding as part of existing accounts, including Medical Administration.

Senate language regarding the HealthVet program has been moved to administrative provisions, section 229.

Based upon the funding provided, the Department is to provide a comprehensive listing of priority projects for fiscal year 2006 and submit it to the Committees on Appropriations of both Houses of Congress within 30 days of enactment of this Act.

The conferees note that on October 19, 2005, the Secretary of the Department of Veterans Affairs approved a federated information technology model for the Department. This model will require significant reorganization

of the Department's information technology management and operations and will take a minimum of 12 months to accomplish. The conferees hope that the revised account structure approved in this appropriations Act and the management model approved by the Secretary will go far in improving the efficiency of the Department's information technology systems while giving the Congress better insight into these programs.

The conferees agree that in this first year of a major reorganization of information technology activities, funding will be available for a two-year period instead of one year. This will allow sufficient time for the Department to reorganize and execute its information technology projects in an effective manner.

The conferees agree that the Department is to provide the Committees on Appropriations of both Houses of Congress with quarterly reports on the status of each information technology project included in the budget. Each report shall include, but not be limited to, a milestone schedule for each project, each project's scheduled completion date, the amount appropriated for each project, planned and actual obligations of each project with explanations of the variance, and the unobligated balances of each project.

The conferees are in agreement that the amount provided for the CoreFLS project shall be limited to \$30,000,000 in fiscal year 2006.

NATIONAL CEMETERY ADMINISTRATION

The conference agreement appropriates \$156,447,000 for the National Cemetery Administration as proposed by both the House and the Senate. The conferees agree that the Department is to provide a report to the Committees on Appropriations of both Houses of Congress on the potential use of land at Fort Ord, California, for a national cemetery. The conferees direct the Secretary and the Undersecretary for Memorial Affairs to examine the unique situation at Fort Ord and report back to the Committees no later than January 16, 2006.

OFFICE OF INSPECTOR GENERAL

The conference agreement appropriates \$70,174,000 for the Office of Inspector General as proposed by both the House and the Senate.

CONSTRUCTION, MAJOR PROJECTS

The conference agreement appropriates \$607,100,000 for Construction, Major Projects as proposed by both the House and the Senate. Within the amount provided, \$532,010,000 is for Capital Asset Realignment for Enhanced Services (CARES) projects as proposed by the House instead of \$539,800,000 as proposed by the Senate. The agreement also provides \$2,500,000 for reimbursement for contract disputes as proposed by the Senate, instead of \$8,091,000 as proposed by the House. The conferees have included a modified provision, proposed by the Senate, which restricts the Department's ability to reduce the mission, services or infrastructure, including land, of 18 facilities on the CARES list requiring further study, without prior approval of the Committees on Appropriations of both Houses of Congress.

CARES Feasibility Studies.—The conferees are concerned with ongoing delays in the feasibility study for new veteran hospitals. The CARES decision recognized that these hospitals need to be replaced with new hospitals in order to provide veterans with the access and quality of care they need. The feasibility study delays are undermining the Secretary's decision and threaten to unnecessarily delay construction of these new hospitals. The Department is directed to work

with the contractor conducting the feasibility studies to ensure that they are completed and the Secretary has made a final decision, by June 1, 2006, on building these new hospitals. The Department will report to the Committees on Appropriations of both Houses of Congress within 30 days of enactment of this bill on the action it has taken to meet these requirements.

CONSTRUCTION, MINOR PROJECTS

The conference agreement appropriates \$198,937,000 for Construction, Minor Projects instead of \$208,937,000 as proposed by both the House and the Senate. The conference agreement provides \$155,000,000 for construction projects implementing CARES recommendations, instead of \$160,000,000 as proposed by both the House and the Senate. The agreement does not include a provision proposed by the Senate which would make additional funding available for CARES activities upon notification and approval by the Committees on Appropriations of both Houses of Congress.

GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

The conference agreement appropriates \$85,000,000 for Grants for Construction of State Extended Care Facilities instead of \$25,000,000 as proposed by the House and \$104,322,000 as proposed by the Senate.

The conferees agree with the direction of the House calling for the Department to undertake a rigorous and extensive analysis of long-term care needs of veterans and report to the Committees on Appropriations of both Houses of Congress by March 31, 2006, on the results of that study. This study is to be done with all interested stakeholders participating.

The conferees do not agree with the Senate position restricting grants to any one state to one-third of the amount appropriated in any one fiscal year.

GRANTS FOR THE CONSTRUCTION OF STATE VETERANS CEMETERIES

The conference agreement appropriates \$32,000,000 for Grants for the Construction of State Veterans Cemeteries, as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS (INCLUDING TRANSFERS OF FUNDS)

The conference agreement includes section 201 allowing for transfers among various mandatory accounts as proposed by both the House and the Senate and includes a proviso requiring Congressional notification and approval as proposed by the Senate.

The conference agreement includes section 202 allowing for the use of salaries and expenses funds to be used for other authorized purposes as proposed by both the House and the Senate.

