

Loveland, CO, Tom Wagoner, for his distinguished career of service to the people of Loveland.

Chief Wagoner was born in Minnesota and raised in eastern Illinois. After spending 2 years in the Army, he became a police officer and joined the Greeley, CO, Police Department in 1979. Having served in several positions in the Greeley Police Department, Chief Wagoner left Colorado in 1987 to be the police chief in Tullahoma, TN.

Fortunately, it was not long before Chief Wagoner came back to Colorado to serve as the police chief in my hometown of Loveland in 1989. The city of Loveland has greatly benefited from his leadership. Over the course of his tenure, he made many additions to the department, including a mounted patrol unit, a motorcycle unit, a community policing program, and a new radio system. Chief Wagoner also presided over a move to a new police headquarters in 2002 and has ensured that the Loveland Police Department has received national accreditation since 1992.

I thank Chief Wagoner for over 15 years of service to the citizens of Loveland. He leaves behind a difficult set of shoes to fill, and he will be missed.●

#### 100TH ANNIVERSARY OF THE AMERICAN THORACIC SOCIETY

● Mrs. BOXER. Mr. President, on the occasion of its 100th anniversary, I am proud to recognize and honor the American Thoracic Society for its continuing commitment to the prevention and treatment of respiratory disease.

While respiratory disease may not pose the same public threat that it did 100 years ago, we cannot forget, nor overlook, the need to continue our fight against such debilitating illnesses. It is imperative that we continue to explore the causes and effects of respiratory disease as well as educating the public here and abroad.

Since its establishment in 1905, the American Thoracic Society has demonstrated an unyielding determination to reduce the number of deaths from respiratory disorder and acute-illness. I commend ATS for its dedication to the cause.

ATS not only directs its attention to the care and treatment of respiratory disease patients, it also places preventative practices at the forefront of its mission. Through extensive scientific research, ATS has established itself as a leader in the discovery of new information and knowledge. Furthermore, ATS has developed numerous educational programs, as well as several medical journals, to help keep both the medical community and the public up to date on new scientific information and innovative practices.

Finally, ATS has established itself as a leading advocate of respiratory research, paving the way for unprecedented developments in the treatment of respiratory disease. As host of the

world's leading respiratory medicine conference, which provides doctors and scientists the opportunity to share their successes with specialists from all over the world, ATS has truly confirmed its status as a leader in the medical community.

Over the years, ATS has grown to meet the needs of the changing world in which we live, while never losing sight of its basic goals of prevention and treatment. I congratulate the American Thoracic Society on its 100 years of outstanding research and innovation.●
