STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. ALLEN (for himself and Mr. MARTINEZ):

S. 1706. A bill to amend the Internal Revenue Code of 1986 to provide that distributions from a section 401(k) plan or a section 403(b) contract shall not be includable in gross income to the extent used to pay long-term care insurance premiums; to the Committee on Finance.

Mr. ALLEN. Mr. President, I rise to bring the Senate's attention to a bill I introduced today, the Long-Term Care Act of 2005.

Baby boomers will begin to turn 65 years old in 2010 and by 2030, all 77 million baby boomers will have reached retirement age and the over 65 population will have doubled. The practicality of these conditions will require the Federal Government and most State governments to spend more money on health care. Presently, Federal and State Governments are spending billions of dollars to ensure the

health and well-being of our fellow citizens.

In one sector of the health care arena where costs are dramatically rising is in the area of long-term care. In 2000, spending on long-term care was estimated at \$123.1 billion and it is expected to triple to \$346.1 billion by 2040. Currently, 70 percent of long-term care costs are spent on nursing home care. The average cost of nursing home care is \$178 per day or \$60,000 per year. That is a significant burden on Federal and State Governments as well as the thousands of individuals who pay for that care out of pocket.

In addition, almost 75 percent of nursing home care is publicly funded. Medicaid spends about 58.7 percent on long-term care while Medicare spends 14.7 percent. According to the Council for Affordable Health Insurance, by the year 2030, Medicaid's nursing home expenditures are expected to reach \$130 billion a year.

If more people purchased private long-term care insurance, we could reduce Medicaid's future institutional-care expenses by more than \$40 billion each year, while giving those who are insured alternatives to nursing homes, including home care, adult daycare, foster care and assisted living. Congress has taken steps to give individuals more power to pay for their health care services such as long-term care. One such outstanding measure was the creation of Health Savings Accounts, HSAs.

I was pleased to support the passage of the Medicare Modernization Act. This landmark legislation created health savings accounts, which are a new way that people can pay for unreimbursed medical expenses such as deductibles, copayments, and services not covered by insurance like long-term care. Eligible individuals can establish and fund these accounts when they have a qualifying high deductible health plan and no other health plan, with some exceptions. The beauty of these plans is that they have tax advantages such as deductible contributions; tax-exempt withdrawals if the individual uses the money for medical expenses; and tax-exempt account earnings.

I am confident that with the creation of health savings accounts, individuals and families will be encouraged to set money aside for their health care expenses and give individuals the means to pay for health care services of their own choosing, without being constrained by insurers or employers. Unfortunately, health savings accounts are relatively new and most individuals will not have the built up funds in their HSA to pay for a number of costly health care expenses such as long-term care insurance and that is why we need to provide other options to help pay for this important investment.

Currently, thousands of Virginians and millions of Americans are saving in their retirement plans to have a comfortable life once they become seniors, be it 401(k) and 403(b) accounts.