The conference agreement includes section 203 restricting the use of funds for the acquisition of land as proposed by the House.

The conference agreement includes section 204, as proposed by both the House and the Senate, limiting the use of funds in the Medical Services account to only entitled beneficiaries or unless reimbursement is made to the Department.

The conference agreement includes section 205 allowing for the use of certain mandatory appropriations accounts for payment of prior year accrued obligations for those accounts as proposed by both the House and the Senate.

The conference agreement includes section 206 allowing for the use of appropriations available in this title to pay prior year obligations as proposed by both the House and the Senate.

The conference agreement includes section 207, as proposed by both the House and the

Senate, regarding administration of the National Service Life Insurance Fund, the Veterans' Special Life Insurance Fund, and the United States Government Life Insurance Fund.

The conference agreement includes section 208 making the Department's Franchise Fund authority permanent. The House had proposed a one-year extension and the Senate had proposed permanent authority with different language.

The conference agreement includes section 209, as proposed by both the House and the Senate, allowing for the proceeds from enhanced-use leases to be obligated in the year in which the proceeds are received.

The conference agreement includes section 210, as proposed by both the House and the Senate, allowing for the use of funds in this title for salaries and other administrative expenses to be used to reimburse the Office of Resolution Management and the Office of Employment Discrimination Complaint Adjudication.

The conference agreement includes section 211 limiting the use of funds for any lease with an estimated annual rental of more than \$300,000 unless approved by the Committees on Appropriations of both Houses of Congress, as proposed by both the House and the Senate.

The conference agreement includes section 212 requiring the Secretary of the Department of Veterans Affairs to collect third-party payer information for persons treated for non-service connected disability, as proposed by both the House and the Senate.

The conference agreement includes section 213, as proposed by both the House and the Senate, allowing for the use of enhanced-use leasing revenue for Construction, Major Projects and Construction, Minor Projects.

The conference agreement includes section 214 allowing for the use of Medical Services funds to be used for recreational facilities and funeral expenses as proposed by both the House and the Senate.

The conference agreement includes section 215 allowing for funds deposited into the Medical Care Collections Fund to be transferred to the Medical Services account, as proposed by both the House and the Senate.

The conference agreement includes section 216 allowing for the transfer of funds among three medical accounts for the purpose of perfecting the restructuring of the Veterans Health Administration accounts. Such transfers are subject to prior Congressional approval. Both the House and the Senate had proposed similar transfer provisions with slightly different language. The conferees would like to emphasize that the transfers permitted by this provision are to be highlighted to the Congress in a timely manner. The conferees note that this new account structure has been in place for three years and sufficient time has passed for the Department to budget properly in this account structure. The conferees do not expect to continue this provision in the future.

The conference agreement includes section 217 allowing for the transfer of funds from General Operating Expenses to the Veterans Housing Benefit Program Fund Program Account for the cost of a nationwide property management contract, as proposed by both the House and the Senate.

The conference agreement includes section 218, as proposed by both the House and the Senate, which allows Alaskan veterans to use medical facilities of the Indian Health Service or tribal organizations at no additional cost to the Department of Veterans Affairs or the Indian Health Service.

Major Projects and Construction, Minor Projects accounts and makes those funds available until expended. This provision was included in both the House and the Senate bills.

The House had proposed a similar prohibition and the Senate had proposed report language on this issue.

The conference agreement includes section 221, prohibiting the use of funds on any policy prohibiting the outreach or marketing to enroll new veterans, as proposed by the Senate.

The conference agreement includes section 222, which requires the Secretary to submit quarterly reports on the financial status and service level status of the Veterans Health Administration. The report shall contain, at a minimum, both planned and actual expenditure rates, unobligated balances, potential financial shortfalls, any transfers between major accounts (medical services, medical administration, and medical facilities), and status of any equipment or non-recurring maintenance funds—including whether they have been used to pay for operating expenses. In addition, the service portion of the report will contain, at a minimum, the time required for new patients to get their first appointment, the time required for established patients to get their next appointment, and the number of unique veterans and patients being served. Each report should address data for the system total and for each VISN, and for comparison purposes the initial report shall also provide patient data for the preceding eight quarters. The conference agreement modifies Senate section 203.

The conference agreement includes section 223, requiring the Department of Veterans Affairs to submit to the Committees on Appropriations of both Houses of Congress, a plan for implementation of the third recommendation contained in Office of Inspector General Report No. 05-00765-137. The language in the conference agreement is a modification of the language included in the Senate bill.

The conference agreement includes section 224, as proposed by the Senate, calling for collaboration between the National Center for Post Traumatic Stress Disorder and the Department of Defense. The provision was not in the House bill.

The conference agreement includes section 226, allowing for the transfer of funds among various accounts to perfect the accounting structure of the Information Technology Systems account, subject to congressional approval. This provision was not in either House or Senate bill.

The conference agreement includes section 227, providing for transfer of funds among projects within the Information Technology Systems account, subject to congressional notification and approval for any change of \$1,000,000 or more.

