#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KENNEDY (for himself and Mr. DEWINE):

S. 1951. A bill to amend the Public Health Service Act to help individuals with functional impairments and their families pay for services and supports that they need to maximize their functionality and independence and have choices about community participation, education, and employment, and for other purposes; to the Committee on Finance.

Mr. KENNEDY. Mr. President, it's a privilege to join Senator DEWINE in introducing this bipartisan legislation to build on the promise and possibilities of the Americans with Disabilities Act.

Our bill, the Community Living Assistance Services and Supports Act—the CLASS Act—will help large numbers of Americans who struggle everyday to live productive lives in their communities.

Too many Americans are perfectly capable of living a life in the community, but are denied the supports they need.

They languish in needless circumstances with no choice about how or where to obtain these services.

Too often, they have to give up the American Dream the dignity of a job, a home, and a family—so they can qualify for Medicaid, the only program that will support them.

The bill we propose is a long overdue effort to offer greater dignity, greater hope, and greater opportunity.

It makes a simple pact with all Americans—“If you work hard and contribute, society will take care of you when you fall on hard times.”

The concept is clear—everyone can contribute and everyone can win. We all benefit when no one is left behind.

For only \$30 a month, a person who pays into the program will receive either \$50 or \$100 a day, based on their

ability to carry out basic daily activities.

They themselves will decide how this assistance will be spent—on transportation so they can stay employed, or on a ramp to make their home more accessible, or to cover the cost of a personal care attendant or a family caregiver.

It will help keep families together—instead of being torn apart by obstacles that discourage them from staying at home.

The bill will strengthen job opportunities for people with disabilities at a time when 70 percent are unemployed. They have so much to contribute and the bill will help them do it.

It will save on the mushrooming health care costs for Medicaid, the Nation's primary insurer of long-term care services, which also forces beneficiaries to give up their jobs and live in poverty before they become eligible for assistance.

The CLASS Act is a hopeful new approach to restoring independence and choice for millions of these persons and enabling them to take greater control of their lives.

It's time to respect the rights and dignity of all Americans, and I look forward to working with Senator DEWINE and other colleagues to see this bill enacted into law.

I ask unanimous consent that a summary of the CLASS Act legislation be printed in the RECORD.

There being no objection, the summary was ordered to be printed in the RECORD, as follows:

#### SUMMARY OF THE DEWINE-KENNEDY CLASS ACT OF 2005—(COMMUNITY LIVING ASSISTANCE SERVICES AND SUPPORTS ACT)

##### PURPOSE OF THE BILL

To help adults with severe functional impairments obtain the services and supports they need to stay functional and independent, while providing them with choices about community participation, education and employment.

##### BACKGROUND

Currently there are 10 million Americans in need of long term services and supports, and the number is expected to increase to near 15 million by 2020.

Most private-sector disability or long-term care insurance plans are constrained in the insurance protection they can offer at an affordable price, and neither Supplemental Security Insurance (SSI) nor Old, Age, Survivors, and Disability Insurance (OASDI) programs have any benefit differentials related to the extent and character of the disability.

Thus, most Americans who have or develop severe functional impairments can only access coverage for the services critical to their independence (such as housing modifications, assistive technologies, transportation, and personal assistance services), through Medicaid. Their reliance on Medicaid for critical support services creates a strong incentive for them to “spend down” assets and remain poor and unemployed. With Medicaid paying 50 percent of the costs of long term services, increased expenditures on long term services are expected to add \$44 billion annually to the cost of Medicaid over the next decade.

##### OVERVIEW OF THE LEGISLATION

The CLASS Act will offer an alternative path. It will create a new national insurance
