

staff to help lead the Committee's investigation into the autism epidemic sweeping our country. As a valued legal advisor/investigator for the Committee, Liz helped us to elevate the level of public debate about this disease, as well as educate policymakers at all levels of government about the evolving science concerning the toxic effects of thimerosal—a mercury-based preservative commonly used in vaccines.

Like many of us who have been involved in this debate over the years, when Liz first heard about the connection between autism and thimerosal, she was skeptical. But she read everything she could find, requested government documents and studies, and in the end became convinced that thimerosal was in fact the cause of her son Matthew's autism. Armed with this knowledge, Liz helped to co-write the groundbreaking congressional staff report, "Mercury in Medicine—Taking Unnecessary Risks," published in the CONGRESSIONAL RECORD in 2003, which challenged the conventional thinking of the Federal Government, the public health systems, the medical communities, and the pharmaceutical companies on the subject of thimerosal and autism-spectrum disorders.

In addition to her government service, Liz served the autism community through her leadership in many nonprofit organizations. As the co-founder of the "Coalition for SafeMinds" (Sensible Action for Ending Mercury-induced Neurological Disorders), founder of Medical Interventions for Autism, founding board member of the National Autism Association, and co-creator of the Extreme Sports Camp in Aspen, Colorado, Liz brought joy, hope, and inspiration to many autistic children and their parents. In addition, Liz was one of the founding members of the autism community's first political action organization, A-CHAMP (Advocates for Children's Health Affected by Mercury Poisoning). Liz was especially proud of this venture; and in a short period of time A-CHAMP has become one of the driving forces behind the growing and highly successful movement to ban mercury at the State level.

I believe, as Liz did, that strong evidence points to the mercury unnecessarily used in vaccines as part of the autism problem, and that thimerosal played a key role in my grandson developing autism. The science is undeniable: mercury is a base element—and it remains a base element even when mixed with other materials—and the most toxic substance known to man outside of radioactive materials.

The fact is that no one has ever identified a positive health benefit to mercury in the human body, and as more science accumulates and more people learn about the dangers of mercury, more time runs out for those who continue to advocate that mercury in vaccines and other medical devices is safe. Eventually, even they will have to admit that it flies in the face of logic to suggest, much less believe, that a substance so dangerously toxic outside the body is harmless once injected into the human body.

Until that day comes, I know that I, and others like Liz who believe as I do, will not be silent about this issue or give up in our fight to make our world a safer and healthier place. And when that day does come, we will all owe a debt of gratitude to Liz Birt for leading the way and becoming a leader in a fight she would rather not have been fighting.

Liz will be sadly missed by all who knew and loved her. I respectfully ask my colleagues to join me in sending their deepest sympathies and heartfelt prayers to Liz's family. May God bless them.

HONORING DAVE WOOD, E. FLOYD FORBES AWARD RECIPIENT

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 15, 2006

Mr. COSTA. Mr. Speaker, I rise today to commend Mr. Dave Wood for his achievement in receiving the distinguished E. Floyd Forbes Award. This prestigious tribute is awarded to those who have proven exemplary service to the National Meat Association (NMA) and the meat and poultry industry.

Mr. Wood currently serves as the chairman of the Beef Division for Harris Ranch, Inc., a notable company who praises and recognizes his service, dedication and loyalty.

Upon graduation from California State University Cal Poly, San Luis Obispo in 1970, Mr. Wood relocated to the San Joaquin Valley and accepted a position with Harris Ranch, Inc. With the inception of his career, Mr. Wood embarked on a campaign to expand the company's feeding division, successfully doubling cattle productivity. Mr. Wood's unwavering demeanor and strong work ethic led him to assume more responsibilities within the company; opening the floodgates for his ingenious creativity to take form. Mr. Wood's contributions to Harris Ranch, Inc., include the establishment of the Partnership for Quality (PQ) program—a marketing technique that increased Harris Ranch, Inc.'s reputation by providing consumers with consistent, high quality beef. He also developed a line of fully-cooked premium heat and serve entrees as well as a number of fresh seasoned products to meet diversified consumer demand.

Mr. Wood's expertise goes beyond his role at Harris Ranch, Inc., with the ownership and management of Dave Wood Ranches and Wood Livestock, a cow-calf operation that is part of the Harris Ranch Partnership for Quality program. He is also co-owner of the historic Dressler Ranch near Bridgeport, California, a cattle and stocker cattle operation and he serves as a partner in Wood & Devine Cattle Co., Devine & Wood Farming, Inc., and Double D Farms.

In addition to those commitments, Mr. Wood has assumed leadership roles in several industry organizations including a member of the board of directors of Cattle-Fax, chairman of the Beef Committee and chairman of the National Meat Association's predecessor, the Western States Meat Association. He has sought other leadership opportunities including, serving as: Chairman of the Cattlemen's Beef Promotion and Research Board, chairman of the California Beef Council, executive committees of the California Cattlemen Association and United States Export Federation.