The conference agreement includes section 228, providing for the Department to conduct an information campaign in States where disability compensation payments are less

than \$7,300. The Senate had proposed this language as a proviso within the General Operating Expenses account.

The conference agreement includes section 229, which places a cap on the total funding available for HealtheVetVista in fiscal year 2006 and requires approval of an expenditure plan for the project by the Committees on Appropriations of both Houses of Congress. The Senate had proposed similar language as part of the Information Technology account.

The conference agreement includes section 230, which extends the authorization of the Department's homeless program until September 30, 2006. This provision was not in either House or Senate bill.

The conference agreement does not include a provision proposed by the Senate (section 204), which would have required the Department to seek approval of the Congress for a change of 10 percent or more in the scope of a major construction project. The proposed provision would have duplicated section 8104 of title 38, United States Code.

The conference agreement does not include a provision proposed by the House (section 213) restricting the use of funds for implementing sections 2 and 5 of Public Law 107-287 and section 303 of Public Law 108-422.

PLACEMENT OF STATUE OF ROSA PARKS IN NATIONAL STATUARY HALL

Mr. NEY. Mr. Speaker, I ask unanimous consent that the Committee on House Administration be discharged from further consideration of the bill (H.R. 4145) to direct the Architect of the Capitol to obtain a statue of Rosa Parks and to place the statue in the United States Capitol in National Statuary Hall, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Ms. MILLENDER-McDONALD. Mr. Speaker, reserving the right to object, I yield to the gentleman from Ohio to explain the purpose of this legislation.

Mr. NEY. Mr. Speaker, I rise today in support of House Resolution 4145, a bill to direct the Joint Committee on the Library to obtain a statue of Rosa Parks and to place the statue in the United States Capitol in National Statuary Hall.

Mr. Speaker, Mrs. Rosa Louise Parks is widely recognized as the mother of the civil rights movement. She did the unthinkable on December 1, 1955, when she refused to give up her seat on that bus in segregated Montgomery, Alabama. However, it was this simple act that inspired a young reverend, Martin Luther King, Jr., to lead a 381-day boycott of that city's bus system, thus providing the spark to ignite the civil rights movement.

Before she provided the inspiration for the civil rights movement, she was already working to break down the decades of Jim Crow laws by being an active member in the local Montgomery chapter of the NAACP. In 1992, she explained why she did not give up her seat that day. "The real reason of my not standing up was I felt that I had a right to be treated as any other passenger. We had endured that kind of treatment for too long."

In the aftermath of the boycott, Mrs. Parks and her husband found it difficult to find work and endured a hostile environment in Alabama. Therefore, she and her husband Raymond Parks moved north to Detroit in 1957. A year after my colleague from Michigan, Representative JOHN CONYERS, was first elected to the House, he made

the brilliant decision to hire Mrs. Parks as a legislative aide. She worked for him until her retirement in 1988. By then she had founded the Rosa and Raymond Parks Institute for Self-Development. This nonprofit organization is committed to working with Detroit's youth to build leadership skills and inspire them to continue her work on civil and human rights. She spent the remainder of her life's work focusing on this organization.

In 1999, the United States Congress first honored Mrs. Parks in the Rotunda of the Capitol by awarding her with the Congressional Gold Medal, our Nation's highest expression of national appreciation for distinguished achievements and contributions. Just 2 weeks ago, the United States Congress honored Mrs. Parks in the Rotunda again by allowing the Nation to pay its final respects to this great and unique American by allowing her remains to lie in honor in the Rotunda. The United States Congress should eternally recognize the significant contribution she made in advancing civil and human rights in this country.

Mr. Speaker, I can think of no better way than by commissioning a statue of Mrs. Parks and placing it in National Statuary Hall. I want to commend JESSE JACKSON, Jr., of Illinois, MIKE ROGERS of Alabama, and all the Members that have signed on to this important house resolution. I want to thank our ranking member, JUANITA MILLENDER-McDONALD of California, for her work on this to expedite it and the Speaker of the House and his staff and the staff of House Administration on both sides to make sure that this moved as fast as it could here. It is important, because I think that Rosa Lee Parks did something for every American in this country that day. I think it is something that we all recognize changed the entire nature of the country. I think that placing the statue in Statuary Hall is a great and deserving honor. Again I want to thank JESSE JACKSON, Jr., and MIKE ROGERS for this fine resolution.

Ms. MILLENDER-McDONALD. Mr. Speaker, further reserving the right to object, I rise to join the chairman in support of this resolution which would allow a statue of the late Rosa Louise Parks to be placed in the U.S. Capitol. I would first like to congratulate my colleague from Illinois, JESSE JACKSON, Jr., and his partner, MIKE ROGERS, for their hard work in building the ground swell of support which this bill has as well as thanks to the chairman of the Committee on House Administration, my colleague, Mr. NEY; the Speaker; and the distinguished Democratic leader, NANCY PELOSI, for working so diligently with me to bring this bill to the floor.

Rosa Louise Parks was a great woman who simply sat down in order for us to stand up here today. I believe that it is only fitting that we honor this great American by placing a life-sized statue of her in the U.S. Capitol
