

accountability. We need to decrease the risk to our troops and strengthen our chances for success. Our troops deserve better than they are getting. They deserve leadership that is equal to their sacrifice.

**BONE MARROW AND CORD BLOOD THERAPY AND RESEARCH ACT OF 2005**

Mr. BURR. Mr. President, I rise today to strongly support The Bone Marrow and Cord Blood Therapy and Research Act of 2005. I introduced this legislation with Senators HATCH, DODD, ENSIGN, and REED yesterday and I appreciate their interest in this important legislation.

The Bone Marrow and Cord Blood Therapy and Research Act will help provide adult stem cell transplant material for those patients who need them, and also provide adult stem cells for scientific research.

The House has passed similar legislation and we need to act in a timely matter on this bill. The legislation that we introduced yesterday also reauthorizes the National Marrow Donor Program, an important program helping to provide adult bone marrow to sick individuals. Unfortunately, thousands of Americans have died because there was not an appropriate donor of bone marrow. However, umbilical cord blood may provide an alternative to bone marrow transplantation. Ultimately, given the current limitations of bone marrow transplantation, cord blood could become a more widespread lifesaving therapy.

I am proud of the valuable work and research taking place in North Carolina. In particular, Dr. Joanne Kurtzberg of Duke University, the director of the Pediatric Blood and Marrow Transplant Program, is leading the fight on monumental diseases such as diabetes and Alzheimer's. Dr. Kurtzberg and her team are pioneers in the field, having already performed more than 600 cord blood transplants with unrelated donors more than anyone else in the world.

Cord blood transplantation has already been used to treat a number of diseases including leukemia, lymphoma, and sickle cell anemia. The legislation we introduced yesterday will establish an inventory of 150,000 new cord blood stem cell units that reflects the diversity of the people of the United States. The goal of this legislation is to create a network so that 95 percent of Americans who need a transplant will be able to receive an appropriately matched transplant. Calling transplants the "ultimate in recycling," Dr. Kurtzberg believes, as I do, that cord blood has the potential to save the lives of countless patients nationwide.

The Bone Marrow and Cord Blood Therapy and Research Act establishes a network of qualified cord blood banks to collect, test, and preserve cord blood stem cells. Additionally, this legisla-

tion will help match donors and recipients. I am hopeful that this legislation will provide facilities like the Carolinas Cord Blood Bank at Duke with the ability to save thousands of lives as the number of bone marrow donors and cord blood units increases.

The Senate needs to move forward on this legislation so that the Federal Government can help provide the infrastructure allowing these therapies to be extensively used. I stand ready to work with my colleagues so that we can enact this legislation quickly.

**HONORING OUR ARMED FORCES**

**HONORING ARMY SPECIALIST NICK IDALSKI**

Mr. BAYH. Mr. President, I rise today with a heavy heart and deep sense of gratitude to honor the life of a brave young man from Crown Point. Nick Idalski 23 years old, died on June 21 during combat operations west of Baghdad near Ramadi. With his entire life before him, Nick risked everything to fight for the values Americans hold close to our hearts, in a land halfway around the world.

A 2001 graduate from Crown Point High School, Nick was killed in combat just 1 month before he was scheduled to return home. He had been in the Army for less than 2 years, first being sent to South Korea for a short time before his deployment to Iraq. His family recounted to a local newspaper Nick's passion for being a soldier and helping other people, saying that he died doing something he truly loved. They shared their memories of how selfless, jolly, and determined Nick was, and their pride in him when he decided to join the Army. I stand here today to express the same feelings of pride and gratitude for this young Hoosier's sacrifices and those made by his family on behalf of our country.

Nick was killed while serving his country in Operation Iraqi Freedom. He was a member of the Army's 2nd Infantry Division, and had been stationed in Ramadi since August. This brave young soldier leaves behind his mother and stepfather, Kim and Richard Greenberg; his father, Tony Idalski; his two brothers, Steve and Nathan Idalski; his stepbrother, Kevin Greenberg; two stepsisters; and his longtime girlfriend, Lisa Wheeler.

Today, I join Nick's family and friends in mourning his death. While we struggle to bear our sorrow over this loss, we can also take pride in the example he set, bravely fighting to make the world a safer place. It is his courage and strength of character that people will remember when they think of Nick, a memory that will burn brightly during these continuing days of conflict and grief.

Nick was known for his dedication to his family and his love of country. Today and always, Nick will be remembered by family members, friends and fellow Hoosiers as a true American hero and we honor the sacrifice he made while dutifully serving his country.

As I search for words to do justice in honoring Nick's sacrifice, I am reminded of President Lincoln's remarks as he addressed the families of the fallen soldiers in Gettysburg:

We cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it, far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here.