Mr. Wood's legacy of good stewardship and constant regard for upholding the industry's high standards has led him to receive several awards that recognize those efforts, including the Cattle Business of the Century Award from the National Cattlemen's Beef Association and the National Cattlemen's Beef Association En-

vironmental Stewardship Award. Mr. Wood was also the recipient of the 2003 Vision Award from the National Cattlemen's Foundation, a prestigious award given to individuals whose creativity and imagination inspire others and improve the world around them.

On a personal level, he is a caring and loving father of David, who works with his father on the cattle ranch and is his pride and joy. Dave Wood is a gentleman who cares about his Country, his work and most importantly the friendships of life. Every day he tries to make a difference.

It is with great pride and honor that I join Mr. Wood's family, friends and colleagues in commending his hard work and applaud his recognition as the recipient of the E. Floyd Forbes Award. Mr. Wood's passion and commitment make him a most deserving recipient of this award and a true pillar of this industry.

HONORING AXEL CARL HANSEN, M.D., DHL

HON. DONNA M. CHRISTENSEN

OF THE VIRGIN ISLANDS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 15, 2006

Mrs. CHRISTENSEN. Mr. Speaker, to be young, gifted, and Black during the first quarter of the 20th century presented unique and overwhelming challenges that not many African Americans could transcend. Among those who did was the distinguished physician, Dr. Axel Carl Hansen.

He has been a recognized researcher, scholar and expert in the field of ophthalmology for over 50 years. The combination of his unique commitment to human egalitarianism and equal educational opportunities for African Americans interested in ophthalmology has been a perennial beacon of light to those entering and those within the profession.

Dr. Hansen was born in my district, on St. Thomas, U.S. Virgin Islands, on March 4, 1919, and received his elementary education in the private schools of the island. His college-preparatory training was obtained at the Charlotte Amalie High School in St. Thomas, from where he graduated in June 1937. His leadership and scholastic skill were evident early in life. In his senior year in high school, he was president of his class, editor of the school's weekly newspaper, *The Reflector*, and editor of his class yearbook, *The Last Carb*. A member of the Quill and Scroll Journalist Society, he received the national society's "honorable mention" for a news article he wrote and published in *The Reflector* and won first prize from the Virgin Islands Daily News for an essay, "Nature's Masterpiece", which appeared in the initial issue of *The Virgin Islands Magazine*. He was one of two members of his graduating class to receive the honor society's Forum Award for outstanding accomplishments.

In the fall of 1937, Axel Hansen left the Virgin Islands to attend Fisk University in Nashville, Tennessee, where he graduated with a baccalaureate degree. He received his M.D. degree from Meharry Medical College in Nashville in March 1944 and pursued internship and 1 year residency at Homer G. Phillips Hospital in St. Louis in ophthalmology and otolaryngology.

Dr. Hansen, following that post-graduate training, was recruited by Dr. Charles Drew, the famous African American pioneer of blood storage, to return to St. Croix, Virgin Islands and assist in the delivery of medical care. As a municipal physician and general practitioner there, one of his responsibilities was the medical care of patients with leprosy. He modernized the treatment of that disease in the Virgin Islands by substituting the new sulfone drugs for the long used, but less effective, chaulmoogra oil.

Returning to the United States in 1946 to further his training in diseases and surgery of the eyes, ears, nose, and throat, Dr. Hansen spent 2 years at Meharry Medical College's George W. Hubbard Hospital. The year 1948–1949 was devoted to advanced training in the specialty at Provident Hospital in Chicago and the University of Chicago. Upon completion of his training he returned to Meharry Medical College as a full time instructor and he began a private practice.

Later, during a 3-year sojourn in the Virgin Islands, he served a year as president of the medical staff at the Knud-Hansen Memorial Hospital, and was the founder and first secretary of the U.S. Virgin Islands Medical Society.

In 1960, Dr. Hansen was appointed Associate Professor of Ophthalmology and Otolaryngology at Meharry Medical College and rose to the rank of Professor and head of the Department of Ophthalmology. He also served as medical director of the College's Hubbard Hospital for 6 years.

In 1968, he reported the first two cases of Norrie's Disease—a rare eye disease—in the United States, and has published several medical articles on that and other subjects.

His creativity has not been limited to medicine. Dr. Hansen also published a self-illustrated book of original poems, and a book, *From These Shores*, which consists of biographical profiles of influential individuals from the Danish West Indies.

The physician became the first African-American ophthalmologist to be certified by the American Board of Ophthalmology in the State of Tennessee. He is a Diplomat of that Board, a Fellow of the American Academy of Ophthalmology, a Fellow of the American College of Surgeons and a Fellow of the American Association for the Advancement of Science. He is also a member of Alpha Omega Alpha Honor Medical Society and Phi Beta Kappa Honor Society. Among his many citations are the honorary degree of Doctor of Humane Letters and the Distinguished Alumnus Award from Fisk University.

In 1987, he was the commencement speaker at his alma mater, Charlotte Amalie High School, from which he had graduated 50 years earlier.

Dr. Hansen retired from Meharry in 1985 as a Distinguished Service Professor Emeritus. In 1996, the American Academy of Ophthalmology awarded him the Academy's Outstanding Humanitarian Award, the second African American to receive that honor.