This statement is just as true today as it was nearly 150 years ago, as I am certain that the impact of Nick's actions will live on far longer than any record of these words.

It is my sad duty to enter the name of Nick Idalski in the official Record of the U.S. Senate for his service to this country and for his profound commitment to freedom, democracy and peace. When I think about this just cause in which we are engaged, and the unfortunate pain that comes with the loss of our heroes, I hope that families like Nick's can find comfort in the words of the prophet Isaiah who said, "He will swallow up death in victory; and the Lord God will wipe away tears from off all faces."

May God grant strength and peace to those who mourn, and may God be with all of you, as I know He is with Nick.

**NATIONAL HISTORY DAY PROGRAM**

Mr. OBAMA. Mr. President, from June 12-16, 2005, students from the great State of Illinois were invited to Washington, DC, by the National History Day Program to present original history projects. This scholarly group of students used their critical thinking and research skills to create exhibits, documentaries, and performances on the theme, "Communication in History: The Key to Understanding."

Congratulations to the national qualifiers and finalists from Illinois: Audrey Auyeung, Zoe Netter, Charlotte Cook, Eric Jacobson, David Gainski, Lucy Honold, Chelsea Farmer, Brandon Jakub, Kyle Schoenfelt, Dakota Smith, Erich Grundman, Charlie Curran, Jonathan Taub, Alicia Patten, Peter Contos, Honghe Li, Sebastian Prokuski, Laura Muller-Soppert, Tomas Manghi, Elizabeth May, Aruj Chaudhry, Kyle Johnson, Kathryn Evans, Laura Guzman, Rebecca Strauss, Andriy Matyukha, Sean Gallagher, Brendon Gallagher, Dan Burasinsanga, Gian Santos, Mary Kowalkowski, Ellie Terrell, Lauren Brown, Nadine Ibrahim, Annika Kolasa, Courtney Kolbe, Marissa Suchyta, David Bailey, Joseph Tepper, Tamara Vaughn, Stephanie Ebbs, Lena Walker, Maria Carvell, Robby Krajewski, Allyson Schroeder, Elizabeth Hamman, Emily Dennis, Lisa Furby, Katie Damron, Andrea Martinelli, Cristen Sawicki, Kelsey McMahon, Amelia Wallace, Allison Nichols, Sarah Siegel, Eliseo Martinez, and Jessica Drachenberg.

Special congratulations to Marrissa Suchyta, the second place winner in the junior individual documentary category, and Aruj Chaudhry, the third place winner in the senior individual paper category.

Finally, dedicated Illinois teachers worked throughout the academic year with these students so that they could be successful in competing with over 500,000 students nationwide.

Congratulations to their teachers: Angie Carr, Balazs Dibuz, Mario Garcia, Melissa Craig, Ron Solberg, Carlton Oquendo, Betsy Brown, Patricia Grunde, Ann Patricia Duffy, Leslie Contos, David Barber, Sherri Massa, Chris Salituro, Aggie Nowak, Cathy Bednar, Peggy Hall-Heineman, Patricia Grimmer, Sandra Koehler, Janet Kelsey, Chris DeMato, Barry Bradford, Claire Finn, Therese Hawkins, Sandra Koehler, and Claire Finn.

I commend these students on their achievements and encourage them to continue their pursuit of academic excellence.

#### ADDITIONAL STATEMENTS

##### MAYOR-ELECT ANTONIO VILLARAIGOSA

• Mrs. BOXER. Mr. President, today I rise to salute a wonderful and historic event that is about to take place in my home State. On Friday, July 1, 2005, Antonio Villaraigosa will be sworn in as mayor of the great city of Los Angeles, CA.

With nearly 4 million residents, Los Angeles is a huge and dynamic city, and running it well will be a huge challenge. But Antonio Villaraigosa is ready, willing, and able to do the job.

I believe that Mayor Villaraigosa has the intelligence, talent, energy, courage, compassion, imagination, and experience needed to unite Los Angeles and move it forward to new greatness.

Antonio has shown this ability throughout his career as a labor leader, civic leader, and elected official. He has worked with Democrats and Republicans from all backgrounds and all parts of California to improve education, protect the rights of working families, expand health care coverage, and make our communities safer, better places to live.

Time and again, he has demonstrated the leadership skills that will help him make Los Angeles one of the world's great cities of the 21st century.

Antonio Villaraigosa has already made history by becoming the first Latino mayor of Los Angeles since 1872, but he has set his sights even higher. He hopes to make history by making Los Angeles work for all its residents, and I will do all I can to help him.●

##### TRIBUTE TO DR. PHYLLIS LEVENSTEIN

• Mrs. CLINTON. Mr. President, on May 28, New York and our Nation lost

one of its finest child advocates, innovators, and clinicians. Dr. Phyllis Levenstein, longtime Wantagh, NY, resident and founder of The Parent-Child Home Program, an international early literacy, school readiness program, passed away shortly after returning to Long Island to celebrate the program's 40th anniversary.

She was born Phyllis Aronson in Boston and grew up in Detroit. After graduating from Wayne State University in 1937, she taught in Detroit before coming to New York, where she earned a master's degree in social work in 1944 and a doctorate from Columbia University in 1969. She met her husband, Sidney Levenstein while working as a social worker in Manhattan during World War II. They married in 1946 and moved to Wantagh in 1957. Sidney, an Adelphi University Professor, who died in 1974, helped Phyllis develop The Parent-Child Home Program model.

In 1965, she identified parent-child interaction as the key to the development of early language skills and working with her husband, a statistician, created a pioneering model program. The Parent-Child Home Program, which Dr. Levenstein first piloted in Freeport, NY, in 1965, is a home-visiting program for families with 2- and 3-year-olds challenged by poverty and low levels of education. The program encourages parent-child verbal interaction through talking, reading, and playing and helps families create a language-rich environment in their homes. Longitudinal research shows that children who complete the 2-year program enter school ready to learn and graduate high school at the same rate as middle-income students. The program that began serving just 5 Long Island families in 1965 will reach 5,000 disadvantaged families across the country this year.

Dr. Levenstein's genius was in seeing the critical importance of parents engaging in continual verbal interaction with their young children through talking, reading, playing, and asking questions.

Over the years, she conducted and published significant research on the program's design and outcomes. The 88-year-old clinical psychologist was working on an expanded edition of her 1988 book about parent-child verbal interaction, "Messages from Home," when she passed away. A practicing clinical psychologist, Dr. Levenstein was in private practice in Wantagh for 44 years and continued to see patients up until her death. She also was affiliated with Stony Brook University and a number of Long Island mental health and child guidance centers.

Dr. Levenstein was a fellow of the American Orthopsychiatric Association and the American Psychological Association and a member of the American Educational Research Association and the Nassau County and New York State psychological associations.

Her children describe her as a person who derived true joy from helping peo-

ple and say that her soft touch was well-matched by her scientific tough-mindedness. Her principled humanism led as well to a lifelong impassioned advocacy of peace and social justice. Her colleagues will remember her great intelligence, intensity, and wisdom, coupled with integrity, warmth, and humility.●

##### McCROSSAN BOYS RANCH CELEBRATES 50 YEARS

• Mr. JOHNSON. Mr. President, it is with great honor that I rise today to congratulate the McCrossan Boys Ranch of Sioux Falls, SD, as it celebrates 50 years of outstanding service on June 29, 2005.

Established by Melinda Bell McCrossan, as the result of trust she created in honor of her late husband, the McCrossan Boys Ranch is a private, not-for-profit organization "dedicated to providing a place for boys to grow into men." Since its inception, Mrs. McCrossan determined that the ranch would be "a home where boys find a new hope for a better life."

In 1953, money from the trust was used to purchase four hospital buildings from the Sioux Falls Air Force Base that had been used during World War II. The buildings were transported 8 miles northwest of Sioux Falls, to the current location of the McCrossan Ranch. In 1955, the McCrossan Boys Ranch came to fruition as a working horse and sheep ranch designed to help boys between the ages of 10 and 18 handle the conflict in their lives and successfully live up to their own potential.

Education has always been one of the ranch's top priorities, as the organization stresses formal education, which includes academic and vocational instruction, as well as productive work and life skills. Prior to 1978, all residents on the ranch attended local public schools. However, now that the ranch operates its own on-campus approved special education program through a partnership with East Dakota Educational Cooperative, 85 percent of all residents attend the ranch's school. The other 15 percent attend local public schools, as reintegration into the public school system is the ranch's ultimate goal for all the boys.

Although residents are there for a myriad of reasons, the McCrossan Boys Ranch makes certain to provide each student with ample individual attention, in addition to the required weekly group goals sessions. Anger management, corrective thinking, victim empathy and various other issues are also addressed through these workshops.

In early 2004, McCrossan Boys Ranch received national accreditation from the American Corrections Association, with a 99.6 percent rating. This honor makes the ranch one of only three correctional facilities in all of South Dakota to hold this prestigious accreditation. In fact, only 1,500 correctional organizations throughout the Nation maintain this accreditation.