Today, Dr. Hansen is retired and living in Nashville, Tennessee.

Mr. Speaker, I ask that the Members of the U.S. House of Representatives join me in honoring this esteemed physician, educator, author and humanitarian.

HONORING THE HURLEY AUXILIARY

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 15, 2006

Mr. KILDEE. Mr. Speaker, I would like to recognize the achievements of a remarkable group of women and men in my hometown of Flint, Michigan, the Hurley Medical Center Auxiliary. On February 21, they will celebrate their 50th anniversary by holding a luncheon for the members and local dignitaries.

First organized on February 15, 1956, over 100 women attended the first membership meeting. In October 1959, the membership amended the constitution to allow men to join the organization. Currently there are 200 members donating 40,000 volunteer hours to Hurley Medical Center annually in 14 service areas.

Since its inception the Hurley Auxiliary has raised and given \$3.2 million dollars for Medical Center programs. Especially important to the auxiliary members is the care provided to children. During the 1950s they conducted the "Wish a Child Well" wishing well fundraisers and today the group is a significant donor to the Children's Miracle Network. The Auxiliary has generously supported pediatric programs and the Neonatal Intensive Care Unit.

Because of the Auxiliary membership's commitment to serving all patients, they have also raised money to purchase vans for Hurley's Senior Services. The vans allow seniors to have door-to-door transportation for doctor's visits. The vans are handicapped accessible and were paid by the Auxiliary through fundraisers, the gift shop and hospitality carts.

The Hurley Auxiliary has also contributed to the Michigan Association of Hospital Auxiliaries. Five Hurley members have served as president of the East Central District and two members have been president of the Michigan Association of Hospital Auxiliaries.

Mr. Speaker, I ask the House of Representatives to join me in congratulating the Hurley Auxiliary for 50 years of dedicated service to Hurley Medical Center and working to provide the best available medical care for its patients.

IN RECOGNITION OF DR. SUDHIR PARIKH

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 15, 2006

Mr. PALLONE. Mr. Speaker, on behalf of Congressman JOE CROWLEY (NY) and myself, I rise today to congratulate a Dr. Sudhir Parikh, a prominent Indian-American physician, activist and philanthropist, who was selected earlier this year to receive the prestigious Pravasi Bharatiya Samman Award for 2006, the highest civilian honor bestowed by India on non-resident Indians.

Every year, the Government of India nominates extremely worthy and valuable members of the non-resident community for this award who have made a difference to global well-being. It is clear that Dr. Parikh was chosen on his strong credentials.

Dr. Sudhir Parikh, who migrated to the United States in the late 1970s and is a re-

puted allergist in the tri-state area of New York, New Jersey and Connecticut, has made a significant difference in U.S.-India relations in the past several years. Dr. Parikh is a former president of the nationally recognized American Association of Physicians of Indian Origin, as well as a former president of the Indian American Forum for Political Education. He used these prominent organizations to promote Indian-American issues in Congress and to raise awareness within the Indian community. Today, he serves as president to the Federation of Indian Associations, continuing his critical role in bringing our two countries together.

He has contributed more than \$2 million individually to various causes from cancer research to tsunami relief and rehabilitation of earthquake victims in Gujarat. Besides his individual efforts, Dr. Parikh also joined with organizations like the American Indian Foundation, Share & Care, the Nargis Dutt Cancer Foundation and the Art of Living Foundation to raise funds.

As members of the Congressional Caucus on India and Indian Americans, we are pleased to have a friend like Sudhir, who has helped tremendously in building the membership of the Caucus and helped set up a new caucus in the U.S. Senate. He is a tireless advocate for the Indian community's interests and the global interests of India.

Mr. Speaker, Dr. Parikh is an asset to the Indian American community and his efforts are deserving of this great award. Sudhir fully embodies the commitment and values that the NRI Award represents.

TRIBUTE TO SANDY GERMANY

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 15, 2006

Mr. LEVIN. Mr. Speaker, I rise today to recognize Ms. Sandy Germany, National President of the Ladies Auxiliary to the Veterans of Foreign Wars of the United States.

Ms. Germany is being honored for her commitment and dedication to veterans all over our country who have served with bravery and honor in our Nation's conflicts. As a Life Member of Kiehler-Pippen Auxiliary #5658, her involvement hits close to home with her own father, Pete Frauenhoffer, who served in the Army Air Corps in World War II, her brother, Ronald, who served two tours in Vietnam in the United States Air Force and her son, Curtis, who has been in the military since 1986 serving in the U.S. Army in Korea and recently in Iraq.

The Ladies Auxiliary to the Veterans of Foreign Wars of the United States is dedicated to the principle of freedom for all people around the world. The organization's plans for 2005–2006 include helping veterans and their families by caring for their children at the VFW National Home for Children, providing special assistance through the Rehabilitation Program, volunteering in VA Medical Centers, sending care packages to the troops in Iraq, Afghanistan, Kuwait and Qatar, and teaching young people about the responsibilities of citizenship.

Ms. Germany was elected and installed as National President of the Ladies Auxiliary to the Veterans of Foreign Wars of the United
